RUPTURE

EXPERT HERE

SEELEY, FAMOUS IN THIS SPECIALTY, CALLED TO ALBANY

F. H. Seeley, of Chicago and Philadelphia, the noted truss expert, will personally be at the St. Francis Hotel, and will remain in Albany Thursday only, May 3rd. Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast advancement over all former methods—exemplifying instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases, or incisional ruptures (following operations) specially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions." Warning—All cases should be cautioned against the use of any elastic or web truss with under-strap, as same rest where the lump is and not where the opening is, producing complications necessitating surgical operations.

Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. He will be glad to demonstrate without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

P. S.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seeley.

Two large cakes bearing 13 and 14 candles were features of the evening. Games were enjoyed and refreshments served at a late hour.

A FINE GIFT

Through the courtesy of I. Campbell of Albany, Leonard Gilkey has received 10 ears of Reed's Yellow Dent Corn from the farm of Webb Workman of Maxwell, Ill. Mr. Workman is one of the leading corn growers of the United States, in fact a champion corn grower of the U. S. winning sweepstakes and \$2,500 for the best 10 ears of corn at the International Corn Show. He has spent years developing this strain of corn to its present stage of perfection. Mr. Campbell, who is an authority on corn himself, while on a visit to Illinois last fall, went to the fields of Mr. Workman and selected the 10 ears which he brought Mr. Gilkey Monday. Mr. Gilkey will plant this corn on his river bottom farm and hopes to acclimate and develop a strain of this corn which will be superior to any now grown in the Willamette Valley.

TO THE FARMER

Let the wealthy and great
Live in splendor and state,
I envy them not, I declare it:
I eat my own lamb,
My chicken and ham,
I shear my own fleece and I wear it.
I've lawns, I have bowers,
I've fruit, I have flowers.
The lark is my morning alarm;
So jolly boys now,
Hear Zed speed the plow,
Long life and success to the farmer.
