as second class matter.

No. 45

Baby Swallows Safety Pin

While trying to amuse and play with their three-months-old baby brother last Thursday, one of the small children of Mr. and Mrs. Joe Rubesh, unfastened a safety pin from the stocking of the little tot and put it in its mouth, not realizing the danger from this act. The baby swallowed the pin, which was open, passing down the throat and lodging midway between throat and stomach, where it remained until Saturday when it passed into the stomach.

On Friday an X-ray picture was taken of the baby, when the pin was located in the throat. On Saturday Dr. Prill and the parents took the baby to Portland to consult a specialist and have the pin removed. The baby was placed under anesthetics and for 45 minutes the doctors grappled for the pin, and as they were about to grab it with the forceps the child swallowed and the pin passed into the stomach. As soon as the child was able it was brought home. Dr. Prill took another X-ray, which showed the pin in the stomach with the point of the pin down. On Monday two more X-rays were taken, one showing the pin turned with the point up and the other failed to locate the pin, and on Tuesday morning the baby safely passed the pin.

The case, while serious, has been very interesting and informative to Dr. Prill. He is highly elated with the outcome, and the parents are over-joyed that their baby does not have to submit to the surgeon's knife.

Curtain Scrim

Hibler & Gill Co. have just received a nice new line of Curtain Scrim and other material suitable to help dress up the house. See our lines before buying and save money.

The local boys, composed of a pickup nine, defeated a like team from Jefferson on the Thayer diamond Sunday by a one sided score of 20 to 2. The visitors took their defeat in true sportsmanlike manner, and seemed to have a good time while in Scio.

Couey New Director

A small number of the patrons of School District No. 95 turned out Monday afternoon to attend the annual meeting, when a director and clerk were to be elected.

The minutes of the annual meeting a year ago and of the several special meetings were read and approved, as was also the annual report of the clerk.

On the call for nomination for director for the three-year term, W. A. Ewing and J. B. Couey were nominated. The ballot being spread, the count showed 14 for each. A second ballot was ordered, resulting in 15 votes for Mr. Couey and 13 for Mr. Ewing. The chairman announced the election of Mr. Couey. Mrs. Eulala Arnold was chosen clerk by authorizing the clerk to cast the unanimous vote for her.

Chairman Shelton here announced that the following teachers had been employed to teach in the high school next year: L. Ramsey of Malad, Idaho, principal; Irma Fanning of Salem, assistant principal; and Hazel Hall of Albany, domestic science.

Prof. Tobie gave a report of the finances of the student body on the gym, showing that \$1281.71 had been paid on the total indebtedness and that \$876.21 had been paid on the floating debt of the gym, but there was yet \$350 due for labor and material. He asked the school board if it could not loan the students this amount. It was stated by the chairman that the board had no money to loan. Thereupon a motion was made authorizing the school board to secure a loan for the students, which carried by a vote of 13 to 9, taxpayers only participating, and the chairman declared the motion carried.

Former Resident Dies

Word was received by Pete Bilyeu yesterday from his brother in Spokane, saying that James Logan, who came here in 1852 by ox team from Missouri and took up a donation land claim in Bilyeu Den, had died at the home of a granddaughter on Saturday in that city.

The deceased will be remembered by all the old-timers. For several years he operated a sawmill on the site where Wm. Brenner now lives, and although he could not read nor write, he was rated as a good lawyer, his wife doing the reading. In later years he sold out here and removed to Whitman county, Wash., and became prominent politically. Several children and grandchildren survive him. He was 85 years old and had been a Mason for 40 years. His wife died 15 years ago, beside whom he was buried at Farmington, Wash.

Fleeces Are Sold

The wool growers of this section held a sale Tuesday at the office of Riley Shelton and disposed of their fleeces to the highest bidder, and in this case it proved to be Al Sternberg of Albany. The prices range 39c for the medium and 26c for the coarse, which in the light of the present market is considered good. If the growers had been ready to sell two weeks ago, it is said, the prices would have been at least six cents higher all around. There were about 2,000 fleeces in the lot.

Mrs. C. A. Everett went to Portland Monday on business, returning yesterday.

Congressman W.C. Hawley Is Coming

The committee appointed at the last meeting of the Community Club to complete arrangements for holding a community graduation exercises for all scholars who have passed the eighth grade exams and will enter some high school, has been working hard on the idea and are meeting with some success.

The committee has set Thursday, June 28th, at 8 o'clock p. m., as the date and time, and the big gym in Scio as the place. It is believed by the committee there are about 80 such graduates in the community and if they could all be here on that night it would be an event in their lives and the life of the community that will never be forgotten. Competent speakers will be provided to deliver appropriate addresses, and the most pleasing of all will be the announcement that Congressman W. C. Hawley will be here on that night and deliver the graduation address to successful pupils. This is the first time our people have had an opportunity to hear Congressman Hawley in a number of years.

J. W. Miller and H. E. Tobie is the committee, to whom all inquiries about the exercises should be made. Of course everybody will be there.

This is practically new procedure in the west, and the few places that have brought the eighth grade graduates together on occasions of this kind report it a wonderful incentive to the scholars to seek a higher education and in bringing about a happier community.

To Observe St. John's Day

Scio Lodge No. 39, A. F. & A. M., and visiting brethren will observe St. John's day by attending services at the Christian Church Sunday evening, June 24th. Rev. E. V. Ostrander of Eugene, commencing at the usual hour of eight o'clock, will deliver a lecture of special interest to the Masonic Fraternity.

Everybody cordially invited to attend this special service.

Salem Senators vs. Scio

Game Called 2:30

Don't Miss This Game

Ash Swale Good Hosts

Last Friday night the Ash Swale Hunt Club were hosts to members of Santiam Fish and Game Association, and they proved the best ever. They know how to provide a banquet, how to prepare it and how to serve it—the tables fairly groaned under the loads of good things to eat, and everyone, including the Scio delegation, did ample justice to the feast.

The Ash Swale Hunt Club is different. It takes in every phase of community life, from annihilating predatory animals and pests, protecting fish and game to bettering the community in which they live. Once a year they have their round up on pests and a big feed follows; they have built a playshed at the school for their kiddies to use during the winter, and they meet regularly to talk over conditions in the community and how to solve them. They work together and the result is a happy people.

Friends were there from Albany, Harrisburg, Brownsville, Lebanon, Shedd, and Scio. The address of Fred M. Brown, secretary of the State Game Commission, was the event of the evening. He covered every phase of the game laws, told from what sources money is received—licenses and fines—and how this money is expended, in propagation and planting of fish, game, etc. and their protection. A little over \$300,000 is received through these channels and not one cent from taxation.

Others who spoke were W. W. Poland, who gave a history of the Ash Swale Gun Club since its organization 15 years ago; Ed S. Hawker, Waldo Anderson, J. R. Gambol and I. V. McAdoo. It was suggested that a fish hatchery should be located in Linn county, and President Stellmacher promised to bend every effort to locate one on South Santiam or Calapooia rivers.

Dr. Fieg, H. E. Tobie and I. V. McAdoo attended from Scio.

Some For, Some Against

The four districts in the communities comprising Mt. Pleasant, Bilyeu Den, Jordan and Shindler held their annual school meeting Monday and elected directors and clerks, as follows:

Shindler: Z. J. Clark and W. H. Grimes, directors; F. Shelton, hold-over; Christine Hildreth, clerk. On consolidation of schools, five voted for and four against.

Jordan: Chris Silbernagl and A. Salzer, directors; August Bender, clerk. No vote was taken on consolidation with the other districts, we understand.

We were unable to get anyone on the phone in Bilyeu Den or in Mt. Pleasant to find out who were elected directors and clerks, but it was reported that these districts were opposed to consolidation.

Good Ball Game Sunday

Last Sunday Scio's ball team went to Knox Butte to cross bats with the Price team, who a few weeks before met the local team on the Scio diamond and suffered defeat. The game Sunday was called at the end of the fourth inning on account of rain, the score being 4 to 2 in favor of Price.

Next Sunday, June 24, the locals will play the Salem Senators on the Scio Diamond. This game no doubt will be the best of the season, as the Senators are rated as one of the strongest teams in the valley. Scio will be materially strengthened for this game, as they realize they are meeting a mighty strong aggregation. It is expected the largest crowd of fans of the season will see this game.

A two day schedule is being arranged for July 3d and 4th, which will be announced next week.

Roundup Looms Big

The roundup staged by "Broncho Bob" at Aumsville last Sunday was handicapped by the rain, but even that didn't keep a good sized crowd from attending and enjoying the events. Two local horses were brought in and used, and some of the boys who thought they could ride tried out some of Bob's horses and were tumbled off.

The roundup for Scio promises bigger and bigger as the days draw closer. Several horses and cattle have been hired from Philomath and they will be used in addition to the original string carried by Broncho Bob. The barbecue on the Fourth also promises a big drawing card.
