WHAT CAN
CHIROPRACTIC
DO FOR ME?

The answer is simple: If the *Cause* of your trouble is Nerve Pressure, and the chances are that it is, *Chiropractic Vertebral Adjustments*, given by a competent Chiropractor with the bare hands alone, will relieve this pressure. The effect of this pressure is to impede the normal flow of *Vital Force* to all the organs of the body. This then gives rise to another effect, called disease. When the *cause* is removed the *effect* disappears; for, without *cause* there can be no *effect*.

If Chiropractic had not really afforded relief to hundreds of thousands of sick and suffering men and women during the last twenty-five years, the Searchlight would have long ago revealed that fact, and Chiropractic would have died by the wayside.

On the contrary, Chiropractic is now *Stronger* than it ever was. Publicity has strengthened it instead of weakening it, and above everything else, this wonderful Drugless Health Science is for *you* and *your family*.

Investigate at once. Do not delay. Every day you delay means that much longer for you to regain your health.

Ye editor attended a meeting of the Ben Franklin Club in Salem Saturday evening. This club is composed of the employing and executive heads of the newspapers, and job offices in the counties of Clackamas, Washington, Benton, Linn, Lane, Marion and Polk.

In the ad last week announcing the admission to the Rodeo we inadvertently left out the admission to be charged children. The prices should have read, children, 50¢; adults, \$1.00, including the tax. But don't let this keep you away, as the show will be good.

A. T. Powell brought a piece of wood to the Tribune office that was taken from the center of an old tree, which bears the marks of 100 years old, that had been set fire to in an early day. The tree had grown entirely around the burnt portion which was not visible to the eye. It is supposed the Indians set fire to the tree 75 or more years ago. The sample had not become hardened with age, the covering by the growth preserving it in its soft state. Ten or more cords were cut from this tree.
