CAREFULLY CONDUCTED VISION
SURVEYS shows that 62% of all children
between the ages of six and sixteen
have defective eyes.

Most of these children are being
forced to do school work under the
handicap of a constant nervous strain
caused by neglect of eyes that need
help. And the pitiful part is that the
parent's ignorance of the conditions
does not save the child from the penalty
he is constantly paying.

natural beauty.

Our telephone company, No. 18,
met Thursday night and re-elected
all the old officers to serve another

we now have good service. No one
is cussing line No. 18.

High School Notes

Interesting speeches were made
Monday morning by Kenneth West-
tenhouse, Lillian Vaetecka and John-
nie Wesely, in which they told of
their experiences at the High school
Editors and Student body officers con-
ference at Eugene on the 11th and
12th. They reported a very in-
structive and enjoyable time.

Rudolph Wesely, chairman of the
school board, addressed the high
school students last Friday on the
need of caring for colds and other
diseases, which are often lightly re-
garded.

The boys, and girls' basketball
teams went to Mill City last Friday
night. The girls succeeded in ty-
ing their game with a score of 12 to
12. The boys were defeated 15 to
11. The boys played one of their
best games of the season. They
succeeded in getting a good offense
with McKnight and Small at for-
ward and Knauf at center. Time
after time this combination broke
through Mill City's defense. Mill
City failed to solve the defense of
the Scio team until the last quarter
when they scored nine of their points.

The first semester will end next
week, and one can tell by the way
some of the students are studying,
that they are not expecting easy ex-
aminations.

The boys will mix with the Albany
high school hoopers on the Albany
floor next Friday evening.

The basketball girls will play the
Silverton girls in the Scio gym on
Friday evening. The Scio girls won
three and tied one, and we think
they deserve the town's support.

Tips For Taxpayers

No. 2.

Every single person whose net in-
come for the year 1923 was \$1,000
or more or whose gross income was
\$5,000 or more, and every married
couple (living together) whose net
income was \$2,000 or more or
whose gross income was \$5,000 or
more, must file an income-tax return.

Broadly speaking, gross income is
all income received by the taxpayer
during the year from salary or
wages, business, trade, profession
or vocation, dealing in property,
interest, rent, or dividends, or from
the transaction of any business
carried on for profit. Net income,
is gross income, less certain specified
deductions for business expenses,
bad debts, taxes, etc.

The exemptions are \$1,000 for
single persons, \$2,500 for married

couples (living together) whose net
income for 1923 was \$5,000 or less,
and \$2,000 for married couples
whose net income was in excess of
\$5,000. An additional credit of
\$400 is allowed for each person
(other than husband or wife) depen-
dent upon the taxpayer for chief
support if such person is under 18
years of age or incapable of self-
support because physically or men-
tally defective.

The normal tax is 4 per cent on
the first \$4,000 of net income in
excess of the exemptions and credits
and 8 per cent on the remaining
net income.

Why Mr. N. Windsor (R. I.) Put Up
with Rats for Years

"Years ago I got some rat poison, which nearly
killed our fine watch dog. We put up with rats
until a friend told me about Rat-Snap. It surely
kills rats, though house pets won't touch it." Rats
dry up and leave no smell. Prices, 35c, 65c, \$1.25.
