

KNOWLEDGE OF OUR OWN IS OUR BEST RESOURCE

As we grow older we sometimes wonder if we are learning as we should. Do we here in the Forks or the Santiam realize that we are living practically in the "Garden of Eden?" If we do not, it is only necessary to travel about a little and we will realize the fact. Do we as a people realize that the stores below and elsewhere advertised in this paper are here for our convenience, ready to serve us on a moment's notice? Do we realize that the convenience means not credit, but SERVICE and at right prices? Do we realize that if we continue to send away or go away for anything we need only hastens the day when all trade will be centered in the large cities, and that then we will be at the mercy of the larger stores at a distance and will have to pay whatever price is exacted? The country town stores are here for our protection, as they are the great stabilizer of prices throughout the length and breadth of this fair land. When we understand this the small town tradespeople will come into their own and the farmer and laborer, the sheepmen and the dairymen, will become more prosperous. The following low prices are for cash or produce.
