

Locals

Mrs. J. W. Parrish was in Jefferson Saturday on a short visit.

The Scio Creamery is paying 18c cash for eggs, and 35c for cream—all you bring in.

Mrs. Fred Mumper and son went to Junction City Monday afternoon, returning Tuesday.

N. I. Morrison was in Jefferson on business Tuesday morning.

Ralph Donovan left Monday night for Verona, Ore., where he will be employed.

Fred Bilyeu, Audie Unger and Rudolph Young attended a Ford Motor Clinic in Salem Monday.

George Stoddard was in Salem Sunday. Just a secret about George—he has a girl and he took her to a picture show while in the capital city.

Frank Bartu Jr. has just finished painting his residence.

Con Westenhause found time to come in from the ranch Monday on business.

Painters began Tuesday morning the painting of the exterior of Dr. Prill's office.

Fred T. Bilyeu, wife and daughter, Virginia, and Miss Hazel Howard spent the week end in Portland.

E. D. Myers and family spent Sunday in Salem at the home of his brother, state treasurer Jefferson Myers.

J. L. Rodgers is in Portland with a load of sheep. Jess is sure doing a good business in the sheep line this year.

Wm. Young and wife left Wednesday morning for their home in Camas, Wash., after a ten-day visit with relatives here.

Everett Donovan and family of Verona and Miss Myrtle Donovan of Portland spent the week-end with their parents, Mr. and Mrs. C. M. Donovan.

Mrs. S. B. Holt, who is secretary of the Linn County Jersey Cattle Club, attended a meeting of the board of directors in Albany last Saturday.

W. B. Bowser and family moved to Albany the first of the week, where Mr. Bowser will be employed. He will be associated with Will Garland at painting.

Owing to the fact that scarlet fever is raging in Jefferson, the baseball game scheduled between the high school team of that city and the local high school team last Friday was canceled.

Mrs. J. L. Rodgers returned from a two-weeks visit with her mother, Mrs. Anna E. Shannon, at Kelso, Wash., last Thursday. Her mother accompanied her home for a visit with the daughter and other friends.

Hugo Daley and wife and John Daley of Medford were recent visitors with their aunt, Mrs. Sarah Daley. This was John Daley's first visit to Scio since he left here in 1872, when he was but eight or nine years of age.

What do you think of the proposal to place a large sign at Jefferson? Is it wise to have a "scout" at the crossing of the roads there directing people to look over our community? If you do, tell the Tribune about it and it will tell the whole community?

Prof. Baldwin of Mist, Oregon, was here Saturday making application for the local school next year. The professor has some very fine recommendations from other places where he has taught. While here he made a very favorable impression with the school board.

For weekend guests, Frank Gill and wife had their little niece, Donna Gill, and friend, Beatrice Bennet of Lebanon. On Sunday, accompanied by Miss Josie Kotan, all went to Wilson park, where they enjoyed the day, later in the evening taking the two little girls back to Lebanon.

I. V. McAdoo and wife and Prof. and Mrs. Lauriston Ramsey drove to Salem Sunday afternoon and visited the Tulip farm. The roads near the farm were packed with sight-seers and their cars, which shows the farm is a wonderful drawing card for the capital city. They came back by way of Silverton, making over a hundred mile trip.

Excavation on the basement for the new home of Mr. and Mrs. J. D. Densmore has been commenced, and work on the structure by T. B. Propal will be rushed to completion. It is to be modern in every detail, and no doubt will be the finest home in Scio. We need more such progressive people in our city, and it would begin to grow as its environments warrant.

To Operate Cheese Plant

Within the next thirty days the local condensery will have installed the necessary machinery for the manufacture of cheese here in Scio. This is in line with the policy of the company to handle all the milk that can be brought to the condensery, and the cheese plant will help in solving the problem. This solves the vexed problem of many dairymen of where and how to dispose of their milk, since going into the dairy business.

Each and every industry brought into the community, or enlargement of plants already here, adds a few more to the payroll, and payrolls are the backbone of every locality. We welcome the decision of the condensery to establish a cheese factory, and bespeak for its greater patronage.

Traveler Visits Scio

Lawrence Parker, a friend of Arnold Muck, with whom he had worked on road construction for the state of Oregon, visited his friend for a week or more and left for his home in New Hampshire the first of last week. Mr. Parker has just returned from a trip to the Orient, where he studied conditions quite minutely. He said the Orient was a beautiful place to visit, but he would not want to work or live there. He says the Japanese work for 1 1/2c per day, and carry as much as four sacks of flour or sugar at one time on their backs, and that wages are as low in other countries across the Pacific. He brought back with him many souvenirs, which he prizes most highly.

Arnold Muck and Clarence Shimanek spent the week end in Portland, driving down in the Muck car. They report a fine time, as is the case with most young men.

G. W. Morrow and wife, who have been spending the winter in Eugene, returned to their home in Scio last Saturday. Mr. Morrow is greatly improved in health, although he must take good care of himself.

The community club of Stayton will give a home talent entertainment at the Forester hall in Stayton tomorrow night. Dr. G. F. Korinek, president of the club, was in Scio last Saturday and invited the members and friends of the local club to attend. A nominal fee will be charged at the door.

J. D. Densmore, Jr., has been made captain of the Albany College baseball club, and was given quite a write-up in the Oregon Journal last Friday. Owing to the unfairness of the umpire, the college team lost the game with Newberg last Friday afternoon. Johnnie is catcher for his team as well as the captain.

Don't forget the community club meeting at Crabtree Monday night. This is the regular monthly meeting of the club, and members of the Linn County Open Forum will be present. You help yourself most by attending these meetings, for there you meet old friends and make new ones. Besides, you are boosting your community by attending, and at practically no cost of money or time.

Ira Bilyeu and Frankie Bilyeu spent the weekend in Portland. While there Ira visited the new Pythian home at Vancouver, and reports it of magnificent construction, and the furnishings entirely of steel and as near fire proof as it is possible to construct a building. The builders have eliminated stairways and placed the inclined tramway instead. There are two kitchens, each as large as the local Z. C. B. J. building in Scio. The quota to which the present structure is capable of housing is complete, and

more cottages are to be constructed immediately to care for all those who have made application to enter.

You'll Find Your Want Here
