

SANTIAM FARM NEWS

June 24

Today is the 81st birthday of S. W. Gaines, and he is celebrating the great event by going to Scio to have the time of his young life. I was presented with a fine cake from my niece, Mrs. Inez Stoddard, of Portland, and a nice tie from my son, Theodore. Mrs. Wm. Fuller, formerly of the Scio hotel, also sent a big cake and trimmings from Shedd, where they now live. These kind remembrances makes the old man feel better, as he is enjoying fairly good health, only a weakness in my legs. I am thankful to be able to care for myself, as I see so many old men so much worse off than I am. I am well aware that I am on the downward grade and cannot reach the brake, but while I can I am going to enjoy life and thus help the old world to be a better place in which to live.

"Uncle" Joe Wesely and George Forge called in at the Santiam Farm Saturday for a social chat and a good time—and they enjoyed eating cherries.

John Griffin drove up from Salem Saturday morning to enjoy a visit with his brother, Curtis and wife, of Los Angeles and his mother, Mrs. S. W. Gaines. He was quite hoarse with bronchitis.

Mesdames Manda Montgomery and Hannah Ray came over Friday for a supply of cherries, getting 23 gallons, and enjoying an old-time chat of bygone days.

Our lovely long-looked for rain came at last, in the niche of time, which was a God-send to the people as well as crops and gardens. We all feel greatly relieved, being assured we will have plenty to live on and to spare, for which we are very thankful, and have no reason to worry or complain.

Ira Morris and wife of Portland came Saturday bringing his mother, Mrs. Rebecca Morris of Scio, home. They called in at the Santiam Farm for an evening's chat and visit with his aunt, Mrs. S. W. Gaines, returning to Scio to spend the night with his mother. He returned to Portland Sunday, as he is a bridge carpenter at Hood River.

Saturday afternoon Clarence Lovejoy and wife drove over from Dallas for a visit with her mother, Mrs. S. W. Gaines.

John Henry Hartley, wife, son and daughter of Shindler's bridge called in for peas and cherries.

Hay cutting is now the order of the day, as most everyone is anxious to get his hay in the barn while this nice weather lasts.

While John Griffin was up, he took the old man and Curtis Griffin on a business trip to Scio, making the round trip in one hour, between 12 and 1 p. m.

Billy Reed of Scio has a band of sheep on his farm at the head of Raccoon Hollow. Some good neighbor's dog got among them and tore up a lot of them. Two could not be found.

Joseph Kalina tells me he is going to sell his fine cows and quit the business.

George and Clifford Griffin called in Sunday for a chat with his sister, Mrs. Lovejoy, and a square meal.

Mrs. Lula Milligan, two daughters and son, Wilbur, called in Monday afternoon for cherries and a nice chat with Curtis Griffin and wife, who were running the farm, as the old man and better half had gone to Crabtree to visit his son, M. C. Gaines. Mrs. Milligan is now a resident of Crabtree. Mrs. M. C. Gaines has regained her usual health under the care of a young doctor in Lebanon, for which she is very thankful.

The Great American

PIE EATER.

With the advent of the political campaign upon us, it is well to discern the difference between men and measures. The professional politician is for most any measure that will take him into office, but at heart is against it as his vote a few months later will prove. The man who is for a measure, like the compensation act or for the relief of the farmer and tells why he is for them, is the man we should elect. The measure is the expression of the will of the people, and should be inviolately followed, while the man is only the personal ambition of an individual seeking preferment. Let's not conflict these two by forgetting the former in electing the latter.

It is said there are over 100 well improved farms untenanted in Linn county. The reason for this is that farming is not profitable, and one of these reasons for unprofitableness on the farm is our continuous moving of our farm farther away from markets by patronizing the trucks, stages and mail order houses. The above are facts, and the sooner we reverse ourselves the better.

Germany is buying American mules to replace oxen in agricultural work, reports the United States Department of Agriculture. A shipment of 64 Missouri mules from 5 to 6 years old and of good conformation was recently sent to Hamburg on contract. This was the second shipment of this kind this year.

A Scio man says he is getting so he can't tell a man from a woman when he sees them walking down the street. With bobbed hair and dressed like men, it is pretty hard to tell the difference, brother—at a distance.

Since LaFollette quit the Minneapolis convention because of the domination of the ultra-radicals, how can his enemies call him dangerous? Maybe they mean the "reds," but they don't say so.
