THURSDAY, Oct. 23, 1924

SPECIAL ELECTION TOMORROW

Tomorrow, Friday, Oct. 24, 1924, is the day set for the special election to amend the charter so the city of Scio can sell its electric power plant and distributing system. All the pamphlets have been printed and were mailed to each and every legal voter in the city last Saturday.

WHY NO CITY TICKET

Practically every member of the present city council, including the mayor, announced several weeks ago that they would not be candidates to succeed themselves as members of the city council for the coming term. So far no petition has

Torrance Reconditioning Shop and Parts for All Cars... ALBANY, OREGON 212 E. First Phone 379

been circulated and now it is too late for one to be circulated and a complete list of names secured to fill the several offices. This means that voters will have to go to the polls on November 4 and write in most any name that comes to their mind.

It is very necessary that good and competent men or women be selected to guide the destinies of the city for the next two years. There is a probability that much will depend upon the growth of the surrounding community by the business ability of the city fathers.

RE-ELECT PAYNE

The editor of the Tribune is intensely interested in good roads. He has been a stalwart in the belief that when roads are built it is meant for them to be kept "put." In the last two years Linn county has built more good roads than ever in its history.

they are so placed, or would he curtail on the roads and let them wear out? From both republican and democratic sources we have been informed that his policy is to curtail road work and thus reduce taxes on roads and other means of transportation for the farmer to get his crops to market.

HE HAS MADE GOOD

There is but one farmer upon the legislative ticket from Linn county in the coming election, and that is S. H. Goin, who represented this county in the legislature in 1923. Sterl, as he is known, proved himself a friend while there of the farmer and stockman, and we believe he should be re-elected.

SALT AS A PREVENTATIVE FOR GOITER

That the State of Oregon has an abnormally high percentage of individuals affected with goiter has been a matter of common knowledge for years, but only recently has any particular attention been given to it. Iodine is necessary for the proper function of the thyroid gland. When the storage of iodine in the thyroid gland gets

below 0.1% the gland begins to enlarge and a goiter is formed. It has been shown beyond doubt that endemic goiter is due to a deficiency of iodine in the water and food in goiterous districts. It is also known that beginning goiters have frequently been made to disappear by the use of iodine.

Endemic goiter is definitely and easily preventable. Existing enlargement may be frequently caused to disappear through administration of some form of iodine. As to the form of iodine to be used, it should be low in cost and in a form that will insure its regular use.

The average person eats about seven pounds of salt a year and in order to furnish sufficient iodine .02% of sodium iodide has been added to common table salt.

There is no danger of causing ill effects by the use of iodized salt and is therefore recommended for the prevention of simple goiter. Simple goiter is a gland enlargement which can be prevented if treated in time.

Costs of Government Cut.

The bureau of the budget, under General Dawes, put the government on a sound business basis, resulting in a reduction of public expenditures from \$5,538,000,000 in 1921 to \$3,497,000,000 in 1924, a decrease in the annual cost of government of \$2,041,000,000.

Naval Expense Cut Down.

As a result of the Washington conference for the limitation of armament, called by President Harding, the United States was saved \$500,000,000 annually in its naval expense.
