

"Going Over the Top" at the Exposition

The Pacific International Livestock Exposition is an educational institution. Its exhibits are brought for the purpose of teaching the public something of the work done toward perfecting animal life for the benefit of mankind.

But if, while learning this lesson, one may have a good time, it is so much the better. There is one unique part of the Exposition which delights and charms the public more than any other, and that is the horse show.

It used to be the Night Horse Show, but so popular did it prove and so great were the crowds that came to see it that matinees were added in the afternoons of the last three days. Last year it was asserted by visitors who attended the great horse shows of America every year, that the Pacific International was surpassed in

variety of performance and excellence by no other horse show in America.

Some of the finest show horses in America were at the 1923 show and they gave performances worthy of their reputation. This year even more elaborate preparations have been made for the show. Some wonderful horses, both for form and action, are to be here. There will be shown all the galls, and all the feats possible within a horse show arena.

Rapidly this show has come to the front and today it enjoys an astonishing reputation. The blue ribbons it grants for conformation and performance are eagerly sought by the best drivers and owners of this country. It is assured already that the show this year will surpass in brilliance and thrilling quality and class all its predecessors.

The spectacle of industrial exhibits will be one of surpassing beauty. In a blaze of light, every color of the rainbow will be blended to express and emphasize the quality of the fruits and vegetables, the wares of every kind, to be exhibited. The best music obtainable will be supplied every afternoon and evening. The Manufacturers' and Lead Products Show and Grains and Hay Show under the management of C. D. Minton, the Dairy Products Show in charge of L. B. Ziomer and other features deserve more than bare mention but space forbids.

The Pacific International Livestock Exposition affords every man, woman and child both education and enjoyment. It is held at North Portland November 1 to 8 inclusive.

To the Voters of Linn County

Anyone who is elected to an office in this county must receive a large republican vote, but county and state offices should be considered as business enterprises to be removed from partisan politics and run as economically as any private business.

Nearly all cities have ceased to have republican and democratic tickets in their municipal elections.

In asking your support for the office of County Clerk, I ask you to be guided by your business judgment.

The question of qualifications need not enter in because I freely acknowledge my opponent as having been a satisfactory official during the many years of his incumbency, and he has freely and publicly professed his belief that I would do just as well if elected.

Everyone is advocating economy, but few are showing us just where and how a saving can be made. If given the opportunity, I pledge myself to save the public at least \$700 per year without lowering the efficiency of any office.

If elected, I will ask the legislature to reduce the salary of the office from \$2000 to \$1600 per year, which sum will always insure competent service in the office. (I wish here to correct a mistake in the ad published last week; the reduction once made in the salary of the office was to \$1800 per year instead of \$1500.)

I believe that business judgment would dictate that the office of Recorder be merged with that of Clerk as is done in all but six other counties in the state. A deputy clerk at \$1200 per year will do the same work as a Recorder at \$1500. Net saving of \$300 per year.

If an annual saving by a clerical officer of nearly one-half the salary he expects to receive appeals to your idea of good business, I will greatly appreciate your support.

Respectfully yours,
Paid Adv. by HENRY NOLAN.
