Where the Money Is

It takes money to live comfortably. The place to get money is where the money is. People live comfortably in this community because there is money here. There is money here because people who live here buy here.

Cities or communities become poor when residents send their money elsewhere. Local trading is the secret of every prosperous territory's prosperity.

You can buy here as well as anywhere, usually better, and the more you buy here the better you can buy. The better you can buy, the more you can buy. And the more you can buy the better you can live. It's an endless chain dragging everybody nearer to independence and its rewards.

W. F. Gill and wife and Guy McKnight and wife drove to Silverton Sunday to take Frances Coffey to the home of her grandmother, Mrs. Sarah Hepburn.
