The attempted jail break the other day at Albany came near being a reality, prevented only by timely arrival of a deputy. It seems now that every prisoner is a desperado, and that separate cells must be provided. There were five in the attack on Sheriff Richard, and he sure was lucky by the arrival of a deputy.

In this day no one is too old to be called to serve mankind, nor is his past record any barrier. Von Hindenburg, said to be the Kaiser's right hand man to bring back monarchy to Germany, has just been elected to the presidency of the German republic. "Hindy" denies the allegation, and says his sole ambition is to serve his country for the greatest good to all. Being a warrior, it may be well to watch his service.

The school page is most interesting this week; in fact, it is the best the students have furnished during the present school year, in our opinion. There is an abundance of real talent in the school, which is being developed by the present corps of teachers, and the high school should receive the hearty support of parent and patron. There is no reason why the enrollment next fall should not be 60 to 80 students, and it will be if each of us do our duty by the school.

Sunday evening on the Pacific highway, three miles north of Salem, two cars were racing, with the occupants at the mercy of the drivers. Of course, the law was broken, but suppose somebody had met an untimely death because of a broken law and each driver survive, would they be permitted to drive a car and further menace lives. No law has ever been made that someone didn't break, and whoever it may be that races on a public highway should have their license to drive taken away from them at the first offense and never be allowed to drive a car again. A fool at the wheel is dangerous.

Type is being set for the new telephone directory, and if any names should be omitted please do not attach any blame to the operator—only three lines complied with the request for a revised list. If the patrons were paying for the printing of the directory, a line might properly refuse to have their names printed therein and thus save the expense. However, Mr. Weddle has done the best he could, and the Scio Tribune and Thos. Large will do the best they can, and hope to have the books ready for delivery somewhere between the first and 15th of June. There will be 500 books printed and will contain general information and the constitution and by-laws, and sufficient advertising to justify the issuing of the book. Those who have taken advertising space are requested to immediately forward the copy to the Tribune.
