Is cheaper and will bring greater results than if you had a boy to cry your wares. If you have anything to sell or want to buy something, let it be known through the Tribune.

Directories Go Slow

Mr. and Mrs. J. N. Weddle, managers of the telephone office, would like for the secretaries of the various lines to call and get the required number of directories for their patrons, as they are free, made so by the advertising patronage. The new by-law is therein and also other information. Only a few secretaries have taken them out. Owners can call at the phone office for a copy.

Struck Side of Pay Vein

Bob Peery came down from the Crown mines Monday and brought with him some fine specimens of ore taken from the side of the pay vein he has been working so hard to reach. He returned Tuesday morning with a load of powder, with which he expects to blast into the vein. The specimens are beauties, and indicate that a rich strike is at hand.

Partner in Drug Store

George W. Davis, nephew of Roe Phillips, and well known here, is about to embark on the tempestuous sea of business, and has formed a partnership with A. R. Tiffany in Eugene and will shortly open a drug store in Eugene to be known as the Tiffany-Davis Drug Company. The Eugene Guard says the new company purposes to make it the

finest drug store in the state outside of Portland.

The tax experts of the 12 western states held a meeting in Portland the other day and decided to recommend the elimination of inheritance and other money tax, but said not a word about reducing property tax. If their plans materialize, we venture socialism or bolshevism will have fertile material to work on, for property will not and cannot carry all the tax burden while all the money is tax free. If we want the men with money to invest it in productive enterprises, tax-free bonds must be eliminated. It is the misguided judgment of the men who can only see that money is the first consideration and guess not what is the future when they recommend so palpable a verdict by our law-making bodies. None of that vast wealth has come to Oregon that was driven away when we had an income tax, which proves that a money tax keeps no one away.
