The Scio Tribune

Wants more readers, and is asking its 500 readers to help secure them. This is how:

Each subscriber renewing his subscription at \$1.75 (the regular price), with an additional 25c, can have the Scio Tribune sent one full year to some one who is not a subscriber to it now—no renewals will be accepted at the 25c rate. This will be an economical way to make a Christmas gift that will come weekly. To foreign countries the price is \$2.50, but to subscribers who are sending the paper now we will make the combined rate \$3.75 if taken advantage of during the December; it costs a 2c stamp to mail a paper to a foreign country. With this rate, our readers can club with their non-reader neighbor and both save money, and as the home paper is the eye of the community and reflects its progress every family should be a subscriber. That's why it

Attractive "Ad"

Ad in Exchange—"For sale, large barn-looking house, eight rooms, on Bellevue place. Everything run down and the poorest neighborhood in the city. I am asking twice as much for the house as it is worth, but I need the money, as I am making a collection of silver dollars. When I bought the house I got soaked, and now I want to soak someone else. Come and see me."—Boston Transcript.

Household Mathematics

How many quarts in a peck? In a gallon? A certain housewife's memory slipped a cog when she gave the wrong answer to the first question and spoiled several hours of canning. The mistake will never happen again, she swears. She tested a number of her friends on the two questions and several said their tongues slipped when they gave the wrong answer.—Exchange.

When Deer Drop Antlers

The antlers of North American deer are usually dropped in March, but occasionally in February. They are shed close to the animal's head. The root or pedicle exposed is a tough disk of bone belonging to the frontal bone of the skull. No blood flows during this process. The antlers are renewed in about three or four months.

Important Point

As the man driving a weather-beaten mule attached to a rickety buggy came near, the automobilist stopped and hailed him. Good afternoon were exchanged and then the automobilist inquired, "How far is it to the next town?" The other reflected at length and finally asked, "Well, just what is your idea of a town?"

Mr. and Mrs. L. L. Calavan of Sumner, Wash., visited Mr. and Mrs. Wm. Abbott last Friday. Mrs. Abbott accompanied them to Lebanon in the evening to visit at the homes of their daughters, Mrs. J. G. Gill and Mrs. Hugh Kirkpatrick, where their two sons, C. C. and Wade Calavan and their families, who also reside at Sumner, were visiting.

His word is his bond!

A "personal guarantee" means very little to you unless you know the man who makes it.

Ninety per cent of the things bought for your home are selected by the lady member of the firm. She is the purchasing agent. Most men admit that she is a capable buyer, and the reason is this: She must be shown — convinced by proof — that an article is what she needs and is worth the price!

For that reason, she sees the advantage of dealing with a local merchant — a man whose "personal guarantee of satisfaction" means just what it says.

She knows that what he advertises in this paper is entitled to her consideration. Because she has confidence in her neighbor—the local dealer—she can safely invest the family funds in what he guarantees.
