"And to think I was poisoning my own Baby!"

"I couldn't see why he didn't gain. I never dreamed that my constipation was responsible until the doctor told me.

"He explained that faulty or slow elimination of waste matter allowed poisons to form and be absorbed by the blood—and this meant tainted milk for baby.

"He prescribed the Nujol treatment and it made a world of difference to both of us. Now that I know how dangerous constipation is and how easily it can be prevented, I am never going to allow myself to get into that bad condition again."

Mothers are the best friends of Nujol. When precious new lives are at stake they seek the remedy that medical author-

ities approve because it is so safe, gentle and natural in its action. Constipation is dangerous for anybody. Nujol is safe for everybody. It does not affect the stomach and is not absorbed by the body.

Nujol helps in Nature's own way

Nujol simply makes up for a deficiency—temporary or chronic—in the supply of natural lubricant in the intestines. It softens the waste matter and thus permits thorough and regular elimination, without overtaxing the intestinal muscles.

Nujol can be taken for any length of time without ill effects. To insure internal cleanliness, it should be taken regularly in accordance with the directions on each bottle. Unlike laxatives, it does not form a habit and can be discontinued at any time.
