THURSDAY, Dec. 17, 1925

Wisdom is merely the reaction that follows contemplation of receipted bills.

A pipe is really cheaper, and is much to be preferred, if you don't mind solitude.

A woman's declining years come before the age of 30. After that she is glad to accept.

There are no statues of men who felt sorry for themselves, but to the go-getters there are many.

The meek shall inherit the earth. But there won't be much fun in a world peopled exclusively by hen-pecked husbands.

One of the "fine" traits of human nature is that we do not want to give to others the same privileges we exact for ourselves.

Science gives us artificial rain and synthetic lightning when what we want is some means of making winter merely hypothetical.

These statues to Christopher Columbus in various parts of the country commemorate a prominent foreigner who didn't come over here to lecture.

DOING THE SHOPPING

If human nature were not what it is, the Christmas season might not be one of rush and worry over what to buy, and sales forces in stores would not be rushed to exhaustion in the two or three weeks before the event. If people did their shopping when it could be done under the least congested conditions, it might extend over months instead of weeks and it would not be less seasonable.

However, none but the exceptional person thinks of doing shopping until it cannot be put off longer. Then it becomes an ordeal and is so strenuous that it tends to rob the season of the "cheer and good will" that attach to it sentimentally. The "good will" might actually pervade the shoppers were they not overworked trying to find what they want and struggling to get it. Yet it would not be Christmas for a lot of people were it otherwise. They have become so accustomed to waiting and then making a hurry-up job of it that they would not feel right were it done betimes.

Human nature is a peculiar thing despite the fact that all of us have it. It wouldn't be human nature if it wasn't odd. If we did everything in a reasonable and sane way we would not be human beings. We

would be super-human and that is too much to expect. It is the prerogative of human beings to do as they please and of course most of us please to delay as long as we can the doing of what we cannot avoid. There may be those who are forehanded in Christmas shopping, but they are rare and so different from the mass that they are odd, too.

The work the Santiam Fish and Game Association is doing should enlist the support of every man and boy in its service. There is no greater incentive to be right and do right than in protecting the wild life and dumb brutes from the ravages of blood-thirsty peoples--and sorry to say, Americans are about as bad as any.

The BULL'S EYE

America is Safe with "Bull" Durham

A gang of Scientists left on a boat for a year's cruise to study queer kind of Fish in the South Atlantic Ocean. They should have stayed here in New York and went to see and hear what I did the other day, a real Red Bolshevik meeting. They would have seen queer looking Fish there, Suckers, Eels, Flounders, Bullheads, and every Guy that got up was a big mouth Bass. They denounced everything in America, The Weather, The Constitution, White Gloves for Pall Bearers, Mah Jongg, Lower Taxes, Suspenders, Cross Word Puzzles, Shower Baths, League of Nations and Ice Cream Pies. After looking them all over I found what was the matter with them. There wasn't a one of them knew enough to roll his own. How are you going to improve on a Government if you don't know that much. Every man you see pouring "Bull" Durham into his paper, you can bet he is satisfied with America, because its the old right down to earth Americans that do it.

Phil Rogers P. S. There is going to be another piece in this paper soon. Look for it.
