**STORY OF CHRISTMAS SEAL INTERESTING**

Idea Originated in Denmark Years Ago Accomplishes Wonders in United States.

More full of dramatic interest than the chapters of a novel, is the history of the little Christmas Seal now on sale throughout the state of Oregon. Conceived by a Danish postal clerk, to raise money that would save the lives of children suffering from tuberculosis; wandering across the Atlantic, falling into the hands of a great American writer; being recreated on American soil, and sold to maintain another tuberculosis hospital; becoming the sole financial support of a great organization dedicated to a health campaign steadily and surely overcoming the "white plague," are leading events in the life history of the Christmas Seal.

Mr. Einar Holboell, postal clerk in far off Denmark, busy cancelling stamps and handling packages during the Christmas season of 1902, had on his heart the problem of raising money to support a little hospital for poor children stricken with tuberculosis. In the midst of his work, he conceived the idea of selling a seal somewhat like the stamps he was so busy cancelling.

Mr. Holboell submitted his plan to the king, received the royal sanction and the new seal was printed, sold, and fulfilled its mission. The children of the poor received the care they needed, at the little hospital. Several years later, one of the Danish seals fell into the hands of Jacob Riis, the American writer and publicist. He was immediately interested, wrote to a friend across the ocean, obtained the story behind the seal and published it in the "Outlook" in 1907.

This story in turn stirred to action an American woman, Miss Emily Biseel, who like the Danish Postal Clerk, was struggling with the financial problem of a little tuberculosis sanitarium near Wilmington, Delaware. Miss Biseel managed the first American Christmas Seal Sale in 1907, raising \$3,000 for the needy hospital, a sum far beyond her expectations.

From the three thousand dollar Seal Sale in 1907 to the four and a half million dollar sale in 1924, the story of the Christmas Seal has been one of magnificent accomplishment against the foe tuberculosis. Between 1905 and 1919 the American Red Cross, put its shoulder to the wheel, and backed the Seal Sale, hence the term "Red Cross Seal" which still lingers although now six years out of date. The right name is CHRISTMAS SEALS or tuberculosis Christmas Seals, for since 1918 the National Tuberculosis Association, and its branches, state and local, have been selling the seals, and depending on them for their entire support. The Oregon sale is conducted by the Oregon Tuberculosis Association and the County Public Health Associations.

Since the time of the first Seal Sale many millions of dollars have been invested in tuberculosis-fighting equipment; hospitals, open air schools, clinics, dispensaries, tuberculosis nursing, etc., and it has been largely through the interest focused on the problem by the annual sale of Christmas Seals. The tuberculosis death rate in the United States has been considerably more than cut in half in these eighteen years. The disease is being conquered. The winning slogan is Health! Health! Health!—such fine radiant health that it repels sickness, and Christmas Seals are in the field in Oregon, and in every state in the Union, to continue the fight to a winning finish.

Every city, village and community in the state will have a chairman or group of workers actively interested in selling the seals. Women's clubs and organizations are giving it enthusiastic support, and a large number of Parent-Teacher Associations are lending aid to the "Give Health, Fight Tuberculosis" campaign which the seals finance.

One of the few things a penny will buy—A Christmas Seal.

**CHRISTMAS SEALS AID TUBERCULOSIS FIGHT**

Knowledge and Practice of the Rules of Health Greatest Need.

In 1924, 593 Oregon people died with tuberculosis. Best estimates indicate that probably 5000 are afflicted with the disease. Careful studies show that between the ages of 15 and 40, which may be called the best years of life, more Oregonians die of tuberculosis than from any other cause of death and the same is true throughout the United States as a whole. All this is in spite of the fact tuberculosis is known to be preventable and curable.

"We know enough about tuberculosis to scotch it within a generation. It is not lack of knowledge, it is lack of application of knowledge that impedes our progress." These were the words of Dr. Allen K. Krause, leading American authority on tuberculosis, when he visited Oregon last summer. He also pointed out that the knowledge which makes physicians confidently assert that "tuberculosis is preventable and curable" is not knowledge regarding medicines or treatments that can be called "specific cures." It is knowledge regarding the fundamental rules of healthy living.

It is disregard of the rules of healthy living that permits tuberculosis to continue as so great a menace to human life. It is knowledge of these rules, and care in their application which will eventually overcome tuberculosis. It is the tremendous progress in this direction which has made possible the 50% reduction in the tuberculosis death rate in the United States within the last 15 years, and the 25% reduction in Oregon's rate within the last ten years.

Christmas Seals finance the campaign of the Oregon Tuberculosis Association which is specifically designed to meet the need of teaching health. Public Health nurses are put into the field in Oregon. Health teaching is taken into the Oregon schools. Literature is distributed, exhibits are prepared, and every known channel of teaching health is employed.

The objective of the health teaching is to overcome tuberculosis by striking at its vulnerable spot.

**OREGON CONGRESSMEN ENDORSE SEAL SALE**

Stanfield, Sinnott, Hawley, and Crumpacker Approve Work Supported by Seals.

"The anti-tuberculosis movement has always had my unqualified support. I believe that conducting the Sale of Christmas Seals to raise funds for combating this disease (tuberculosis) is a most valuable public service and should by all means be encouraged. Rest assured that I shall be more than glad to do anything I can to further the valuable work."  
HON. M. E. CRUMPACKER,  
U. S. Representative from Oregon.

"I am glad to most heartily join in wishing the utmost success in the work of those engaged in the anti-tuberculosis campaign."  
HON. ROBT. N. STANFIELD,  
U. S. Senator from Oregon.

"In a time when we are thinking of making a season especially joyful to those of our immediate family and friends, the contributions to the anti-tuberculosis campaign is an instance of kindly good will toward a number of our fellow citizens who have cause for uneasy apprehension, and the fact that people are mindful of them will help them as much, I believe, as the money will help them. I cordially commend the sale of Christmas Seals."  
HON. WILLIS C. HAWLEY,  
U. S. Representative from Oregon.

"I wish to cordially endorse the coming anti-tuberculosis campaign in Oregon, through the sale of Christmas Seals. I note with pleasure the report of the great decrease in the death rate from tuberculosis in our home state, during the past fourteen years, and believe that this is due in a large measure to the money derived from the sale of Christmas Seals.

"The Christmas Seal campaign is a most worthy one and I consider it a distinct privilege to be able to add my testimony to the great number who hold a like opinion."  
HON. N. J. SINNOTT,  
U. S. Representative from Oregon.
