

The daily papers are full of prohibition sermons. The amount of murders and other crimes committed by men while under the poisonous influence of the deadly drug dispensed under the name of whisky and beer is appalling. Is it any wonder that those who have the best interests of their fellow creatures at heart are calling upon the masses to rise in their might and cast it forever from our midst? Why is it that a government founded upon Christianity will allow a man to sell poison under the brand of whisky, beer, etc., which not only kills the victim who drinks it, but is solely responsible for three-fourths of all the murders and crimes committed throughout the land? Temperance men and women of Oregon, there is much work to do that we may rid Oregon of the hard-hearted beings who are dealing out the deadly power which is driving men and women to utter destruction, and preparing the younger generation to fill the despicable ranks of unfortunates who are dropping into worse than drunkard's graves.

On Sunday evening last Lebanon was honored with a visit by the Stanford party, consisting of Hon. Leland Stanford, United States senator from California and president of the Southern Pacific railroad system, Colonel Charles Frederick Crocker, vice-president of the company, Mr. A. N. Towne, superintendent of the railroads embraced in this system and Mr. Brandt, superintendent of the O. & C. road. We presume they came for the purpose of getting acquainted with the Lebanon branch of their road. It is reasonable to predict that while Albany and other towns are "blowing" Lebanon will not get left in the good results coming out of the extension of the Southern Pacific into Oregon. As citizens of a promising town, we can and ought to put forth every effort to attract capital and people this way. Let us be vigilant and reap the reward of the good things vouchsafed only to those who are energetic and deserving.

The nomination of Fred Grant by the republican convention last week for secretary of state of New York is a move in the right direction. The country will soon learn that young men will fill the offices at as great an advantage to their constituents as older heads. Seth Lowe, who was mayor of Brooklyn for several terms, and gave great satisfaction, was quite a young man. Perry Belmont, congressman from New York, is also quite a young man and the youngest in congress. Theodore Roosevelt an active New York representative is also a young man and gave great satisfaction, discharging the duties of his office in an admirable manner. There are many young men throughout the country holding offices of trust and responsibility and the opportunities afforded young men in such capacities has proven a decided success. Give the young men a chance.

The latest crime through the influence of whiskey, was the murder of Chas. Maniet, last Monday morning, by Billy Dillon, a notorious drunkard, gambler and gambler in the Argonaut saloon, at the corner of First and Alder streets, Portland. The Oregonian says there was no provocation, whatever, on the part of the victim, but that Dillon was "crazy" drunk and wanted to kill somebody. Why not put it right and say the man "crazed" with the second staff named whiskey and beer, done the deed. With such evidences of the evils of the whiskey traffic, we are unable to determine why any man or woman, or any newspaper unless directly benefited by the untold revenue coming from it, can for a moment tolerate and support it. Just why the Oregonian supports it is a mystery which it has never yet explained satisfactorily, and probably never will.

By reference to another column will be seen a letter from Paola, Kansas, to Mr. J. E. Knox, of this county, which contains many things in favor of prohibition. Such indisputable evidence of the agreeable results, financially, as well as morally, coming from the abolition of the liquor traffic, as contained in this letter should inspire everyone who desires prosperity from legitimate business to awake from the lethargy apparent in many places in this state, and make a grand effort for human liberty. As it is in Kansas so it will be in Oregon. As if in Kansas are closed up, those engaged in the accused traffic will go into some decent business or leave the state. If they leave, their places will be occupied by something more honorable. In either case the state will be benefitted and the people more exalted.

The celebrated Dr. McIntosh says: Hold a mouthful of spirits—whisky for instance—in your mouth for five minutes, and you will find it burns severely; inspect your mouth, and you will find it inflamed. Hold for ten or fifteen minutes, and you will find the various parts of the interior of your mouth have become blistered; then tie a handkerchief over the eyes and taste, for instance, water, vinegar, milk or senna, and you will find that you are unable of distinguishing one from another. This experiment proves to a certainty that alcohol is not only a violent irritant, but also a narcotic. Can you believe that the still more tender and important internal organs of the body can be less injuriously affected than the mouth?

It is proposed by the new management of the Portland and Willamette Valley railroad to compete with the Oregon Pacific for the grain business along the Willamette river. With this purpose, the narrow gauge line will at once be extended from Dundee, a distance of four miles to the river, there to connect with light draft steamboats. The grain will be taken to Portland and shipped to San Francisco by the O. P. N. steamers at rates as low as those of the Oregon Pacific.

First—This church utterly repudiates the name of Mormon, as it never was their name.

Second—This church never at any time, nor under any circumstances taught, practiced or instigated others to teach or practice polygamy, or any other unlawful or unchristian doctrine or practice, but has always maintained an uncompromising warfare against this and all other false doctrines, both in and out of Utah, by teaching and practicing the faith that was once delivered to the saints, under which the church was organized and had its perpetuity for over fourteen years, when this and other damnable heresies were foisted upon a small faction of the original church, who followed Brigham Young to Utah, while the great majority of the church remained true to the original faith and repudiated Brigham and his followers as usurpers and heretics.

Third—This church was the first and only denomination that ever brought the Utah question before congress by sending representatives and delegates there to meet and withstand Utah's delegates with their falacianous constitutional protection and Bible authority. It being the standard of religious worship in the United States to practice polygamy, have and cohabit with as many wives as did David and Saul, men, and by their and other unlawful claims they held congress for over twenty-five years from passing any effectual prohibitory laws against this relic of barbarism. This church brought the Bible Book of Mormon and Book of Doctrine and Covenants to bear upon congress, and by the following passages, proved that polygamy was not a tenet or practice of the original or reorganized church:

We believe that Marriage is ordained of God: and that the law of God requires for but one woman to one man, for either man or woman, in the contract of marriage is broken by death or transgression. Gen. 2: 24; Mat. 19: 4, 5; 1 Cor. 7: 2; Heb. 13: 4; 1 Tim. 3: 2; 1 Pet. 3: 2. We believe that the doctrine of a plurality and a community of wives are heresies, and are opposed to the law of God. 1 Tim. 3: 2; 1 Pet. 3: 2; in revelation 14: 4 and 18: 25; Gen. 2: 24; Mat. 19: 4, 5; 1 Cor. 7: 2; Heb. 13: 4; 1 Tim. 3: 2; 1 Pet. 3: 2. The book of Moses says:—Whereas, my brethren, hear me, and hearken to the word of the Lord: For there shall not any man among you have a wife or wives, and cohabit with as many as did David and Saul, men, and by their and other unlawful claims they held congress for over twenty-five years from passing any effectual prohibitory laws against this relic of barbarism. This church brought the Bible Book of Mormon and Book of Doctrine and Covenants to bear upon congress, and by the following passages, proved that polygamy was not a tenet or practice of the original or reorganized church:

All the freemen on the Oregon Pacific between Albany and the end of the road east of the Santiam, including the quarter of a mile stretch beyond the river, are now completed and the construction train is now running across.

Gen. Ben Butler doesn't know whether he will be retained in the architect case or not. It will depend entirely on the extent of the anti-poverty inducements offered.

It now turns out that there has been more fright than reality over the Indian troubles in Arizona.

Local Market. LEBANON, Sept. 25. Wheat—62c per bushel. Corn—35c per bushel. Potatoes—25c per bushel. Apples—20c per bushel. Lard—12 1/2c per lb. Bacon—12c per lb. Sugar—10c per lb. Coffee—15c per lb.
