

TEACHERS' EXAMINATION. Notice is hereby given that the regular public quarterly examination of teachers will be held at the court house in Albany, Linn county, Or., commencing at noon on Wednesday, Feb. 22, 1888.

ANNUAL COUNTY TEACHERS' INSTITUTE. The Annual County Teachers' Institute for Linn county, Or., will be held in Albany, commencing on Wednesday afternoon, March 14th and continuing during the 15th and 16th.

PERSONAL AND OTHERWISE. M. E. Hearn is paying the highest cash price for poultry and eggs.

Dr. J. A. Lamberson is having the best of success with his typhoid cases.

The Salem Enquirer has passed into the hands of ex-Senator Printer Byars and E. M. Walte.

Mr. and Mrs. J. M. Ralston returned from an extended visit to Portland on Wednesday evening.

The council on Tuesday evening last, appointed George Peehler city marshal.

Owing to a change, freights for Portland will leave Lebanon, on Tuesdays, Thursdays and Saturdays.

Governor Penneyer has resigned S. A. DeVancey, of Waterton, with a Notary Commission. A good selection.

Mrs. Monteith, of Albany, has been visiting in Lebanon this week, the guest of her son, M. J. Monteith.

The Herald, published at Dayton, Oregon, has been enlarged to a 6-column folio, and greatly improved every way.

Miss Oda Comstock, one of Jackson county's most accomplished and vivacious dancers, is visiting relatives in this city.

The Linn County Democratic Convention is called to meet March 24th for the purpose of nominating a full county ticket.

Rev. Mr. Gordon, late of Dakota, will preach at Mt. Hope school house to-morrow, at 3 p. m., and on Sunday next at 10 a. m.

J. A. Beard makes a good president of the council. It should also be remembered that as a druggist, Mr. Beard is very competent.

The Railroad Commission have examined the Narrow Gauge railroad between Coburg and Brownsville, complaint having been made that it was dangerous.

F. H. Boscoe returned from Portland on Wednesday evening. He informs us he bought a fine stock of hardware, etc., which will be here in a few days.

Frank has our thanks for favors while in the city.

The blockade is raised on the railroad line through from California. There is no trouble this side of Ashland. It is only in the Snake river mountains that obstruction existed. The road is now all right, and mails come regularly.

A. R. Harmon, of Seio, the little brother of our efficient tonsorial artist, was in Lebanon a few days ago. Our friend "Bill" Reed has been feeling quite "bony" since Mr. Harmon "tipped the beam" with considerable more advantage.

Rev. E. T. Ingle, of the First Presbyterian church, at Sellwood, is assisting Rev. Geo. W. Giboney in a series of meetings now being conducted at the First Presbyterian church, this place. These meetings will continue until Sunday evening.

Prof. Frank Rigler, of the Portland Park school, has been acquitted of the charge of an assault proferred against him by the parents of the boy, Webster, who, it will be remembered, that Frank had to chastise quite severely for conduct unbecoming a pupil.

The ruling of the post-office department that printed matter beyond the name and address of the sender of any postoffice package shall not be printed on the wrapper has been rescinded by act of congress, and now a man can paste his picture or any disfiguring images on the outside of any postoffice package he pleases.

Dr. Mark Hayer, dentist, formerly of Dallas, Polk county, has located here in the practice of his profession. The doctor is a young man, and commendable among us with the best of recommendations from the business and professional men of Dallas. He may be found in the building formerly occupied by the Express, on Main Street.

TEACHERS' INSTITUTE.—The Annual County Teachers' Institute will be held in Albany, commencing Wednesday afternoon, March 14. It is of importance that all teachers in the county should be present. Supt. Reed is expecting himself to make this the most successful occasion of this kind ever held in Linn county, and we bespeak for him the hearty co-operation of all friends of education, especially the teachers. Prominent educators from throughout the state will be present.

BUSINESS POINTERS.—Montague's large store is now being filled up with all kinds of spring goods. His clothing department is especially attractive, as is also his extensive display of dress goods. The grocery department is also complete. Call and examine his different lines, especially boots and shoes.

W. B. Donaca has added to his well-selected stock of groceries and furnishing goods, some spring attractions. Remember, Mr. Donaca's motto is—the latest and best goods at reasonable prices.

Koehler & Roberts stock of groceries, tobacco, and cigars, is very fine. Their confectioneries have been replenished, with a very fine invoice of oranges, lemons, etc. Give the boys a call.

Andrews & Hackleman are displaying a nice line of spring goods, in connection with an immense stock of the celebrated Douglas shoes.

Zeaman's stock of furniture is worthy of attention, as anything in his line can be had at the very lowest rates.

LOCAL AND GENERAL.

RAILWAY POSTAL CLERKS.—An item to the effect that no postal cards or letters can be mailed on trains has lately been going the rounds of the newspapers, and notwithstanding a contrary statement has been published and republished, an impression has been made that the railway postal service will not recognize such mail.

CLERKS ON THE VARIOUS ROADS have been plied with endless questions since the above report was started. The result is that the Superintendent of the Eighth Division of the postal service, San Francisco, has incorporated the following section in general order No. 140, just received by Chief Clerk Henry: "All chief clerks will ascertain if possible, the name of any and of all postal clerks with whom mail will be received mail matter at their mail cars. There seems to be an impression among clerks on some lines that an order has been issued to the effect that mail matter should not be received at the cars for mailing. Any information relating to the source from whence such representations came will be thankfully received, that it may be properly treated to the end that the service may not suffer by such reports." It is unnecessary to state that no such order was ever issued, and that mail will be received on board trains the same as it always was. The sooner this becomes generally known the sooner will the postal clerks feel relieved.

SPICER POSTOFFICE ROBBER.—On Monday night last a number of registered letters were opened at the Spicer postoffice on the line of the Narrow Gauge road, and the contents pocketed by some person or persons not the rightful owners. The amount is not known. On Tuesday morning the postmaster at that place thinking he had a clue to the guilty party, had a young man by the name of Janeway arrested and brought to this place for a hearing on Wednesday. At the hour set for the examination, the prosecuting witness did not appear and the young man was released by justice Smith. In the evening Janeway returned to Spicer, where he was arrested by U. S. Marshal Roberts, and taken to Portland. As there has not yet been any evidence pointing to the conviction of the party accused, we defer further comment except to add that Janeway was employed by the O. R. y company as telegraph operator and had his office in the same building with the postoffice. He is a well appearing young man, and it is to be hoped he has not made such a fatal error.

A RARE COIN.—Some time during the year 1886, says the Jacksonville Sentinel, E. Hendricks, of Applegate, cut a large pine tree near his house and found in its interior a rather ancient coin. The tree was a very large one, and his ax was not the first that had been used to mark its symmetry and grace, for, encircled by forty-five rings of yearly growth, were found evidences of a previous assault—clear-cut marks of an ax, a small cavity and a package of cloth or paper containing a copper coin. No writing or other marks could be found on the covering to relieve the curious in respect to this event. The coin is about the size of a nickel, is composed of copper, is dated 1790, has on one side the lion and the unicorn struggling for the crown and on the other side a monogram composed of the letters V. O. C. The tree stood on the banks of Applegate River, near one of the trails from Oregon to California, was a large tree in 1841 and had held its secret forty-five years. Whose secret did it hold?

THE R. R. COMMISSION.—The railroad commissioners have sent a letter to Chas. N. Scott, receiver of the Oregonian Railway Co., setting forth that complaint, having been made to them, that the road between Brownsville and Coburg was in a dangerous condition, the commissioners have made an examination of the line from Woodburn to Coburg, and finding the road badly in need of repairs, and while noting that repairs are being made, the commissioners urgently recommend that all needed repairs be expedited with all possible dispatch. The little road will probably be put in good condition during the coming summer.

INFORMATION WANTED.—Sedgwick Post No. 10, G. A. R., Department of Oregon, at a late meeting, authorized their Commander to make, through the kindness of the press of the State of Oregon and Washington Territory, the following inquiry: Any information leading to the knowledge of the whereabouts of Frederick and Alice Morter, children of the late Comrade Wm. Morter, who died at Ogden, Utah, last May, will be gratefully received by this post. Address Z. M. Parvin, Commander Sedgwick Post No. 10, Salem, Oregon. State papers please copy.

ADDITIONAL REWARD.—The rewards offered for the apprehension of the murderer or murderers of the two Chinamen at Monmouth, Polk county, a month or more since, now aggregates about \$700, and the people of monmouth think that this is not enough. They have drawn up a petition to the governor to offer an additional reward, and it will be presented in a few days by District Attorney Bell. The Polk county people propose to offer every inducement to officers and detectives to ferret the mystery to the bottom and punish the murderers.

SENSIBLE.—The sensible, marriageable young ladies of a certain town in Washington county, it is said, have effected an organization, and have resolved that they will not marry any one who is not a patron of home newspapers; for it is not only a strong evidence of the want of intelligence, but it is an indication that he will prove stingy to provide for his family, educate his children, or encourage institutions of learning in his community.

GOING TO FRISCO.—On Friday of last week, F. B. Ballard left this place for San Francisco, for the purpose of attending the Cooper Medical Institute. Frank has done well in adopting the profession so ably adorned by his father, and being a young man of excellent qualifications in that direction, we can only predict for him the best of success. With a host of his friends in this community, Frank has our best wishes.

LINN COUNTY PROHIBITIONISTS.

They Organize for a Third Party Campaign in the Coming Election.

ALBANY, Feb. 14, 1888. The Linn County Prohibition Conference met in this city Tuesday, according to previous notice, and was called to order by the chairman. The conference was opened with prayer by J. M. Marks. A. Y. Smith was elected secretary. It was suggested that the chairman appoint the central committee. The following were appointed: Halsey, H. B. Kenniston; Orleans, A. Y. Smith; Santiam, J. M. Coffield; Lebanon, C. M. Talbot; Seio, B. H. Trivette; Franklin Butte, John Bryant; Waterloo, J. B. Gibheart; Brownsville, Wm. McCleod; Sweet Home, Mr. Burnett; Harrisburg, H. A. Davis; Crawfordville, John Chance; Fox Valley, S. M. McClain; Shedd, Wm. McCormick; Rock Creek, T. J. Butler; Liberty, Mr. Ingram. It was moved that the county convention be held March 14. The motion was debated for and against and carried. It was moved that the representation be based in the county convention, allowing one delegate for each precinct and one for every ten votes cast for G. M. Miller, or fraction over five, which carried. It was moved that the primaries be held on March 10, 1888. A communication from the Voice lecture department in regard to sending a lecturer to this state was read. It was moved that an effort be made to secure the lecturer at Albany, carried. It was moved that Rev. H. P. Webb be appointed a committee to confer with the W. C. T. U. of Albany with regard to securing the lecturer by them. It was moved that the convention request the W. C. T. U. to extend an invitation to Ex-Gov. St. John to deliver a lecture in Albany. Rev. H. P. Webb, J. W. Blain and J. H. Townsend were appointed that committee by convention to confer with the W. C. T. U. in regard to this lecturer.

A vote of thanks was extended to the Albany Herald, the States Rights Democrat, and Lebanon Express for publishing notices of this meeting. It was moved that a copy of the minutes of this meeting be delivered to the county papers for publication. On motion adjourned.

A. Y. SMITH, Secretary.

COUNTY COURT.

Proceedings of the February Term.

The application of T. L. Dugger for reduction of taxes was allowed as to county levy only.

The application of John Leedy and fifty others for county road was read, and J. E. Knox, Geo. Geisendorfer and F. Probst were appointed viewers to meet E. T. T. Fisher, surveyor, on February 20th.

Application of Walter A. McGhee for reduction of taxes, was granted.

Application of G. W. Klum for implements for road district 28 was granted.

In the matter of changing the boundary between road districts No. 8 and 47, change ordered.

CLAIMS ALLOWED.

J. N. Williams, deputy sheriff's fees, \$9 50; J. P. Wallace, same, 5 00; J. M. Dornan, same, 10 00; Andrews & Backmann, miller, for pair of wheels & hoplins, repairing cost, 8 50; D. V. S. Reed, postage, 2 00; W. W. Whipple & Bro., lumber, 13 50; J. M. Dornan, same, 10 00; John Leedy, lumber, 12 25; J. M. Dornan, same, 10 00; Same, miller, for pair of wheels, 12 00; C. C. Clark & Sons, lumber, 2 91; Stewart & Sox, miller, 2 25; J. P. O'Leary, clerk fees, 2 25; D. S. Smith, sheriff fees, 18 48; W. S. Carl, treasurer, 2 25; Stewart & Sox, miller, 2 25; Frank Baker, printer, 2 00; Geo. W. Bell, A. M. fees, 20 00; Marion county, one-half of repairs of Jefferson bridge, 64 40; Wm. Bremer, constable fees, 10 00; M. M. Dornan, lumber, 10 00; J. L. Smith, miller, 2 25; Fees, Inspector W. C. Foy, 12 00; P. A. Watt, fees in trash case, 2 25; Same, Baker, same, 2 00; Fees, state vs. J. J. Givens, 61 40; R. S. Stahala, legal services mortgage tax case, 100 00; Green Morris, keeping year, 28 41; Fees in state vs. Army case, 128 20.

ROAD SUPERVISORS APPOINTED.

The following road supervisors were appointed, the reports of their successors being adopted and ordered paid:

Dist. No. 6.....A. T. Powell

" 7.....D. T. Ritchford

" 8.....Jerome Froman

" 9.....Isaac Odling

" 10.....Richard Clendle

" 11.....R. A. Bamford

" 12.....James Pugh

" 13.....Thos. Nichols

" 14.....Wm. Warmouth

" 15.....Paul Betts

" 16.....Leonard Tyer

" 17.....D. H. Pierce

" 18.....R. M. Fletcher

" 19.....C. S. Mullan

SCHOOL REPORT.

Report of the Lebanon Public School for the month ending February 10th, 1888.

FIRST DEPARTMENT. Number attending, 45. Average attendance, 36. The following pupils were neither absent nor tardy:

Louie Peterson, Eva Roscoe, Eva Sealand, Joe Moist, Chas. Donaca, Eddie Guy, Walter Peterson, Chester and Gilbert Stringer, John Gibson.

MISS FANNIE GRIGGS, Teacher.

SECOND DEPARTMENT. Number attending, 32. Average attendance, 24. The following pupils were neither absent nor tardy:

Merton Burroughs and Maud Eaton. Not absent: Stanton Goan, Edith Roland, Walter Miller, Jessie McCally.

Not tardy: Ora Andrews, Nellie Burroughs, James Walker, John Bader, Maggie Burkhardt, Noua Miller, Ida Elkins, Lizzie Donaca, Jay Deming, Warren Cytus.

CHAS. S. HUNT, Prin.

ROBBED AGAIN.—Smith & Hannack's store was entered again on last Friday night and relieved of about \$80 worth of goods. This time the parties had a very enjoyable time helping themselves to a lunch consisting of oysters, crackers, etc. This is the third time this store has been robbed, and some of these nights something will drop down there, and the coroner will have a job.

As a toilet article, Ayer's Hair Vigor stands unrivaled. It cleanses the scalp and removes dandruff, cures itching humors, restores the original color to faded and gray hair, and promotes its growth.

Money to loan, by Curran & Montell, Albany, Oregon.

TOLD BY CORRESPONDENTS.

ROCK HILL. February 13.

We are having very nice weather again for the time of year.

Grant Dodge intends to work over near Peoria in a short time.

Mr. Hogue Parrish, of Solaville, was seen in our midst last Friday.

Mrs. Laford, who has been sick for some time, is able to do her house work again.

Samuel Wilson, of Rock Hill, spent Sunday visiting in Solaville among his old friends.

Grant Dodge and Sam Wilson have been very busy hauling hay the latter part of the week.

A. Dodge lost a fine pair of twin calves. He seems to be the loser of a great deal of stock this winter.

The fall grain, that is, the wheat, begins to look nice and green again, but the most of the fall oats are killed.

W. B. Mills, of this place, took a business trip over to Peoria yesterday, where he will remain for a few days.

"Uncle" George Klum, of Solaville, was at Rock Hill visiting his relatives, Mr. and Mrs. W. H. Klum, last week.

Uncle Jesse Parrish and wife was called to Lebanon last Friday on account of their daughter, Mrs. W. H. Reed, being sick.

William Laford is the first farmer that has started a plow this season. It looks as though it would be too wet to plow any for the ground is very soft.

The heavy winds of Saturday night and Sunday done considerable damage by blowing down some fence which will take a great deal of work to put in shape again.

Mr. and Mrs. Klum's little daughter, Josephine, is lying very sick at present with typhoid fever. It is to be hoped that she will recover soon. The country seems to be full of typhoid fever at the present time.

Most every one in the neighborhood of Rock Hill has been suffering from an attack of a bad cold for the past two weeks, an account of such changeable weather. With the exception of one case of typhoid fever the health of the community is exceedingly good.

A ROCK HILLER. CRAWFORDSVILLE.

February 13.

Valentines are the order of the day. Fall sown grain looks as well as I ever saw it.

Mrs. William Philpot has been quite sick for some days, but is better at this time.

Some of the boys report goose plenty, one young man having killed five in the last week.

Miss Dora Derrick left here last Monday. She is going to Eastern Oregon for her health and to visit relatives.

D. H. Glass went to Albany last Wednesday, for the purpose of having a lot of teeth extracted. He now has to gum it.

The Mongolian pheasants are getting to be a nuisance. The sportsmen around here seem to have poor success bagging them.

R. W. Moses has been suffering from a severe attack of the neuralgia, also Mrs. J. H. Scott has been suffering from the same disease.

Mr. Evans, a man that has been working in the logging camp, fell one day last week, hurting himself seriously. He has been at the Oregon House for the past ten days, for treatment.

W. B. Glass met with a very painful accident last Friday. While standing near a pony platform, which was in motion, the belt broke, one end of it striking him a severe blow across the stomach.

The Glass Bros. have been making considerable repairs in their shop. Last week they cleaned out their ditch. Charley Banty, one of the hands employed in the work, lost his purse containing \$46, and up to this time he has not found it.

There were four Germans through our country last week on the hunt of land. They want to buy land enough to settle a colony of twenty families, which are going to immigrate from Pennsylvania. There is any amount of land for sale around here and some that is very good. KROTT.

SCIO.

February 15.

Farmers are busy at work. Gardeners are getting ready for their seeds.

Our crop of measles is about out, not for want of new subjects, however.

Everything seems to indicate an early spring, and if the O. P. starts up week soon, we may forget many things of the past, in prospect of a lively future.

But little of interest to community in general, is transpiring just now. The general topic is the assignment of Messrs. Johnson & Shelton. These two gentlemen in consequence of over-trading, or over confidence in time checks on the O. P. R. R., have been compelled to make an assignment to their creditors, which will work quite a change in times, financially, in our locality, as they have a large amount trusted out. If all the merchants were to fail, where must we go to spend our cash?

We might not accumulate as much money in each individual's pocket, as our national government has in its vaults, over which our congressmen are quarreling as to best ways to be devised to empty the money vaults, but really, what could we do if we had no merchants to take our odd change.

A nice little war—yes, a neighborhood war, has lately broke out not far from here, in which a gallant officer on one side, with a small army of four or five, captured—yes, actually captured, and carried away a valuable dog, which was in dispute as to ownership. Think was in dispute—a half dozen men on one side, and a lone woman on the other. But dogs are valuable, you know, or at least, our city marshal thinks so, as he has the dog question in hand just now. SCIO.

Money to loan, by Curran & Montell, Albany, Oregon.

OF INTEREST TO FARMERS.

From the Best Authorities on Farm Topics.

THE DAIRY.

First-class butter cannot be turned out from a cold making-room.

Most dairymen prefer the temperature to be about 60 degrees for butter-making.

Rich food makes rich milk. The best cow in the world will not give good milk unless she is given food from which to manufacture it.

At the Chicago fat stock show the Holsteins went to the front in the butter contest; Holstein butter scoring 893 points, against 82 for Jersey.

The milk cow is simply a machine for making milk from food. The more of the substances to make good milk there are in the food, the better milk the cow will give.

Six out of seven of the butter prize winners at the late New York dairy show set the milk deep and cold, while the seventh used a centrifugal separator.

Men have been known to remove a portion of the cream from the milk they sent to a factory and then grumble at the returns they got. Such frauds should be ostracized.

Great yields of milk and butter are made by a system of forced feeding. Poor results in milk and butter production may often be traced to poor food, or an insufficient quantity of it.

At the Valley Cheese Factory at Hinesburgh, Vt. the cheese was made the past season at a cost of only 21 cents a pound. The patrons got an average 94 cents per hundred pounds of milk. Eighty-seven tons of cheese were made.

Have your thermometers in your dairy accurate. A large quantity of those sold contain more or less air in the mercury tube. To test the thermometer turn it upside down and if the mercury will glide quickly the entire length of the tube it is all right.

When the cream foams in the churn and will not make butter, it may be, and most probably at this season is, due to too much acidity in the cream. If the milk is set at a steady temperature of 60 or 62 degrees for two days, and the cream is kept for two or three days longer at the same temperature, there should be no difficulty in churning. If there is, the cow should be fed a little curmical once or twice a day.

Excepting the material of which the cheese is made, there is no ingredient of so much importance in cheese-making as rennet. No matter how excellent the milk may be, if the rennet is not of right excellence in the production of cheese cannot be obtained. Much of the poor cheese is the result of poor rennet, and much cheese made poor by the bad handling of the milk or from other causes is made worse by poor rennet.—T. D. Curtis.

The yield of cream and butter from milk should under most circumstances, naturally increase in proportion to the milk as the amount of the butter is lessened. A farrow cow five or six months after calving gives less but richer milk than she does at first. But what avails this to the butter-maker, if he or she cannot separate the butter from the cream in which it is inclosed? Adding warm sweet milk seems to entirely remove this difficulty, and has many other incidental advantages.

These cold days make it hard for some people to get the butter to come, and hot water is often poured in the churn to get the butter. This makes it come soft and white. By all means use the thermometer in the cream, and do not let the churn be too cold when the cream is poured in it. Keep it in a warm room for an hour before churning. Bring the cream to a temperature of at least sixty-three degrees, and a little higher may do better. This will save work and make better butter.—Dorquain.

HAMILTON CREEK.

February 13.

A. Newquest gave a social dance the latter part of the week.

Dave Hare and Will Bruce killed 13 coons one night last week.

Wolsey & Co., loggers for Wheeler's saw mill, are putting in a fine lot of logs.

Frank Cole reports mountain sheep plentiful. Deer are scarce in the mountains.

Nathan Fry, of Cedar Flat, says feed in the mountains is good, and his stock is doing well.

G. Dollarhide made a flying trip to Seio this week to settle some business in connection with the railroad.

Fall grain has withstood the recent freeze in this locality exceedingly well. Wm. Riley's early sowing looks the best.

Mr. Francis Bellinger is having a large tract of timber cut on his vast domain this winter, preparatory to sawing for stock range.

E. G. Carr, McPherson & Co.'s yard boss, will move to Mehama, where he has received a position as foreman in a first-class saw mill.

J. G. Reed has commenced preparing his land for spring sowing. He says the recent freeze has left the ground nicely, and it is in a fine condition for plowing and sowing.

McPherson & Co. have just finished a steady run of several weeks sawing of lumber, preparatory to closing their mill. They are sending their lumber to Albany where they find a good market. W. H.

FARMERS' CONVENTION.—John Osborn, who was appointed by Governor Penneyer, delegate from Oregon to the Farmers' National Agricultural Congress, and who was elected a vice-president for that body, has called a meeting of farmers of Oregon at Salem, on the 13th of March next for the purpose of organizing a State Farmers' Association.

No other spring medicine has won for itself such universal confidence as Ayer's Sarsaparilla. It is the most powerful combination of vegetable alteratives ever offered to the public, and is acknowledged by the medical profession to be the best blood purifier.

Dr. Mark Hayer, Dentist, Lebanon, Oregon.
