The breaths and moments and dollars allotted to us in this life are too few to waste on useless words. Whether we write for the paper or speak in public, let us speak directly to the point, impart our message and yield the floor.

Where is the Justice in it.

Class legislation is the disgrace of our country, and discrimination in the administration of law is contemptible.

We have no disposition to array one class against another or to try to prejudice the country against the town.

We have been a citizen of this country for nearly twenty years and have tried to obey the law and also to encourage respect for the same with all that we were associated with, but as a law abiding citizen we enter our solemn protest against the unfair, unjust and partial discrimination against the country boys on the part of the municipal authorities of Lebanon.

Last Friday night the town burners were disorderly and reported drunk, and a scandal of the town, or at least disturbing the quiet citizens.

We have been a citizen of this country for nearly twenty years and have tried to obey the law and also to encourage respect for the same with all that we were associated with, but as a law abiding citizen we enter our solemn protest against the unfair, unjust and partial discrimination against the country boys on the part of the municipal authorities of Lebanon.

The health of the community is very good at present.

The Tramp Nuisance.

This place has been comparatively free from the visits of tramps, but this week, we had a variation of the program, in the shape of a female tramp with two boys. We would warn sympathetic individuals to bestow their charities on more worthy objects. This woman is simply a very degraded specimen of the genus tramp.

The boys have received their new racing cart, and we are reliably informed that they will attend the tournament at Portland.

Our Friend Gross, of Waterloo, is rather diminutive avoirdupois gross weight, but he can pull down a 240 pound weight when it comes to hospitality and generosity to his friends energy and snap deserves success, and the EXPRESS returns its thanks to him for his kind invitation.

Lots of Soda.

Gardens and grain look well.

Health is good about here now.

Plenty of campers rusticating here. Some for health and some for pleasure.

J. G. Gross is in good shape to accommodate all persons who wish to come to Waterloo, both at the hotel and feed stable.

We would be pleased very much if some denomination of the orthodox church would come here this summer and hold a campmeeting, as we have a fine grove for that purpose, and can accommodate people in its class style.

We are sorry to learn that our old friend C. B. Montague, of Lebanon has lately sustained a severe attack of deafness. We had the pleasure of meeting him a short time since, while he was rusticating at this place, but lo! when we came to talk to him and congratulate him on the election of his son, Elmer, we found him so deaf that our congratulations fell as harmless as Oregon mist on a meadow. His many friends throughout the country will be pleased to learn of this. Mr. Montague's digestive organs are in no way affected, even if he is deaf, judging from the way that he partook of the good things which were set before him by Mein Herr Gross. It is to be earnestly hoped that the deafness of Mr. Montague is only a temporary one from which he may soon recover.

Some member of the slum of creation unworthy the name of man, visited our spring sometime during last Friday night, and broke off and carried away the faucets to the springs, allowing the soda water to escape and the reservoir to become empty. The parties had best not make themselves known nor repeat the act as the citizens of Sodaville will not tolerate such malicious imposition.

Among others we notice the following persons in town this week. Mr. S. C. Card, of Seattle; Mr. and Mrs. Rice, of Philomath; Miss Tindall, Mr. Tindal Mrs. Wright, Mrs. Farrow; Also Mr. H. Y. Kirkpatrick, of the Lebanon EXPRESS was to be seen on our streets for a short time Monday evening.
