Cholera in Japan.

Some history of cholera in Japan has recently been published by the Director of the Sanitary Bureau for the Empire. According to this authority cholcra is known to have appeared in Japan in 1822, commencing at Nagasaki, the only port then open to foreign breaks. But since the empire has been | raid. freely open to foreign vessels cholera been much more frequent. It entered in 1876, and in 1877 it caused 7,967 deaths. The next epidemic was in 1879, when 105,786 fatal attacks were recorded. After this there was a cessation until 1885, during the course of which 7,152 deaths occurred, and the disease has extended into the present year. Cholera is admitted to be, in

The total annual consumption for the whole of France, however, is only 2,640,000,000 pounds, or an average of 1 mental series of the consumption of the whole of France, however, is only 2,640,000,000 pounds, or an average of 1 mental series of the consumption of the whole of France, however, is only 2,640,000,000 pounds, or an average of 1 mental series of the scale of the s ing out behind the left ear, causing death in a few hours.

One of the latest uses to which paper has been put is the building of chimneys. It is made in the form of blocks which are joined with silicious cement.

Every Week.

Two WAYS. CHOOSE WHICH:
There are two usual ways of doing what Nature sometimes does incompletely, namely, to relieve the bowels. One is to swallow a drastle purantive which evacuates profusely, abruptly and with pain, the other is to take Hostetter's Stomach Bitters, the effect of which is not violen', but sufficiently thorough, and which does not gripe the intestines. If the first is selected, the person employing it med not expect permanent benefit, and he cannot hope to escape the distillating reaction which leaves the organs as bad or worse off than before. If, on the other hope to escape the distillating reaction which leaves the organs as bad or worse off than before. If, on the other hope to escape the distillating reaction which leaves the organs as bad or worse off than before. If, on the other hope to escape the distillating reaction of a regular habit of body, consequent spon a renewal of a healthfully relaxing the bowels, the Bitters arouses a dormant live, imparts a beneficial impetus to the action of the kidneys, and counternets the cally twinges of rheumatism, a tendency to gout, and malaria in all its forms.

In 1730 a line of stages was established be-tween New York and Philadelphia, to make bi-monthly trips.

T. WRIGHT,

General Agent for ADVANCE Threshers and Engines

CHICAGO, ILL. Do you want a THRESHER, HORSE-POWER or ENGINE?

We guarantee the J. I. CASE "AGITATOR" SEPARATOR to be the Best Grain Saving and Fastest Thresher ever made We have over four hundred of these celebrated machines in operation in Oregon and Washington, all of which are giving the highest satisfaction. We are prepared to furnish you statements from the leading farmers and threshermen to prove this claim. There are twice as many "Agitators" sold each seas n, throughout the United States, as any other style or make of thresher. This is no experimental machine that must be sold cheap in order to into oduce it, but is a knowledged to be THE BEST, and consequently, upon its merits, the cheapest. In buying on "AGITATOR" thresher you are making no experiment and running no risk. We guarantee it in every way superior to every other thresher built. You cannot afford to buy a thresher without first examining ours. DO NOT BE TALKED INTO BUYING A MACHINE BECAUSE IT 'S CHEAP OR NEW-

Without first examining ours. DO NOT BE TALKED INTO BUYING A MACHINE BECAUSE IT 'S CHEAP OR NEW-FANGLED.

Remember, we guarantee the J. I. Case "Agitator" the test and fastest thresher made, and are ready to prove it. Is it not much safer and cheaper for you to buy a thresher known to be reliable in every respect than to experiment with a new-fangled machine for the benefit of some Easte n factory who want their machine experiment d with at your expense, while your grain is in danger of being ruined, and you are at heavy expense for operating?

Remember, your whole dependence is upon your crop proceeds, and if you endanger it by experimenting with new-fangled machines, you do so at great loss to yourself. We insure you against all these possible evils with our J. I. Case Agitator, which has been thoroughly tested for years in this country, and is known to be perfectly reliable, BEING BUILT ESPECIALLY FOR THE REQUIREMENTS OF THIS SECTION.

We also sell the only genuine DINGEE WOO'BURY HORSE-POWER made. Beware of imitations!

The J. I. CASE PORTABLE TRACTION ENGINES have been in general use in Oregon and Washington for years, and we guarantee them to be, and are ready to prove them to be, the most powerful, most durable, safest, more skillfully constructed and of better materia's than any other Engines made.

We are also EXCLUSIVE AGENTS for the CELEBRATED JACKSON'S DERRICKS SELF-FEEDERS AND FORKS. Buy our RANDOLPH IMPROVED STEEL FRAME HEADER, guaranteed the Simplest, Lightest and Easiest Handled Header in use. We sell the ONLY STEEL FRAME HEADER MADE.

SAVE MONEY by calling to see us, or writing for our prices and terms, and all other information regarding the above machinery.
