OLD NURSERY TALES. The Antiquity of the Fairy Stories Told to

Our Children. "Little Red Riding-hood," being generally supposed to be the story of the Dawn, or of the spring, first swallowed and then rescued from the jaws of Night, or Winter, is to be met with in the mythology of the Greeks, the old Australians and the Scandinavians.

"Blue Beard" is a well traveled villain. He has been in Zululand, Russia, Persia, Germany, Italy, Scandinavia and elsewhere, wearing successfully the garb of each of his adopted homes. This story is curiously interwoven with the myths of Psyche, Semele, Pandora, and other examples of woman's curiosity; so that there seems no reason why we should not actually look for the beginnings of "Blue Beard" in the Garden of Eden itself.

Puss in Boots," so far as it is possible to trace him, appears to have set out on his travels from Zanzibar, in the form of a gazelle, to have passed lected to get another barrel. TWO WAYS. CHOOSE WHICH:

There are two usual ways of doing what Nature sometimes does incompletely, namely, to relieve the bowels. One is to swallow a drastic purgative which evacuates profusely, abruptly and with pain, the other is to take Hosteter's Stomach Bitters, the effect of which is not violent, but sufficiently thorough, and which does not gripe the intestines. If the first is selected, the person employing it need not expect permanent benefit, and he cannot hope to escape the debilitating reaction which leaves the organs as had or worse off than before. If, on the other hand, he resorts to the Bitters, he can rely upon the restoration of a regular habit of body, consequent upon a renewal of a healthful tone in the inastinal canal. Besides healthfully relaxing the bowels, the Bitters arouses a dormant liver, imparts a beneficial impetus to the action of the kidneys, and counteracts the early twinges of rheumatism, a tendency to gout, and malaria in all its forms. O! YES, YES! CERTAINLY!

THE "ADVANCE" THRESHERS AND ENGINES

perimented with all the time, and at your expense. Do not foor with them any longer, while your grain is going to waste.

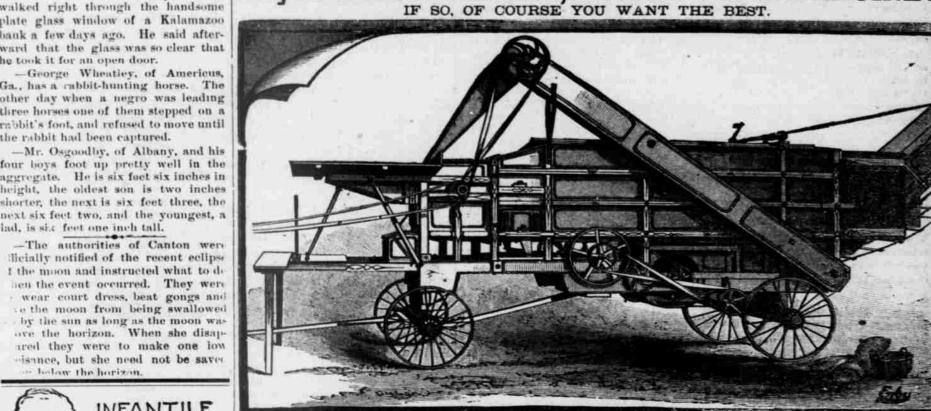

He member the new-fangled machine is sold on its merits entirely. Remember, your whole dependence is upon your crop proceeds, and if you allow Old Fogy machines to waste your grain, you are just that much out of pocket. To prevant this, see that the party that does your threshing procures a new-fangled ADVANCE Thresher, as they are constructed so as to save your grain, and have a better record than any old-fogy machine. Write for further particulars. I am prepared to prove all my statements—i. e., The ADVANCE machine will do more and better work than any other.

I hereby challenge any old fogy agent to name ANY case where the ADVANCE machine has failed to do as represented since its introduction on this Coast. Show up or shut up.

Remember that old fogy agents saying the contrary does not make it so. It will pay you to investigate. I can prove all I say.

I also sell the well known DINCEE WOODBURY POWER. A number of manufacturers make them on a royalty but I do not know of any imitations, but am always in-

THE LINDGREN CHEMICAL FIRE ENGINES

We have over four hundred of these celebrated machines in operation in Oregon and Washington, all of which are giving the highest satisfaction. We are prepared to furnish you statements from the leading farmers and threshermen to prove this claim. There are twice as many "Agitators" sold each seas m, throughout the United States, as any other style or make of thresher. This is no experimental machine that must be sold cheap in order to introduce it, but is a knowledged to be THE BEST, and consequently, upon its merits, the cheepest. In buying on "AGITATOR" thresher you are making no experiment and running no ri-k. We guarantee it in every way superior to every other thresher built. You cannot afford to buy a thresher without first examining ours. DO NOT BE TALKED INTO BUYING A MACHINE BECAUSE IT IS CHEAP OR NEW-

Remember, we guarantee the J. I. Case "Agitator" the best and fastest thresher made, and are ready to prove it. Is it not Hemember, we guarantee the J. I. Case "Agitator" the rest and fastest thresher made, and are ready to prove it. Is it not much safer and cheaper for you to buy a thresher known to be reliable in every respect than to experiment with a new-fangled machine for the benefit of some Easte n factory who want their machine experiments d with at your expense, while your grain is in danger of being ruined, and you are at heavy expense for operating?

Remember, your whole dependence is upon your crop proceeds, and if you endanger it by experimenting with new-fangled machines, you do so at great loss to yourself. We insure you against all these possible evils with our J. I. Case Agitator, which has been thoroughly tested for years in this country, and is known to be perfectly reliable, BEING BUILT ESPECIALLY FOR THE REQUIREMENTS OF THIS SECTION.

REQUIREMENTS OF THIS SECTION.

We also sell the only genuine DINGEE WOO'BURY HORSE-POWER made. Beware of imitatious!

The J. I. CASE PORTABLE TRACTION ENGINES have been in general use in Oregon and Washington for years, and guarantee them to be, and are ready to prove them to be, the most powerful, most durable, safest, more skillfully constructed of better materia's than any other Engines made.

We are also EXCLUSIVE AGENTS for the CELEBRATED JACKSON'S DERRICKS SELF-FEEDERS AND FORKS.

I guarantee the New-Fangled Advance Separator to be the best grain-saving, rastest Thresher and most durable Separator ever made. But, remember, it is not an experimental machine, as the Old Fogy machines are. You are well aware of the time lost (that you have to pay for) in experimenting with Old Fogy machines. The New Fangled Thresher leads the way. The growling and kicking of the Old Fogy agents is only equaled by the amount of grain kicked out in the straw by the O d Fogy machines. Of course, if you wish a cheap machine, Old Fogies will supply you at your own price; but their machines are dear at any price. You cannot afford to buy a thresher without examining the ADVANCE. Do not be talked into buying a machine because it is cheap and Old Fogy ish. Ask the tild Fogy agents if they will set beside the new-fangled machine and set you see which is the experimental machine, and sold on its mer. Is. I have never yet had to call on any court to help decide the merits of the new-fangled machine. Flerse exal ine the court records in reference to the Old Fogie's plan. Many years ago a man built a new-fangled machine, called a steam engine. Old Fogie's hem, as now, stood back and said they would ruin the country. Bo you not want to be ruined in the same way? Remember, the new-fangled machine is past all experimenting, while Old Fogy's machines are being experimented with all the time, and at your expense. Do not foor with them any longer, while your grain is going to waste.
