GATARRH IN THE HEAD.

STMPTONIS OF THE DISEASE.-Dull, heavy bealache, detunction of the must passages, discharges falling from the bead into the threat, sometimes profuse, watery, and acrif, at others, thick, totaclous, nuccus, purulent, bloody and purifd; the eyra are weak; there is riging in the enra deafness, backing or contain the threat, expectoration of offensive mat-ter, to far with scale from therry, the voice is changed and has a "used twarg"; the breath is offensive; smell and taske impaired; there is a sensation of diziness, with mental degres-sion, a backing custs and general debility. Only a few of the above snamed symmoms are likely to be present in any one case. Thousands of one's a mually, without manifesting half of the above symptoms, remain the communication, and cade in the grave. No desize is so contraor, mire deceptive and damperous, less understood, or menu constitutive treated by physicians.

COMMON SERVE TREATMENT. If you would remove an evil, strike at its red. As the predisposing or real cause of tarrh is, in the majority of cases, some variates, inpurity, or otherwise faulty conductor of the system, in strempting to cure the disease car chief aim must be directed to the removed of that cause. The more we see of this cilous disease, and we treat successfully thousands of cases an-mally at the Invalids' Hotel and Surplical Institute, the more do we realize the importance of considering with the use of a local, southing and healing application, a therease and persistent inter-ant use of blood-cleansing and tonic medicines.

In curing catarrh and all the various discases with CHEF RELIANCE. Itest Discovery cannot be too strongly extelled. It has a specific

effect upon the lining mucous membranes of the nacheck upon the ining muccus membranes of the nasal and other air-passages, promoting the natural secretion of their follieles and glands, thereby softening the discussed and thickened membrane, and restoring it to its natural, thin, delicate, moist, healting con-dition. As a blood-purifier, it is unsurposed. As those discusses which complicate caturth are discusses of the lining muccus mem-branes, or of the blood, it will readily be seen why this medicine is so well calculated to cure them.

LICCAL Agentorial application for healing the diseased condi-tion in the head, Dr. Sage's Catarrh Remedy is beyond all comparison the best preparation ever invented. It is mild and pleasant to use, producing mossnarting or pain, and containing no strong, irritating, or caus-tio drug, or other poison. This Remedy is a power-ful antiseptic, and speedily destroys all bed smell which accom-tantes so many cases of entarch, thus affording great comfort to those who suffer from this disease.

PERMANENT CURES. The Golden Medical Discovery is the natural "helpmate" of Dr. Sage's Cutrith Lemedy. It not only cleanses, purifies, regulates, and builds up the system to a healthy standard, and con-quers throat, twonchial, and lung compilications, when any such exist, but, from its specific effects upon the lining membrane of the meal passages, it aids materially in restoring the discuss d, thickened, or ulcerated mem-brane to a healthy condition, and thus eradicates the discuss, when a cure is effected in this manner it is permanent.

Both Dr. Pierce's Golden Medical Discovery and Dr. Soge's Catarrh Remedy are sold by druggists the world over. Discovery \$1.00, six bottles for \$200. Dr. Sage's Catarrh Remedy 50 cents; half-dozen bottles \$2.00. A complete Treatise on Catarrh, giving valuable hints as to clothing, dict, and other matters of importance, will be mailed, post-paid to any address, on receipt of a 2-cent postage stamp. Address. World's Discovery will be mailed.
