

PERSONAL AND OTHERWISE

Are you going to the circus? Harvest week is nearly finished. Miss Maud Halston made a short visit to Albany this week.

Watches and jewelry at Pillsbury's, Brownsville. Bed-rock prices. Mr. E. Gohn and family are rusticing in the mountains this week.

A peach orchard of ten acres near Ashland recently sold for \$10,000. There were two men in town this week canvassing for rubber stamps.

Read the new ad. of T. C. Peebler. Mr. Peebler says it pays to advertise.

Mr. A. C. Churchill and wife started for a trip to the mountains on Tuesday. The Centerville paper says there are fourteen Smiths in that town and no Joneses.

Our office was brightened by the presence of several young lady visitors this week.

Misses Rose and Maggie White, of Brownsville, were in town this week visiting friends.

Bishop Galloway will dedicate Bethel church, located at Spicer, Sunday, August 26, at 11 A. M.

Mr. Frank Dorris, a type of Albany, was in town on Wednesday and made his office a pleasant call.

Mr. C. B. Montague offers a fine opportunity for his creditors to get even with him. Read his new ad.

Our town has been greatly blessed (or afflicted) with life insurance agents, there being three in town this week.

I will lecture at the band hall next Saturday night at 8 o'clock. All invited. Admission 10c.—W. M. Morrow.

The contract for painting the engine house was let to Mr. A. Parrish, the lowest bidder, and he is now at work on the same.

Don't you forget Joe Harbin sets wagon tires. He has a first-class shrinker; no cutting and welding. All work warranted.

Miss Lillie Hackleman of Albany spent last Sunday in the city visiting friends and relatives. Miss Hackleman is a compositor on the Herald.

Rev. F. W. Parker and wife, of Newberg, passed through town Wednesday on their way to Sodalville. They formerly resided in Lebanon.

Every precaution should be taken against fire during this dry season. Fire once started nothing could prevent it burning all the wooden structures near by.

Prof. Frank Halley, of Nevada, Iowa, is in town visiting Prof. Hunt, his old friend and schoolmate. Prof. Halley says that this country is far ahead of California.

At the meeting of the city council last Tuesday night it was ordered that the dog tax be collected. Now is the time to give away or kill some of the old dogs around here.

The most alarming and violent attacks of Bilious Colic or Cholera Morbus can be promptly relieved and cured by taking Chamberlain's Colic, Cholera and Diarrhoea Remedy. Sold by M. A. Miller.

Miss Kitty Cooley, an accomplished young lady of Brownsville, is the guest of Miss Belle Kirkpatrick in Lebanon this week. We gladly welcome her to our town and hope she may come again.

One of the handsomest residences in Linn county is that of Mr. C. B. Montague, of Lebanon, according to the impression made on the mind of a Democrat while passing through that city.—Albany Democrat.

We think his impression was about right. We regret very much to learn that Mrs. Jonathan Wasson is again quite sick. She has the sympathy of many friends, who love her for her motherly virtues and her many acts of charity and benevolence.

Mr. Gross presented the thirty printers with a jug of soda water last Monday from the famous springs of Waterloo. Mr. Gross informed us that there are a goodly number of boarders and campers at that popular resort.

Pears as big as your head, plums as big as your fist, grapes of hen egg size, watermelons as big as your body, and other luscious fruit have made their appearance in our market.—Home Press (Centerville, Umatilla county).

As a matter of information to our numerous readers, we will state that the Three Sisters are still living coldly by themselves on the summit of the Cascade range, with their bosom bare defiantly to all the heated coaxing of our valley summer.—Prineville News.

Miss Frankie Gilbert has closed her school at Albany and is now taking a vacation at this place with her many friends. She will take up another school at Albany in two or three weeks.

Mr. Frankie is a good teacher and will be greatly missed in Lebanon.

This is leap year and it has been 1000 years since there were as many eights in the year as we have now. It is a good time for old bachelors to cogitate, the girls to reposit, the fathers to expostulate, and the young men not to hesitate.

Miss Hela Gilbert will remain at the head of the musical department of the Santiam Academy the coming year. Miss Gilbert has had years of experience in teaching, and has won the merited reputation of being a thorough, successful teacher of music.

Don't skip the advertisements in reading your paper. The advertisements show you who the live business men are. All persons who have trading to do will find that it pays to deal with those who advertise. The man who hangs out his sign through a newspaper is not ashamed of his goods or his prices.

Prof. J. L. Gilbert has decided to again take charge of the Santiam Academy, and the school will open on Monday, Sept. 24. The professor has taught in this place eleven years and has done his duty faithfully and well, and the patronage are glad to get him to take charge of the school again.

Still the improvement goes on. Yesterday our enterprising townsman, G. E. Hardy, commenced the erection of his telegraph line to Albany. The poles are all hauled and will be distributed in a few days by an extra train. They will be set just outside of the railroad right of way. We wish Mr. Hardy success in his enterprise.

Hammack & Smith of Tallman are now prepared to accommodate the farmers at their warehouse. These are the best engines and they have the very best and most improved machinery. The engine was designed by Mr. Hammack and built in Albany about three years ago. It is a novelty in design and does the work admirably.

Last Monday Mr. W. C. Peterson drove over to Albany on a road cart. On his return home, as he was driving slowly along, whistling a plaintive tune, his horse became offended at something and commenced kicking, and did not stop until there was a dash board left to kick. Wait turned a back somersault out of the cart and escaped unhurt.

Rev. W. R. Bishop of East Portland paid this office a pleasant call on Monday. He has been long and favorably known in Linn county, both as a successful teacher and as a Christian minister. He has many warm friends in Lebanon and Brownsville, and many who have received literary and religious instruction from him welcome him as a friend and as a pastor.

Miss Williams, who has been visiting Mrs. Guy, her sister, at this place, returned to her home at Dallas last Monday, much pleased with her visit here. She spent last Sunday at Waterloo, and greatly enjoyed drinking the soda water. She suggested a needed improvement at that place—that there be a windlass or something to hoist the ladies up the hill, so as to relieve the young men of that labor. The young men may think this is not needed.

We have received a complimentary ticket admitting ourself "and lady" to the Portland Mechanics' Fair, which opens the 4th and closes the 27th of October. We are very thankful for the ticket (otherwise we would be utterly unable to attend), and if we could overcome the circumstances over which our subscribers have entire control, we will be present. However, if we fail to get there, it is to be hoped they will proceed with the show all the same.

The lawn party given on the lawn of Mr. C. C. Hackleman last Saturday evening was a grand affair. The grounds were decorated in the most beautiful manner with all kinds of flowers, and Chinese lanterns were hung up around to show the beauty of the scene. The stands were decorated with flowers and other ornaments, and were tended by the young ladies—just the way to catch the boys. It would be impossible for us to describe the occasion, but to say the least it was grand, and all seemed to enjoy themselves. We have not heard how much the profits were, but know they were not enough to justify the ladies for fixing such an affair. Last but not least, by no means would we forget that nice plate of cake which was presented to the Express from Miss Edwards' elegant table.

All Start Together. Now that the public schools will soon open again, we suggest to parents and patrons that "all things be had in readiness," that the dear boys and girls may all get a fair start and a start all together. Justice to the children and teachers alike demand this. Talk about blowing your town; you can't do it without a good school, and this can't be had without faithful and regular attendance on the part of the children. We believe in good teachers, earnest devoted men and women, qualified in head and heart, and who love their profession, but the best talent and most faith will accomplish but little if they are not given a united and hearty support. Let us all do our best.

Big Beans and Fine Corn. T. P. McKnight, an enterprising horticulturist who lives some three miles from Lebanon, brought to this office a seven-foot pole of beans with three vines on it, containing about one hundred beans, which averaged at least seven inches each in length. The bean is of the case knife variety and is certainly the most prolific we have ever seen. Mr. McKnight also left at this office yesterday a seven-foot stalk of corn with four big, nice ears on it, something that is seldom seen any where. The corn is about the best we ever saw. This shows what can be done in this line in Oregon.

About Sidewalks. Our sidewalks need about \$20 worth of nails and \$15 worth of tariff thereon driven into them. The more tariff the better, as that sticks and the nails don't. It may be, however, that about the tariff is high enough on the nails, and that is what causes them to reach higher.—Wasco Sun.

That's just what's the matter with the sidewalks in Prineville, and if we could our great toe so set nails much often the town fathers will hear from us.—Ochoco Review.

Lebanon is not the only place, we see, where the nails are a "stuck-up set."

Attention Ladies. We call the attention of the good ladies of Lebanon to the fact that the District Convention of the W. C. T. U. meets here on the 12th and 13th of September. We trust that all will be given a hearty reception, and to do this it will be necessary for the ladies to have a meeting and select a committee of arrangements. A word to the wise is sufficient.

Notice. As I am thinking of making a change in my business, I respectfully ask all those indebted to me to come forward and settle as soon as possible, as I want to square up my books. T. C. PEEBLER.

A Western Manufacturing City. It would appear from an article in the West Shore magazine, that Portland, Oregon, is the center of manufacturing for the great Columbia river region, and possesses advantages calculated to make it the great manufacturing point of the Pacific coast. The West Shore is an illustrated magazine, the only one on the Pacific coast, and makes a specialty of describing and illustrating the West in all its features. Artistically and typographically it is the peer of any publication in the United States, and its literary standing is a high one. As a family magazine it has no superior, and as an exponent of the resources of the West, no rival. Every one at all interested in Oregon and neighboring states and territories should be a constant reader of its pages. Subscription price, \$2.50 per year, 25 cents for single copies. Published by L. Samuel, Portland, Oregon.

With Dose. S. J. Willott, our old friend of Brownsville, and one of the very best of citizens, has been suffering for years with a uterine trouble, and although he visited both Sacramento and San Francisco and employed the very best known skill, yet his trouble seemed to increase. This past spring and summer his case became a desperate one, and his friends despaired of his recovery. About one month ago Dr. J. H. Henry, a practicing physician of Brownsville, was called in and made an examination, and in one single surgical operation removed the trouble entirely. We congratulate the doctor on his skill, but we rejoice more that so good and useful a citizen has been restored to health and usefulness.
