Terlof, Sweet Home, Seio, and all parts of Linn County. All kinds of Teaming. BURKHART & BILYEU.

PACIFIC COAST NEWS.

FATAL HUNTING ACCIDENT. Found Floating in the Bay. Heavy Fire at Jacksonville Shot by an Officer.

SHOT WHILE RESISTING ARREST. A Child Killed. Tommy, 5 years old, son of John Stanton, was instantly killed at Merced, Cal., by being run over by a heavy hay wagon.

The Bark Diamond Wrecked. The British ship Grassendale, which arrived from Sidney at San Francisco, brings news of the wreck of the bark Diamond off the Malaka islands on June 16.

Suicide by Arsenic. A man named Ears H. Matthews, aged about 35 years, a resident of Rockford, Ill., committed suicide by taking arsenic.

Found Floating in the Bay. The steamer Eddi and Marion reports that while at Angel Island, near San Francisco with a pleasure party they found the body of a female infant floating in the bay.

Fatal Hunting Accident. A fatal accident occurred on Los Angeles river just above East L. A. Angeles, Cal. A young Italian, Antonio Palmeri, shot at a ground squirrel, while the little animal dodged into a hole in the bank.

Shot While Resisting Arrest. S. G. Fisher, an old resident of Colfax, W. T., about 50 years of age, who lives on the Cottonwood, was fatally shot by Deputy Sheriff James Patterson and a posse, while resisting arrest.

Heavily Laid at Jacksonville. A fire occurred at Jacksonville, Ore., which destroyed the carpenter shop, planing mill and furniture store of D. Linn, the dwelling house of W. J. Pymble and N. Fisher, and several tenement houses belonging to T. Chavner and Max Muller.

Shot by an Officer. Patrolman Joseph Kershaw saw Harry Day enter a Chinese laundry on Sanchez street in Los Angeles, Cal., and opened a laup. The officer entered and placed Day under arrest.

Switch Engine and Train Collision. The regular passenger train due at Fort Costa, Cal., collided with switch engine No. 83, and both engines were completely demolished.

An Old Hunter Drowned. A navy yard workman at Vallejo, Cal., saw a man in the river swimming after a sail boat. He gave the alarm, and help was immediately sent, but was unable to find the man.

A New Target, which indicates the value of the last shot without the necessity of a marker, has been brought out. When the shot strikes a colored disc appears, which tells the value by its color.

Never put away food on tin plates. Fully one-half the cases of poison from the use of canned goods is because the article was left or put back into the tin can after using.

TELEGRAPHIC NEWS.

A Negro's Perilous Ride. An old negro living near Atlanta, Ga., has just completed a perilous ride on a tree of over 200 miles on the Savannah river.

Florida promises to become a large producer of opium. Sixteen plants will produce \$1,000 worth of opium.

Plaster is cheap, and a handful on each corn hill will be of much advantage. It should be used on grass crops also.

Experienced tomato growers claim that a flock of turkeys will effectually put an end to the depredations of the tomato worm.

One pound of Paris green to three hundred pounds dry land plaster is the proper proportion for application to potato vines.

A few drops of oil in harness and saddles occasionally may reduce the profits of the saddle, but it will also reduce the wear on the farmer's pocket.

In China there are over four hundred species of plants used for food, and in the world probably ten times that number. Sawdust in Sweden is used in bread and found digestible.

The wool product of California has averaged nearly 40,000,000 pounds per year since 1880, bringing to the State \$6,000,000 a year. This is about one-seventh of the entire wool product of the country.

Keep account of the date of breeding your mares; you will then know better about the time they will foal. It is better to have come after the grass is plenty than when the mare is on dry feed.

Do you know the weight of each of your horses? It is quite a satisfaction to know just how much each horse weighs, and as plentiful as scales are in the country, there is no excuse for not knowing.

The only farmers that are making money now, or ever did or ever will, out of horse-breeding are those who raise the best classes, and are willing to pay liberally for the use of a first-class stallion.

The tomato is commonly grown in gardens on soils made much too rich. The vine attains remarkable vigor, but the fruit ripens slowly. It only moderately fertile soil were used for growing tomatoes, the crop would ripen earlier, and be less subject to rot.

Gravel serves the same purpose with birds that teeth do with quadrupeds. The grinding in the gizzard may be heard by placing the ear near the fowls when their stomachs are full and digestion is taking place.

While the man is certainly a failure in his business who cannot make good butter out of good milk, yet that man has never been discovered who could make first-class butter out of second-class milk.

Have you a set of hay caps? If not, get them ready at once; they will clean more than save their cost in the first season. Get stout cord or five-quarter sheeting and cut it into squares, hem the raw edges, and sew into each corner a loop of stout cord or small rope, to fasten the caps on; or, better still, use the yachting proof fiber hay caps.

There is no simpler, more harmless and effective remedy for worms in hogs than flour of sulphur. Swine readily partake of it when mixed with gruel or other sloppy food.

A German bark J. D. Jacobini arrived at Ship Island, near New Orleans, from Colon in ballast. Capt. G. Eldorck and his crew of eleven men were ill most of the voyage, and when she arrived a signal of distress was flying at half mast.

A Stricken Vessel. The German bark J. D. Jacobini arrived at Ship Island, near New Orleans, from Colon in ballast. Capt. G. Eldorck and his crew of eleven men were ill most of the voyage, and when she arrived a signal of distress was flying at half mast.

MARKET REPORT.

WHEAT—Valley, \$1 30 @ 1 31 1/2; Walla Walla, \$1 20 @ 1 22 1/2.

BARLEY—Whole, \$1 10 @ 1 12 1/2; ground, per ton, \$25 00 @ 27 50.

OATS—Milling, \$2 34 @ 34 1/2; feed, 44 @ 45 1/2.

HAY—Baled, \$10 @ 11 1/2.

SEED—Blue Grass, 14 @ 16 1/2; Timothy, 9 @ 10 1/2; Red Clover, 14 @ 15 1/2.

FLOUR—Patent Roller, \$4 00; Country Brand, \$3 75.

EGGS—Per doz, 25c.

BUTTER—Fancy roll, per pound, 26c; pickled, 20 @ 25c; inferior grade, 15 @ 25c.

CHEESE—Eastern, 16 @ 20c; Oregon, 14 @ 16c; California, 14 @ 16c.

VEGETABLES—Beets, per sack, \$1 50; cabbage, per lb., 2c; carrots, per lb., 2c; lettuce, per doz., 20c; onions, \$1 00; potatoes, per 100 lbs., 10 @ 12c; radishes, per doz., 15 @ 20c; rhubarb, per lb., 6c.

HONEY—In comb, per lb., 18c; strained, 5 gal. tins, per lb., 8 1/2c.

POULTRY—Chickens, per doz., \$4 00 @ 6 00; ducks, per doz., \$5 00 @ 6 00; geese, \$6 00 @ 8 00; turkeys, per lb., 12c.

PROVISIONS—Oregon hams, 12c per lb.; Eastern, 12 @ 14c; Eastern breakfast bacon, 12c per lb.; Oregon 10 @ 12c; Eastern lard, 10 @ 11 1/2c per lb.; Oregon, 10 @ 11c.

GREEN FRUITS—Apples, \$5 50 @ 6 50; Sicily lemons, \$6 00 @ 6 50; California, \$3 00 @ 5 00; Navel oranges, \$6 00; Riverside, \$4 00; Mediterranean, \$4 25.

DRIED FRUITS—Sun dried apples, 7c; per lb.; machine dried, 10 @ 11c; dried plums, 13c; Italian prunes, 10 @ 14c; peaches, 12 @ 14c; raisins, \$2 40 @ 2 50.

WOOL—Valley, 17 @ 18c; Eastern Oregon, 9 @ 15c.

HIDES—Dry beef hides, \$6 10 @ 6 50; culis, 6 @ 7c; kip and calf, \$6 10 @ 6 50; Murrain, 10 @ 12c; tallow, \$3 @ 3 1/2c.

LUMBER—Rough, per M, \$10 00; edged, per M, \$12 00; T, and G, sheathing, per M, \$13 00; No. 2 Boonville, per M, \$25 00; No. 2 covering, per M, \$18 00; No. 2 rustic, per M, \$18 00; clear rough, per M, \$20 00; clear P. 4 S, per M, \$22 50; No. 1 flooring, per M, \$22 50; No. 1 rustic, per M, \$22 50.

MEAT—Beef, wholesale, \$4 50; pink, \$3; bacon, \$3; butter, \$4 50; Linnas, \$4 50 per cental.

COFFEE—Quote Salvador, 17c; Costa Rica, 18 @ 20c; Rio, 18 @ 20c; Java, 27c; Arrabucke's, roasted, 22c.

PICKLES—Kegs quoted steady at \$1 35.

SALT—Liverpool grades of fine quoted \$18, \$19 and \$20 for the three sizes; stock salt, \$10.

SUGAR—Prices for barrels; Golden C, 6 1/2c; extra C, 6c; D, 5 1/2c; crushed, fine crushed, cubic and powdered, 7c; extra C, 6c; halves and boxes, 7c; higher.

TO DESTROY VERMIN. Applications That Prove Destructive to All. Salt scattered freely over the floors of a house, swept into the cracks and allowed to remain there, will exterminate bed-bugs; a bedstead thoroughly washed in a strong brine and every crevice filled with salt, and salt freely scattered under every slat, the slats well soaked in brine, will surely put an end to them. This receipt has been tested in a hotel in Oregon that was literally alive with them.

EVICTED IN A COFFIN.

Carried in Triumph Up a Street Sitting in an Exploited Bed. One of the most extraordinary incidents that has yet occurred in connection with evictions took place in Caswell on Monday last.

The defense set up was that Mr. Kyte had left Dwyer the house, together with a coffin, which he kept beside him in his room, but notwithstanding this contention, the justices gave a decree for possession.

On Monday morning the town bailiff proceeded with a party of police to William street to carry out the order of the magistrates. The house, as already stated, was barricaded.

HOW MAPS ARE MADE.

Dots and Lines and Crooked Marks That Dot a Day's Progress. The story of a dot—a fortune in a hair-line—is the making of a map.

The story of a dot—a fortune in a hair-line—is the making of a map. Dot stories fill a row of walnut cases; the reminiscences of dotted lines occupy thousands of pigeonholes; a library of crooked marks is piled to the ceiling of a five-story block on Monroe street.

Fortune lies in the accuracy of the lines and stories in the locations of the dots. Maps are as necessary to real estate men as title deeds, and nearly as much depends on their accuracy.

A map is a plain, simple thing that tells its varnished tale at a glance. How is it made? Until about the time of the great fire maps were engraved on stone, copper or steel.

The map-maker works in a room whose temperature can not run below ninety degrees. Few men work at it longer than four years, though years of apprenticeship are required to make them expert. The heat becomes unendurable in the end and they go into some other employment.

Preparation of making the original plate mottled beeswax and some hardening ingredients are poured on a highly polished metal plate. For fine work the wax is as thin as a piece of paper, but for the coarser kind the waxen sheet is an eighth of an inch thick.

When all the plates are made, they are made by hand and require an artist's operators. They draw the hair-lines with sharp-pointed instruments by the aid of straight-edges. The dotted lines indicate county or township boundaries.

FOISON IN CHEESE.

The Probable Origin of the Poisonous Principle in Dairy Products. The causes of poison cheese remained a mystery, in a scientific point of view, until the investigations of Prof. Vaughan, of Michigan, established the fact of the presence of tyrotoxin in poison cheese.
