## OUR NEXT PRESIDENT.

Mr. Dalton, postmaster of the House of Representatives, and an Indiana Democrat for many years, says of the newly-elected President: "In six months there will be more complaining of Mr. Harrison by Republicans than by Democrats. He will give a good, clean and able administration. Everything about it will be high-toned and honorable. Democrats and the people generally will have nothing to complain of. It will be a conservative administration, much more liberal than the extremists would desire, and no man or clique of men can run Mr. Harrison. He will be the President. This will cause some heart-burnings in his party. He is a civil service reformer, and is as firm as Cleveland. In this he will antagonize those of his party who will demand a clean sweep. Some of his party will wish a vigorous and oppressive policy in the South. They will be disappointed. He will adopt the most liberal Southern policy any Republican has ever thought of. He will treat the Southern people well. I know the man. He is a Republican, but he is not lacking in wisdom. His appointments in the South will all go to Republicans. He will not appoint a Democrat to any office. He is too much of a partisan for that. But he will appoint no carpet-baggers; none of the rascals that have been placed over the Southern States before. Some of the better States are now very close. He will try to draw them into his party ranks. I think he will be with his party on the educational question, on the pension question, on the tariff, and all those issues." The picture that Mr. Dalton has drawn is a brighter one than most Democrats can see just at present, but we shall see later.

When Gen. Harrison visited the Pacific coast in 1885 as U. S. Senator he remarked that the distant location and peculiar products of this coast entitled it to a member of the President's Cabinet. It is believed now by the ones who are nearest to him and know him best that the Pacific coast will receive the Secretary of the Interior or Postmaster General's portfolio under his administration. Oregon is more entitled to the honor, owing to the encouraging record she made during the campaign and the prominent part she took in shaping the course of the contest, than any other state, and Gen. Harrison will not doubt recognize the claims of this state to a similar position and select one of his advisers from among our distinguished citizens.—Portland News.

When doctors disagree who shall decide? A bit of enterprise on the part of the Boston Globe discloses a remarkable difference of opinion among the physicians of that city. A reporter, in perfect health, visited ten prominent Boston doctors and stated non-existent symptoms and requested a diagnosis. The man's appearance physically was perfect; but notwithstanding this, each doctor gave the imaginary invalid a different prescription. The diagnoses and prescriptions, together with the interview with each doctor and a statement as to the reporter's elegant health, were published in the Globe.

Efforts are being made by the Treasury department to secure the consent of Canada and Mexico to prevent the Chinese from crossing their respective borders into the United States. It is evident, however, that Mexico will do nothing in the matter. Minister Romero says that article 2 of the Mexican constitution reads as follows: "All men have the right of entering and leaving the republic, or traveling through its territory, and of changing their residence without the necessity of letters of security, passports or other similar requirements."

Rufus Hatch, of New York, gave his opinion of Henry Villard as follows: "Villard and his golden spike cost me \$400,000. He is a magnetic man. He got \$400,000 and thought that would pull him through, but when he retired from the Northern Pacific he was \$200,000,000 in debt. He will do better this time, because he is like the man who was kicked in the stomach last year and took quite so handsome, but he knows an eternal sight more."

The coast line of Alaska is 18,211 miles in length, nearly twice the combined Atlantic and Pacific coast lines of the United States proper. It must surely be a crooked country. The market value of the fisheries last year was \$3,000,000. The seal fisheries yield the government \$317,500 annually, enough to pay 4 per cent. on the purchase price to Russia.

The impression seems to be prevalent that Mr. Blaine will not go into the cabinet of President Harrison, but that a place in that body will be given to Wm. P. Frye, and that Blaine will succeed Frye in the Senate. There is some reason for the belief that a seat in the Senate would be more suitable to the Plumed Knight than one in the cabinet.

From statistics furnished by the Commissioner of Agriculture at Washington, it is shown that the greatest yield of wheat per acre in any state is credited to Oregon, while the greatest yield in any region of the country, state or territory, is that of Washington Territory, which was 18.5 bushels per acre.

When the territories of Washington, Montana and Dakota are admitted as states, the importance of the Pacific slope in national affairs will be largely enhanced and will more than ever attract the attention of political managers.

Mrs. Harrison, they say, is opposed to the decolette dress, and bare arms and shoulders are likely to be as scarce as the White House under Harrison as champagne under Hayes.

Dr. Skelchey, who planted an orchard farm in California, clears \$40,000 a year from the plums, and consequently plumes himself on his success.

## NEWS NOTES.

Palestine has 500,000 inhabitants. Jackson, Tilden and Cleveland were born on March 15.

The richest widow in the world is Mrs. Moses Taylor of New York, worth \$40,000,000.

The Republicans will have a majority of 15 in the next House of Representatives.

It is said that Gen. Lew Wallace is to be Secretary of War under President-elect Harrison.

Ex-Governor Alger, of Michigan, studied law while working on a farm at five dollars a month.

It is rumored that President Cleveland has been offered the presidency of the Baltimore and Ohio railroad.

The women of America, it is alleged, spend \$3,000,000 annually in the purchase of paint and powder for their faces.

The government has offered the Sioux Indians two million dollars for their reservations, instead of one million, as at first proposed.

An English syndicate has bought up all the tin deposits so far discovered in Dakota. The English know and appreciate the value of tin in the market.

The better which Senator Palmer, of Michigan, uses on his table is made from the milk of his own high-bred Jersey cows, and costs him \$3 a pound.

Cyrus W. Field, the millionaire, started in a humble way. He "forgot" clerked for a commission house at \$2 per week. He has been a saving man.

It has been computed that during a lifetime of three score years and ten the blood of a human being travels 4,202,400 miles, and that his heart beats 2,538,845,000 times.

One of the leading anarchists in St. Louis is named Griefgrabber. A man with a name like that is quite likely to get what he grabs for when he goes into the anarchist business.

The prohibition vote is about double what it was four years ago. St. John received a little over 151,000 votes; Gen. Fisk has received about 330,000. If a party dies on this line, in a few more years its death will be a stupendous corpse.

Marshall Booth says that within the last twelve years one million men and women have been rescued from the slums by the Salvation Army and transformed into sober, self-supporting Christian citizens.

The supreme court of Utah has entered a final judgment dissolving the Mormon church corporation and escheating the property to the government. The defendants have taken the case to the U. S. supreme court, where it will be hotly contested.

The wine cellar of the late Samuel J. Tilden was sold out at auction Nov. 13. Five hundred and twenty bottles of Steinberger brought from \$3.50 to \$5 per bottle; double O. Madeira brought \$3.50, and some blue-grass whisky, forty years old, brought \$11.50 per gallon. In all, 4400 bottles were sold.

Spiritualism vs. Mind Reading and Mesmerism.

If the deluded victims of so-called spiritualism would study and investigate the subject of mind reading, as clearly taught in phrenology and mental philosophy, they would find a ready and candid solution to many of the seemingly strange phenomena. The study of mesmerism, as taught and explained in Dr. Willard Hall's "Problem of Human Life," will throw much light on this difficult subject.

Dr. Fowler, in his study and life-long investigation of phrenology, is enabled to give a correct diagnosis of the brain—its power, texture, volume and force—and to tell almost to a certainty the natural and acquired channels in which the mind runs, and to read with great precision the thoughts that ruminate in the mind. But Fowler & Wells have founded a school, in which any man or woman of good natural abilities can attain, at least in part, to that ability. Lately they have formed a partnership with Hawley & Greenfield, so as to combine the study and demonstration of mesmerism with that of phrenology.

No one of common intelligence who will take, read and study the weekly journal published by Fowler & Wells, of New York, on "Phrenology and Mesmerism," can fail to find a satisfactory solution to spiritualistic phenomena. Spiritualism, in its modern acceptance, is blighting on intellect, morals and religion, while phrenology and mesmerism are refining, elevating and moralizing. Spiritualism is degrading in that it excites the baser passions of the human heart and lowers the standard of virtue. Phrenology is elevating in that it exalts all the noble elements of our nature, and is the handmaid of morals and religion.

M. A. Miller, the druggist, desires to inform his patrons that he is agent for Chamberlain's Cough Remedy, the best and most reliable medicine in use for coughs, colds and croup. No one suffering from a throat or lung trouble can use it without benefit. It will cure a severe cold in less time than any other medicine or treatment. It is the only known remedy that will prevent croup.

## JERUSALEM.

The re-establishment of the ancient city of Jerusalem has been the dream of enthusiastic religionists during all of the ages of the Christian era. Recently that idea has taken somewhat of a commercial caste, and it now appears that, to a certain extent at least, it is being accomplished. The London News says the boom which was recently started in Jerusalem still appears to hold its own. Several hundred public buildings have been erected on Mount Zion. The Rothschild hospital for Jews on a neighboring hill is a striking building, although its cruciform shape is a source of grief to faithful Jews. A girls' school has been built by Italians, and a stately building for Russian pilgrims is now in course of erection. Similar buildings for German, French and Italian pilgrims are already erected. On the top of the Mount of Olives the Russians have built an ugly tower with the sole object of seeing the Mediterranean and Dead seas from its top; but their church in Gethsemane makes up in beauty for the ugliness of the tower. A company of German Protestants, calling themselves "The Friends of the Temple," which has been in existence for many years, is now to take definite steps for the restoration of the ancient temple.

A Philadelphia watch factory sent a delegation of women to Washington to present Mrs. Cleveland with a gold watch in the name of 500 female employees. The obvious result was that the watch was given to the woman who had been paid for advertising rates.

The Rev. E. P. Roe says: "An open wood fire is company in itself." It is still all the more companionable when there are a pair of sparkling eyes, rosy lips, cherry cheeks and a slender waist contiguous—not necessarily for publication, but as a guarantee of good faith.

## Bargain List of Real Estate

FOR SALE BY

A. R. CYRUS & CO.,

Real Estate Agents,

LEBANON, LINN COUNTY, OREGON.

Lebanon is a thriving town of about 600 inhabitants, pleasantly situated in the midst of the most favorable portion of Linn county and also of the Willamette valley. It is the terminus of the Lebanon branch of the O. & C. R. R., 18 miles from Albany, overlooking the beautiful Albany prairie, and controls the trade of a large section of country, both prairie and hill lands being tributary to it, giving a large variety of products. Some of the finest fruit lands of the valley are near this place; there are also great facilities for manufacturing and stock raising. It is but 41 miles to the famous mineral springs at Sodaville, and 6 miles to Waterloo, where there is a magnificent water power and also a mineral spring. Altogether, this is a most desirable location for settlers. Linn county is finely situated for commerce, being crossed by two railroads north and south and one east and the Willamette river on the west.
