He is quite an intelligent gentleman, and is thoroughly conversant with the history of this country, and is identified with all that pertains to her welfare.

There was a little unpleasantness at the school meeting in the adjoining district north of town. The belligerents both left the marks of battle, but were separated without a great loss of blood. We understand that there was an attempt to use deadly weapons, but friends interfered and prevented what might have been a very serious matter. The difficulty was between Mr. George Ross and J. Peebler, and originated at the school meeting.

Few towns in this valley, or anywhere else, have a better class of merchants than Lebanon. Generous, polite, reliable and correct in their business, they justly merit and are receiving a liberal patronage from all the surrounding country. Their country and themselves are well filled with the best lines of goods, which are sold at as small a margin as anywhere in the State. Next week we will give a column on the personnel of our business men.

TO OUR NEW CHURCH BELL.

MONTAGUE'S COLUMN.

Montague has the pleasure of announcing that his mammoth stock is now being replenished with new goods weekly—his large and increasing sales requiring a constant supply of new goods.

His prices will be so low that for self preservation close buyers who pay on the spot for their purchases will necessarily do their buying of him.

Montague keeps no old stock. When, as is the case sometimes, any article is slow of sale, that article is at once marked down, regardless of cost, and let go for anything it will bring.

This method insures us a nice fresh stock at all times to select from. When you want any goods look through Montague's mammoth stock, price his goods, and be convinced that this establishment is up with the times.

And here in Lebanon you can get goods just as low as you can in any town in the State of Oregon.

It is to the interest of every person to patronize their home merchants. The fact is, a town without merchants would be a very singular one in any country, and yet every town is blessed (?) with a few people who always work against their own and their neighbors' interests by advocating some other place as a better one than their own to do their trading in.

Lebanon is not entirely exempt from those who ought to be loyal to and work for the upbuilding of their city, but who are unfortunately quite the reverse.

Much capital has already been driven away from Lebanon by this course, and many contemplated enterprises that would have enhanced values in this vicinity have been abandoned through the malign influence of chronic cranks.

Let us all work together for our own homes and our own people, and the day is not distant when we will have as prosperous an inland town as there is in this State.

Merchants here in every line will sell you goods as low as they can be sold anywhere.

They are always with you to help to assist in every public enterprise. Montague voices the sentiment of the mercantile community of Lebanon when he says that he will sell you anything that you want from his mammoth stock at the lowest living rates.

His stock is a very large one, and the goods must be sold. Drop in and be convinced. There is no good logic in building up other cities at our own expense.

The farming community understand their own interests well, and they know that to make their land valuable and sought after by buyers a good prosperous town in their vicinity is just the thing to attract newcomers, and they almost universally patronize their home towns. Our interests are identical. Let our motto be, "Home against the world."

CLOTHING. We make mens', boys' and children's clothing a specialty. Our spring stock is now arriving; call in and examine them. The low price of wool last year has so reduced the price of clothing that a good suit is now within the reach of every one.

If you owe Montague anything for clothing pay it now.

TO THOSE WHO OWE ME. I must insist on full payment being made by those indebted to me within the next thirty days, as I cannot wait longer. A word to the wise is sufficient; I have no time to send personal duns, and I need the money now.

Respectfully Yours, C. B. MONTAGUE.

BOOTS & SHOES. Montague keeps the best line of boots and shoes, as well as a very large assortment. Our styles are unsurpassed, and no chromos or portraits of gimlet-eyed shoemakers are necessary to make our poems in leather go like hot cakes.

When you need anything in that line which will do you good service or fit comfortably your wife, your son, your daughter or the baby, go into the mammoth store of C. B. Montague, buy your goods at his well known low prices and go home happy. If you owe Montague anything, now is a good time to pay it.
