WILL COME TO OREGON.

Here is an extract from a letter received yesterday by the Oregon Land company, from a Nebraska man who looks to Oregon for his future comfort and peace of mind. "There are three of us in the mill here who will come to Oregon soon. This country is getting worse all the time. The frost froze ice an eight of an inch thick the 1st, 2nd and 3rd of May. The wind has been blowing a gale from the southwest for five days now, night and day, at a velocity of 40 to 50 miles an hour. The sky is darkened by the dust; the men here are about bent double in order to brace themselves against the wind; the farmers spend most of their time chasing their hats around, and the women can't go out doors, the wind whirls them about so and chaps their faces. Oh, its hell around here! Two hundred feet to water, and six hundred miles to coal and no timber. Hope to get some Oregon papers soon." The resident of Oregon who has ever lived in Iowa, Nebraska, Minnesota or Dakota, will fully appreciate the woes of this correspondent and will know that the picture is not at all overdrawn.—Salem Statesman.

O, that is nothing to Lebanon. Two strawberries were brought in this office this week, one of which measured 6 1/2 and the other 6 1/4 inches in circumference. How's that? Brother Register, we won't bring them in to you—not much.
