A slight edition of what might have been a sad calamity occurred at the barber shop of J. Willson on Friday night. A customer of the shop after taking a bath in a rear room fitted up for the purpose, turned out from the bath tub the water, but neglected to extinguish the lights of the heating apparatus, which became intensely hot, exploding the oil tank, the contents of which were scattered over the rooms and in a moment furiously blazing. Fortunately the fire was extinguished before great headway was attained or much damage done.
