Baron Stockmar relates that the palthe royal apartments, drawing-rooms, etc. In the next two reigns it was held that the whole of the ground floor, including halls and dining-rooms, was in his charge. At the beginning of the present reign the Lord Steward surrendered to the Lord Chamberlain the grand hall and other rooms on the ground floor, but it was the royal apartments, drawing-rooms. rooms on the ground floor, but it was a question quite in the clouds to whom the jurisdiction of the kitchens, sculleries and pautries belonged. The outside of the palace pertained to the Department of the Woods and Forests. One result of this arrangement was that, while the Lord Chamberlair could clean the inside of the windows he could not clean the outside, and negotiations had to be carried on to secure that the operations within and without should be conducted at the same time. The housekeepers, pages and housemaids were under authority of the Lord Chamberlain; the footmen, livery porters and underbutlers under that of the Master of the Horse, while the clerk of the kitchen, the cooks and porters were under the jurisdiction of the Lord Steward. It was the duty of the Lord Steward to lay the fires and of the Lord Chamberlain to light them. The Lord Chamberlain had to provide the lamps and the Lord Steward to keep them in order. If a pane of glass in the scullery wanted mending a requisition had to be prepared and signed by the chief cook; it was then countersigned by the clerk of the kitchen, then taken to be signed by the master of the household, thence taken to the Lord Chamberlain, by whom it was authorized, and finally laid before the Clerk of the Works in the Department of the Woods and Forests. The authority of the master of the household was entirely unrecognized. The servants went off duty whenever they liked. while the dormitories, where ten or a dozen footmen siept in the same room, were the scene of smoking, drinking and other irregularities.-Contem-

Master of the Steamship Kanawha.

About a year ago he observed a strange change in his feelings. He felt tired for stead of vigorous; nervous instead of strong. His appetite became poor and his sieep broken. He tried to overcome these feelings, but they would not go. He then noticed pains and irritation in the water channels, and that the fluids passed were often thick and with a scum on top or a brick-dust sediment at the bottom. All these were the sure symptoms of that fearful disease, Catarrh of the Bladder, which has always been considered incurable, and they continued until the Captain was in a terrible condition. But he is the picture of health and vigor to-day, and he owes it entirely to that wonderful medicine, Hunt's Remedy. Capt. Greenwood says: "I am so certain of the great value of Hunt's Remedy. Capt. Greenwood says: "I am so certain of the great value of Hunt's Remedy, that I alway carry a supuly on shipboard for the uses of my men, and I prescribe it whenever they are alling. After curing me as it did, and restoring my wife, (whom the best physicians of New York said was dying of tumor,) to perfect health, I swear by it."

The Chamber of Torture

Is the apartment to which the unhappy sufferer from inflammatory rheumatism is confined. If, are the crisis of pain is reached, that fine preventative, Hostetter's Stomach Bitters, is used by persons of a rheumatic tendency, much unnecessary suffering is avoided. Nervines, anodynes and sedatives, while having none but a a specific effect, are yet very desirable at times. Yet they can produce no lasting effect upon rheumatism, because they have no power to eliminate from the blood to rheumatic virus. Hotetter's Stomach Bitters does this, and checks at the outset a disease which, if allowed to gain eadway, it is next to impossible to dislodge or to do more than relieve. Rheumatism, it should be remembered, is a disease with a fatal tendency from its promeness to attack the heart. A resort to the Bitters should, therefore, be prompt. Dyspepsia, kidney complaint, malaria and nervousness are relieved by it.
