

SEATTLE

THE WORLD'S NEXT GREAT CENTER!

TEN MILLIONS Of dollars in solid brick and stone buildings going up. Already a city of 50,000 population.

WHY ALL THIS?

BECAUSE the Winds of Commerce "Let in a shoulder of our sails." Every ship crossing the Pacific "sights" our bound for San Francisco. What New York is on the Atlantic, Seattle is on the Pacific. Nature has made it so, not man.

BECAUSE There is more iron deposits in King County than in the State of Pennsylvania, more than 60,000 acres of coal beds, 350,000 acres of finest agricultural land in the world tributary. Center of great fishing, canning, lumbering, logging and mining industries, and with a harbor equal to any in the world her ships find their way into every sea and her commerce to every shore.

BECAUSE Five transcontinental railroads will soon have their Pacific terminus in Seattle.

BECAUSE the favorable opinions of MEN that DEVELOP things and the philosophy of the history of the past make it so. Read what Senator Haur said in a speech before the "Massachusetts Club" on Puget Sound recently: "It is difficult to imagine what is to be the destiny of that wonderful region, unsurpassed on this earth for the fertility of its soil and the great variety of its natural resources, with a salubrious climate, where it seems impossible that human life should come to an end if the ordinary laws of health are observed, a stimulating atmosphere, when brain and body are at their best; the wonderful ornament of snow-clad mountains, lofty cataraets, and forests that attained their huge size when the cedars of Lebanon were as a seed—all these things are a part of America, are ours, are mine, are yours. Then our brethren and children and kinsmen have carried the principles of New England, which are prevailing, and which dominate from Southern California to the British line, and then, on the shores of the placid inland sea, they are to repeat on a larger scale, with grander results, the wonderful drama which we and our fathers have enacted here. These are to be the streets of a wealthier New York, the homes of a more cultured Boston, the halls of a more learned Harvard, and the workshops of a busier Worcester. All this your eyes and mine may not see in its full fruition and perfection, but the eyes of our children who are already born will see it." Stronger words from a wiser source never were uttered.

This is YOUR opportunity. A few hundreds or thousands invested in Seattle now will make your independent living—solve the Bread and Raiment question forever.

Lindley Addition

Is on the very top of Mercer Island, East Seattle, in full view of eternal snows, the whole city, the sound and mountain ranges on every side—absolutely the most beautiful spot on this earth for a home, the place where culture and refinement will center—

—Is On Sale—

This property has never been on the market, and were it not for pressing necessity to build a church it would be on it today, and whenever the amount required is secured it will be withdrawn from the market.

Ravenna Park

Around this "marvel of nature" man never wearies. Mineral springs, winding walks, rippling fountains, dash of waterfalls, ruggedness of cliffs, smooth calmness of lakelets, fish all sizes and hues, darting from bank to bank in the clear water—these and countless other things make this park the pride of Seattle and the resting place for man. Here the INVESTOR will make the quickest money on investments. \$20,000 of improvements are going in immediately and this park is in a belt of country that has outstripped in development anything in the history of Seattle, and has a most wonderful future.

Acre property from \$20 to \$1,500 per acre on sale, mining interests, etc., etc. Seize the present opportunity, come at once to see

W. W. Beck,

Who will show you

SEATTLE

and where to make best

INVESTMENTS,
