This is a great offer. Just imagine the army of ladies that will besinge the store until the last sacque is gone—if the bargain is ever offered. But how much more wonderful an opportunity is that presented to every suffering woman by the proprietors of Dr. Pierce's Favorite Prescription. This remedy is a generalized cure in all those discressing silments position to the weaker sex. It is guaranteed that if it does not effect a cure money will be refunded. It is carefully complianded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its effects in any condition of the system, and is sold under a positive guarantee of satisfaction in every case, or money paid for it refunded.

Poor Humanity !

The common lot is one of sorrow—say at least the pessinists,—they who look at the worst side. Certainly what would otherwise be a bright existence is often shadowed by some allment that overhance it like a pall, obscuring perpensilly the radiance that else would light the path. Such an aiment, and a very common one, is nervousiess, or in other worst, weakness of the nervous system, a condition only irremediable where inefficient or improper means are taken to relieve it. The concurrent experience of nervous people who have persistently used Hostatter's Stomach Bitters it, that it complers entirely supersensit vecess of the nervoes, as well as diseases so called—which are invited and systemed by their chronic evacturess. As the nerves gain standing from the great tonic this trouble disappears. Use the Bitters for malaria, rheumatism, biliousness and kidney troubles.

Charleston, S. C., is at length to go into the ship building industry. A company has been incorporated for business and the money is raised. Small coastwise vessels will be first built: then, if the enterprise is successful, larger ones. It is to be hoped the new industry will be entirely successful, as it will give employment to a number more people in this crowded world. In our generation the benefactor of the race is he who gives it a new industry. At Charleston the southern live oak and pine, the cheapest and best materials for shipbuilding in the Union, can be manufactured into the woodwork of vessels almost on their na tive ground. Ships ought to be built more cheaply at Charleston than they are farther north. Labor in the south is much cheaper.

Professor Garrick Mallery, of Washington, has been looking into the grounds for the belief that the American Indians are the descendants of the lost tribes of Israel. He finds there are no reasonable grounds for such belief, although there is a certain similarity of customs between the Indians and the most ancient Israelites. But the principal reason why, in the judgment of Professor Mallery, the Indians cannot be descended from the lost tribes is that these tribes were never lost at all, but were scattered and absorbed in other proples.

AN OPEN LETTER

From Professor J. P. Looney, Principal Fulton Public School, in Favor of Drs. Darrin.

Drs. Darrin Have a Branch Office in Tacoma.

Editor Oregonian-Dear Sir: I am not in the nabit of puffing adv-rising doctors, but I cannot let this opportunity pass with-out mention, in justice to the afflicted as well as Dr. Darrin. The doctor has cured me of a troublesome catarrh and bron-chitis of seven years' standing, by elec-tricity and medicine. The cure is perfect and permanent. I cheerfully recommend his treatment.

J. P. LOONEY. Fulton, Or., January 22, 1890.

There is something about the success Drs. Darrin are meeting with which is truly hard to credit, yet we have it from persons whose veracity we cannot doubt, that their cures are remarkable. The above case is peculiarly striking. Professor Looney is a man of undoubted integrity and well known throughout the state a dination. The above card to Drs. Darrin is positive proof of the unexampled success which attends their treatment. It shows how radical as well as unexpected, are many of their cures, and how chronic shows how radical as well as unexpected, are many of their cures, and how chronic diseases of many years' duration are unable to resist their skill, and is but one of the many cases which the doctors have undertaken, and is only one of the scores of pat ents to whom they have restored heaith. The author of the above staement, we have full assurance in saying, was actuated in publishing the same by no other motive than gratitude for his cure and a desire to make known the means to others as unfortunate as himself. When others as unfortunate as himself. When we reflect what a great boon is health when we consider that without it the slightest approach to happiness is impos-sible—that it is, in short, the greatest earthly blessing—can we be otherwise than immeasurably surprised to find anyone who has lost this great tressure, and yet who has lost this great tressure, and yet hesitates to follow a plainly defined path leading to its recovery? To see a sick man or woman neglect or refuse to visit Drs. Darrin, who may do him or her some good, and cannot do harm, is equally as inexplicable a mystery. Try them, at all events, common sense would suggest. A consultation will cost you nothing. The doctors could fill this page with respondoctors could fill this page with respon-sible certificates, but their fame is so widespread it is unnecessary. - Uregonian.

A NEW HOME TREATMENT. Sufferers are not generally awars that these diseases are contagons, or that they are due to the presence of living parasites in the living membrane of the nose and sustachian tilber. Microscopic research, however, has proved this to be a fact, and the result is that a simple remedy has been formulated wherever these dispressing diseases are rapidly and permanently cored in from one to three simple applications made at home by the patient once in two weeks. Master of the Steamship Kanawha.

About a year ago he observed a strange change in his feedings. He felt tred instead of vigorous; nervous instead of strong. His appetite became poor and his sleep broken. He tried to overcome these feedings, but they would not go. He then noticed pains and irritation in the water channels, and that the fluids passed were often thick and with a seum on top or a brick-dust sediment at the bottom. All these were the sure symptoms of that fear-ful dissase, Catarrh of the Biadder, which has always been considered incurable, and they continued until the Captain was fin a terrible condition. But he is the picture of kealth and vigor to-day, and he owes it entirely to that wonderful medicine, Hunt's Remedy. Capt. Greenwood says; "I am so certain of the great value of Hunt's Remedy, Capt. The Oldest Medicine in the World is probably BR. ISAAC THOMPSON'S CELEBRATED EYE-WATER.
This article is a carefully prepared physician's proceeding and has been in constant use for nearly a century. There are few diseases to which mankind are subject more distressing than sore eyes, and none, perhaps, for which more remedies have been tried without success.
