ASTONISHING CURES

By Electricity-The Prevale ce of Gatarrh and Deafness and Its Effects on the System-The Poor Treated Free of Charge.

In Portland and the whole Northwest the caterrhal and bronchial affections are alarming y prevalent, and too frequently they are neg ected until the most serious consequences ensus. Nothing seems more commo than a cold or sore throat, and yet they each frequently lead to years of suffering, re-ulting in consumption and death, if not properly attended to in time. Deafness is another di-t essing affliction often induced by catarrh. That Drs. Dar-rin have effected extraordinary cures after all efforts elsewhere have failed is a fact supported by the strongest evidence. Their cures, more ver, are rapid and ermanent, as the following very remarkable cases wil show. The Rev. M. M. Bashor is a man we'l known in Oregon, and his word can be relied on:

Poor Humanity!

The common lot is one of sorrow—say at least the peasitaists, they who look at the worst side. Certainly what would otherwise be a bright existence is often shadowed by some aliment that overhange it like a rail, obscuring perpetually the radiance that clae would light the path. Such an aliment, and a very common one, is nervousness, or in other words, weakness of the nervous system, a condition only irremediable where inefficient or improper means are taken to raileys it. The concurrent experience of nervous people who have perdistently used Hostetter's Stomach Bitters in that it conquers eatilely supersensitiveness of the nerve-, as well as diseases—so called—which are invited and surtained by the chronic weakness. As the nerves gain stamina from the great tonic the trouble disappears. Use the Hitters for notaria, rheumatism, biliousness and kidney troubles.

HOPE FOR THE SICK.

One Remedy for One Disease (From Medical Journal).

"The four greatest medical centres of the world are London, Paris, Berlin and Vienna. These cities have immonse hospitals teeming with suffering hur manity. Crowds of students throng the wards studying under the Professors in charge. The most renowned physicians of the world teach as d practice here, and the institutions are storehouses of medical knowledge and experience. With a view of making this experience available to the public the Hospital Remedy Co. at great expense secured the prescrip tions of the hospitals, prepared the specifics, and although it would cost from \$25 to \$100 to secure the attention of their distinguished originators, yet in this way these valuable medicines are sold at the price of the quack patent medicines that flood the market and absurdly claim to cure every ill from a single bottle. The want always felt for a reliable class of domestic remedice is now filled with perfect satisfaction. The hospital Remedies make no unreasonable claims. The specific for Catarrh cures that and nothing cise; so with the specific for Bronchitis, Consumption and Lung Trombies; Rheumatism is cured by No. 3, while troubes of Digestion, Stomach, Liver and Kidneys have their own cure. To these is added a specific for Fever and Ague, one for female weakness—a general tonic and blood-maker that makes blood and gives form and fullness, and an incomparable remedy for Nervous Debility." These remedies are all sold on an absolute guarantee to do what is claimed for them.
