

EYES AND EARS.

Next Sunday is Easter. Huff Hunt is again able to eat. Mr. Tutill left Tuesday for Grant's Post.

First class work at McClure's barber shop. School closes at the Academy this week.

Prof. F. M. Mitchell called on us Tuesday. Dr. W. H. Rowland called at this office Thursday.

We noticed Royal Grover, of Brownsville, on our streets last Friday. Rev. Marselles held services in the Presbyterian church last Sunday.

Jake Bilyeu shipped his household goods to Brownsville Wednesday. Now is the time to plant trees, so seed and otherwise beautify your home.

Platview needs a blacksmith. One locating there would doubtless do well. Dan Shaw is now employed in the livery stable of Kirkendall, Westfall & Co.

G. W. Wheeler's mill will begin saving as soon as repairs are made on the dam. Wm. Retherford went to Brownsville last Saturday on business and returned Monday.

Mrs. Dr. Gilbert, of Sweet Home, spent two or three days in Lebanon this week. Our merchants are receiving their spring goods and are expecting a business revival.

Mrs. Jessie McCalley returned Tuesday from a visit to relatives at Roseburg and Harrisburg. Tell your people there will be a ten-thousand-dollar school house built in Lebanon this summer.

The ladies of the Presbyterian church will give one of their delicious dinners on election day, June 5. G. W. Taylor rented H. Y. Kirkpatrick's house this week and will occupy the same in a few days.

The weather is brightening up somewhat, but altogether too late to save the reputation of the groundhog. C. C. Hackleman spent several days in Albany this week. He reports a silence in political circles that is almost painful.

The town jail was moved this week from the lot back of the school building to Main street near the firemen's building. Anyone desiring lodging can be accommodated by calling on Mrs. H. E. Parriak, one door north of The Express office.

Mr. Otto Serling has sold his farm in the forks of the Santiam, consisting of 280 acres, to Mr. Noel Clark, of Boston, Mass., for \$3500. We heard a lady ask her husband at 7:15 in the morning if he had just come from band practice. The boys are really in earnest.

Forty-seven cases of foot-wear were received at the Mammoth store this week. Montague looks after the "sole" as well as the body. M. A. Miller is clearing his two blocks in Ralston's addition with a view to selling lots in this desirable portion of the town.

Unless we are to judge by men's actions, up to this time there are no aspirants for office. So far no one has declared his intentions. The C. P. church has engaged Rev. N. L. New as pastor. Services will be held on the second and fourth Sundays of each month, as formerly.

Lebanon has a fine, well-disciplined fire company. The membership is large and will be increased by the addition of several members soon. It "Nemo's" correspondence increases in the future as it has in the past we shall have to issue a supplement. "Nemo" is a good newspaperer.

We cannot account for the late variety in the weather unless it be that every immigrant brings with him a sample of his country's climate. Looks plausible. J. H. Archibald and family moved from Junction City to this place Wednesday, and have rented Mr. Houck's house. Mr. Archibald is favorably known in these parts, and we welcome him to our town.

Recorder Peterson is assessing the town for road and street tax. Please don't contract your purses, but help to make model thoroughfares of our streets and roads. Swan Bros. want it understood that they are not running in opposition to Jewel or Hardy, but they ask the public to call and see their time-piece—it's a marvelous "ticker."

Twenty thousand bushels of wheat were sold from the Lebanon warehouse last month. The price paid was 60 cents. It was sold to the Salem mills and Cesar Bros. of Portland. Mr. James Matchett and family, who have been living in town this winter to take advantage of our school facilities, moved back to their farm at Santiam postoffice this week.

If the Odd Fellows have not already engaged a band for their anniversary celebration on the 25th, they can do no better than to secure the services of the Lebanon Cornet Band. Mr. Garland, formerly editor of an Eastern paper, called at The Express office this week. He gives it as his opinion that Lebanon will have a population of 3,000 in a few years.

Jake Bilyeu seems loath to leave our town. We don't want to advise in a matter that is purely personal, but we do wish Mr. Bilyeu would reconsider. We can't afford to lose him. The clause in the fish law prohibiting the catching of trout passed out of effect March 31, and now those who fish for trout can catch them (if they will bite) with a clear conscience.

Mr. Chesler visited Sweet Home last week and reports a considerable loss of stock between Lebanon and that place. Cause, hard winter, insufficiency of feed and lack of shelter.

It is rumored that Wm. Retherford has bought property in Brownsville. It is thus that Brownsville and Lebanon are playing a game of "give and take," with the odds, so far, in Brownsville's favor.

School meeting Friday, April 11. Let all who are interested in the education of our children, who are favorable to good school facilities and our prosperity in general, be present on that occasion.

Mr. Newton Russell, of Sweet Home, is in a very critical condition. He is suffering from a second attack of influenza. Father Russell, as he is familiarly called, is one of the oldest settlers in that part of the country.

The people were startled this week by a dull, heavy thud, as of the dropping of a meteoric stone; but it was afterwards learned that C. C. Hackleman had pulled the "pin" and allowed prices to "drap" in boots and shoes.

Marshal Miller has been for several days inspecting disordered pipes and flues with a view to protecting our town against fire. He has completed his task, and ample precautions will be taken to prevent any "fiery" disasters.

Many of our people are beautifying their yards in a most tasteful manner. Flower beds in beautiful designs and ornamental shrubs and trees add many attractions to the home with a comparatively small outlay of time and money.

Let the corner lamps be burning. On our streets till late at night. Some new street lamps are returning. May be lacking as of right. Trim your lamps, most noble air. Turn on the blaze to the highest pitch. Meet all our people at times prefer. A six-foot walk to a muddy ditch.

Mr. Nichols, Plainview's live merchant and postmaster, called at this office Saturday. He reports business looking up at that place. A town site will soon be laid off and lots put on the market and sold at reasonable rates.

Phillip Wm. Nichols, who has been foreman of The Express for about a year, left Tuesday for his home at Eugene. Mr. Nichols is thinking of engaging in some business that will afford more sunshine and less confinement. Success to a worthy man.

Lebanon Bath and Shaving Parlor. I. R. Borum, proprietor. Smooth shaves and latest styles hair cuts. Shampooing; and Spanish Luster cures the scalp of dandruff every time. Hot or cold baths. Gentlemen and ladies may indulge in the luxury.

Mr. Wheeler, who lives near Peterson's butte, called for trespass notices this week. He says that hunters cut his wire fences, roll rocks from the butte, and fire their guns regardless of his herds and flocks, and he has to adopt this means of protecting his stock.

Mr. Wirt and wife, of Sweet Home, were in town recently. They visited Kansas a few months since, but the entomological report of that State was altogether too voluminous for one accustomed to living in a country where destructive insects have not taken possession of everything.

The M. E. church, South, closed their meetings at this place Tuesday night. This denomination will organize a church here. They have also secured property and will soon erect a church and parsonage. Rev. Price has taken charge of this circuit and will hold services in Lebanon once each month.

We were shown some large, healthy cabbage plants this week from W. J. Guy's garden. The cabbage stalks which were left in the ground last fall matured and dropped their seeds, and from these seeds has grown a crop of fine plants. We are inclined to think that Mr. Guy takes the lead in amateur gardening.

There having been some inquiry as to who is the fighting editor of this paper, we hasten to announce that we have engaged Mr. T. A. Swan to act in that capacity. All who wish to "settle" with us in this line will please call upon Mr. Swan at the furniture store and he will do his best to render satisfaction.

Stop at some of our stores as you pass down the street and see where that common household article, the wash-board, is manufactured, figure on the first cost of the article, and tell us, some of you lumber men, if there is not a good profit on their manufacture here at home.

An exchange which professes to know Col Van Cleve's business says he has offered \$20,000 for the narrow gauge road. It is supposed that he wants it for private use in taking a hunt once in awhile for the wild goose and Mongolian pheasant. Yet some people say it don't pay to run a country paper in Oregon.

One of our subscribers called this week and ordered his paper sent to the new town of Laocomb. This town is situated on Fern Ridge, and owes its birth to the erection of a large saw-mill a few weeks ago. Other industries will doubtless spring up and the primeval forest will soon be converted into a thriving village.

Notwithstanding we have several saw mills near this place, we are compelled to purchase lumber from the mills up the valley. The reason our own mills do not supply the market is because the roads are too heavy for hauling. A good deal of building is delayed on account of the scarcity of lumber.

A company consisting of Dr. Barker, Ben Barker, Mr. Gunard and Mr. Clark started this week for the mountains in search of gold and silver. It is expected that the above-named gentlemen, being men of experience, will make some valuable discoveries. The many rich mines already discovered in the Cascades are but a tithe of what remains to be unearthed.

The One-Price Cash Store has become one of the features of Lebanon. As everything is new and fresh, and the prices are so much below that charged in credit-giving establishments, people who desire to buy their goods for cash naturally go to the corner, where they do not have to make up to the store-keeper for the non-paying customers who, when they can do so, buy on credit, and who are constitutionally opposed to paying for anything. Get prices at the One-Price Cash Store and if there is any reason in you that is the place where you will purchase your supplies.

SODAVILLE.

New Enterprises Contemplated—The Springs Enlarged and Improved. SOUVILLE, Or., March 31. THE LEBANON EXPRESS says that Messrs. Walton & Wiley, proprietors of the new planer, are dressing lumber for the \$5000 hotel, which will soon be built at Sodaville. This is only the beginning of a very bright future that awaits Sodaville. That the railroad will be extended to Sodaville soon is scarcely admissible of a doubt, and Mr. Hardman realizing this, no doubt, as many others do, has taken time by the forelock and is now erecting and proposes to have completed by the 1st of June one of the best equipped hotels in the valley. The site for the new hotel is on the northwest corner of the block occupied by the Fountain House. The main building will be 90x35 feet, with such additional buildings as a house of such proportions requires.

The inadequacy of one hotel and many private boarding houses to accommodate the throngs of visitors to the springs last summer demanded the enterprises now under way, and as Mr. Hardman is a man of sufficient means and energy the public may feel assured of meeting with every accommodation that the most fastidious could desire.

Some lively work has occurred here in real estate transactions recently, and from indications Sodaville will be heard of through real estate agents before the snow flies again. Messrs. Terhune and Paers, both moneyed men, have bought out the livery business here and are preparing to enlarge the stable and add a new set of buggies. A new butcher shop, a blacksmith shop and a drug store are the next in order as soon as suitable buildings can be obtained. Sodaville has undergone the perils of mossbackism, as has every other valley town, but we are glad to observe the cross coat shedding off and the spinal column bracing up for the production of a more valuable growth.

The public springs have recently been enlarged and remodeled, and now it is estimated that they contain water enough to quench the thirst of all the people of a city. A strange circumstance has been developed recently that few are aware of, namely: A Portland firm have arranged with a Sodaville man to have the water from the spring shipped to the former city for bottling, and during the winter this water has been sent down in barrels, bottled in Portland, a label of a Portland firm attached, and the water returned to Albany and sold to invalids at a good price, marked, "Soda water from Sodaville, Oregon." Here is a chance for some Linn county capitalist to double his fortune. This water is regularly being shipped to Spokane to private individuals, to Tacoma and other Sound towns, besides the barrels that are bottled and sent every week to the different towns of the state.

Why don't some one think of this, have the railroad extended here, open up some of the other springs yet undeveloped and start a bottling house.—Correspondence to the Democrat.

One on the Girls. The girls of Albany are onto a new racket. If, when desiring that most enjoyable pleasure of having the opposite sides of their ribs pulled together by the gentle embrace of a loving arm, she exhausts her store of hints and he fails to catch on, she asks him to take the word "enough" and from it to form two words, of one syllable each, which imply anything in the world but enough. Of course he takes the word and after a short time of hard rustling never fails to solve the intricate problem. Then the fun commences, and the other residents of the block imagine they are in Pompeii during the fall of that city.

Better Than They Knew. The men who located Lebanon "budded better than they knew." We are surrounded by an agricultural country, have near at hand an inexhaustible supply of timber, a rich mineral belt within a few days' travel, and an abundance of water to run factories, mills, etc., with little to do but to put the water wheel in place and take advantage of forces already created. These are the factors that build cities, and the man who does not recognize this fact will have to be inoculated with the spirit of our times.

The Narrow Gauge Ahead. An exchange says the longest train ever hauled by one locomotive came into Grafen, W. Va., last week. There were ninety-eight freight cars and a caboose and the train was a few feet over a mile in length. Let's see; the distance from Brownsville to the Lebanon Junction is 12 1/2 miles. Last week a locomotive arrived at the latter place when the passenger coach at Brownsville had not yet turned a wheel. Give the N. G. credit for 11 miles 1250 feet.

Timber Land. There were several men here this week whose object is to locate timber claims. The best timber lands in the Cascade range are as yet unurveyed, but this need not deter people from taking the same. By persons associating themselves together in sufficient numbers, as required by law, and calling for a survey, these lands can be appropriated and titles acquired in a legitimate way.

Odd Fellows Anniversary. Calapoda Lodge No. 42 L. O. O. F. of Brownsville has invited all neighbor lodges to join them in the anniversary celebration on the 25th. We feel safe in bespeaking the attendance of Lebanon lodge. A nice grove, good speaking, rare music, ample accommodations and other interesting features guarantee a good time to all who may attend.

Easter Services. There will be Easter services at the M. E. church. Sermon for 11 A. M., "The Resurrection of the Dead." At the evening service there will be printed programmes for the full congregation. Good music, select readings and speaking by members of the Sunday school and congregation. A cordial welcome to all. You will be highly entertained if you attend. Come.

When you visit Albany don't fail to visit the Photographic Parlors of Crawford & Paxton, next door to Masonic building, and look over their fine line of goods, and if you wish any, if they cannot please you, try elsewhere.

BROWNSVILLE NOTES.

Wild flowers are very plentiful. Mrs. Gid Foust is slowly improving. The hills are putting on a coat of green. C. E. Rockwell left for Portland Monday.

Rev. C. Sperry again walks without limping. The Cornet Band are to have new uniforms. Miss Lilly Bruce has gone to Salem to attend school.

Robert and Bert Templeton went to Portland Monday. Mr. Goodrich is slowly recovering from the la grippe.

Horn, to the wife of Robert Blanchard, March 28, a son. A landlady was removed from the factory race last Saturday.

Who is the Brownsville correspondent for the Fire and Hammer? The supper at Dr. Reese's office Friday evening was greatly enjoyed.

Bert Wilson is visiting his brother-in-law, W. S. Powell, in the country. J. M. Waters returned from Seattle Saturday. Reports everything booming.

Miss Ethel Lewis, of Corvallis, is in town visiting her sister, Mrs. Jas. Willson. T. S. Pillsbury's new store is nearly completed. It presents a neat appearance.

The saloon is about to change hands, parties from Lebanon being the purchasers. Born, to the wife of Eprian Betts, at Olympia, on or about March 6th, a daughter.

Miss Ellen Blanchard, of Oregon City, is visiting with Mr. and Mrs. Robert Blanchard. H. B. Moyer with a crew of loggers went up the river Saturday to haul the stray logs back into the stream.

The dance given Saturday night was a very pleasant affair. All who attended report having a good time. Everybody is talking of building this summer, but not one word about protection against fire do we hear. Is this wise?

John Hayworth, residing near Harrisburg, was in town Saturday purchasing goods. He has found it to his advantage to patronize the merchants of Brownsville.

We met one of our young merchants, who was recently married, on the street Sunday with a young baby in his arms. To our look of surprise he replied, "Just getting my hand in."

Mrs. H. B. Moyer, Miss Kate Archibald and Miss Stella Swanek took a trip up the river Friday on the scow to see the log rolling. The boys say come again; that dinner you brought was immense.

We are glad to see Phil Starr on our streets again and restored to health. He came to town Wednesday on business and was taken suddenly ill and has been under the care of his son, Dr. I. W. Starr.

Dr. I. W. Starr bought one dozen Winchester eggs of E. D. Von Hagart. We will watch the hatching process with interest, as some doubts are entertained of the doctor's ability to run a chicken ranch.

Our express delivery wagon has proved to be a good investment. Mr. Moore has all that he can attend to delivering goods for the stores. This speaks volumes for the business enterprise of our merchants.

Brownsville is the best location in Oregon for a furniture factory. We make this assertion without fear of successful contradiction. Why don't our board of trade do something to induce practical men to start one.

Mr. M. Jaeger, Supt of the Eagle Woolen mills, shipped to Eastern Oregon last week a yearling Holstein bull which lowered the beam at 700 pounds. The animal is a beauty, and evoked much comment at Woodburn, where it was weighed.

The band boys have decided to give their dramatic entertainment on or about the 25th of April. The players were thoroughly rehearsed for the stage, but it had to be postponed on account of the sickness of Miss Anna Moore, who is cast for one of the leading parts.

Miss Flora Foster was agreeably surprised last Saturday night by her young friends, who called on her in a body. Those who were present state that it was the most pleasant surprise party they ever attended. Mr. and Mrs. Dolan spread a bountiful repast, and all had a right royal time.

What is the matter with the mail service between Brownsville and Lebanon? It takes three days for a letter to travel from one of the above towns to the other. Under normal, this will never do; you had better roll up those striped pants of yours and get a move on you. That yarn about the China peasant bucking the trains off the track and delaying the mails is too old for service and ought to be retired on a pension. The people are rolling up their sleeves in an ominous manner, which means kicking and hair pulling in the near future. Now, Samuel, no more fooling; you can put the mails through between those points in one day with an ox team. If you do not do better in the future than you have in the past we will conclude that you are a lazy, good-for-nothing scrub. A word to the wise, etc. Nemo.

Good Specimen of Coal. Mr. J. J. Swan of this place brought to our office last week a very good specimen of coal which he found on Mr. Bishop's farm near the head of Hamilton creek. The fact that coal beds are being discovered in many parts of Linn county seems to justify the belief of old settlers that there is a stratum of coal underlying this section of country; and just as certain as we become the leading manufacturing State of the Union will this fuel deposit be forthcoming.

At the Republican primary meeting yesterday afternoon the following were elected as delegates to the county convention: W. H. Klum, F. M. Miller, D. F. Hardman, T. A. Swan, A. A. Kees, A. M. Arant and Joseph Wassom. M. Hickman was nominated for sheriff, if the peace and R. H. Roberts for coroner.

ENTERTAINMENT.

Following is the program for the entertainment to be given at Santiam Academy Friday evening, April 4: Quartet—Song of Welcome. Solo—The Olden Days. Lids and Ruby, Miss Lida Eaton and Lida Keyes. Closing the Eagle Organ solo—Maud Eaton and Ruby Blaud.

Recitation—Llewellyn's Ride. Dialogue—Gedull! Gedull! Gedull! Piano duet—Nellie Annand and Lida Keyes. Follies—Lesson of John Smith by Pookhonias. Organ solo—Miss Estlin Williams. Dialogue—A Family Faith by Estlin Williams. Recitation—Miss Olive Blaud. Dialogue—The Palmyra Darkies Song—Lida Eaton. The Boy and the Curlew—Lida Eaton.

Organ solo—Ivy Smith. Message Before War—The Silver Sea. Piano solo—Lida Keyes. Dialogue—That Haval Pat Chorus—The Silver Sea. Vocal duet—The Young Man's Temptation. Organ solo—Maud Eaton and Lida Keyes. Dialogue—Don't Marry a Drunkard to Reform Him. Organ solo—Mrs. Houran. Short address to students—Mrs. Houran. Valedictory—Miss Lizzie Reed.

Doors open at 7 P. M.; entertainment begins at 7:30. Admission only 10 cts. Montague must be preparing for a boom, judging by the way he is stocking up his Mammoth and One-Price Cash Stores. By purchasing his goods in such large quantities he naturally gets much lower prices. He guarantees good goods in all the departments of his extensive establishments at prices that absolutely astonish other merchants in the valley, some of them going so far as to say that Montague retails his goods as low as they buy them at wholesale. The careful buyer invariably goes to Montague's.

Wm. Churchill, a well-known farmer, had a serious runaway accident in Albany last Friday. Mr. Churchill attempted to stop the horses by holding on to the bits, but they dragged him quite a distance, when he was thrown beneath the horses' feet and the heavy wagon passed over his body. His shoulder was broken, and internal injuries were inflicted which may prove fatal.

For rheumatism there is nothing better than Chamberlain's Pain Balm. The prompt relief which it affords is alone worth many times its cost, which is but fifty cents per bottle. Many bad cases have been permanently cured by it. For sale by M. A. Miller.

Barbain. A choice farm of 137 acres, within a mile of town, for sale. Inquire of T. C. FIEDLER & CO.

THESE BUSTLING DAYS OF BOOM

Tell me not in mournful numbers That the town is full of gloom, For the man's crank who slumbers In these bustling days of boom. Life is real, life is earnest, And the grave is not his goal; Every dollar that thou earnest Helps to make the old town roll.

But enjoyment and not sorrow Is our destined end or way; If you have no money, borrow, Buy a corner lot each day. Lives of great men all remind us We can make our lives as tame; Let us leave the clumps behind us And we'll get there just the same. In this world's broad field of battle, In the bosom of life, Let us make the dry days rattle— Buy a corner for your wife.

Let us then be up and doing, With a heart for every fate, Still achieving, still pursuing, Rooming early, rooming late. S. F. R.

Cash paid for Produce by R. S. Roberts. Mrs. Davis moved from Main to Second street Wednesday. Examine the fine set of books of all kinds at Board and Holt's.

Messrs. Sanders & Curtis were up from Albany lately buying horses. Mr. G. T. Cotton, the old reliable grocer, is absent of the times in his line. Mr. Moses, from Alsea, will open a variety store soon in Mr. Montague's building.

At Melama Sunday morning there was six inches of snow, but it disappeared soon after noon. Mr. W. B. Donnan has not deserted his old stand for the reason that people are accustomed to trading at the "brick corner."

When you desire a pleasant physique, try St. Patrick's Pills. They can always be depended upon, and do not nauseate the stomach nor grip the bowels. For sale by M. A. Miller. Our Cornet Band have employed W. W. Crawford to instruct them once a week. Nearly all of the members have the advantage of former training, and as a consequence can play well.

For a lame back try saturating a piece of flannel with Chamberlain's Pain Balm and binding it on to the affected parts. This treatment will cure any ordinary case in one or two days. Pain Balm also cures rheumatism, sprains, swellings and lameness. 50 cent bottles for sale by M. A. Miller.

Barbain. A choice farm of 137 acres, within a mile of town, for sale. Inquire of T. C. FIEDLER & CO.

WHO STARTED IT?

WHO STARTED THAT STORY THAT HACKLEMAN WAS

Giving Away Kid Gloves!

Hackleman has been over-run with applications for the gift, and wants it understood that he has not a pair to give away. The misunderstanding probably originated from the remark of some customer that they were literally giving giving away Gloves at Hacklemas'. Of course they simply meant that the prices asked were next to a gift, which is true enough. Hackleman sells the

CELEBRATED MATHER KID GLOVES

Every pair warranted or your money refunded. Come and take a look.

BEARD & HOLT, Druggist and Apothecary, PURE DRUGS, MEDICINES, Paints, Oils and Glass, STATIONERY, Fine Perfumery, Brushes & Combs CIGARS AND FANCY TOILET ARTICLES. Prescriptions Accurately Compounded. Main Street, Lebanon, Oregon.
