If reports are to be credited we have a valuable red ochre mine near Lebanon. We want with no little anxiety the first coat of red paint.

The scholars of the public school will give an entertainment this (Friday) evening. Ice cream and other delicacies will be served to as many as see fit to give us their patronage. The object of the festival is to raise money with which to buy an organ for the new school house.

For want of self-restraint many men are engaged all their lives in fighting with difficulties of their own making, and rendering success impossible by their own cross-grained ungentleness. Men instinctively avoid the cactus, the briar patch and the hedge row, but they never tire of inspecting the delicate stem and leaf of thornless shrubs and plants. What a wonderful difference a few prickles make.

Mr. J. S. Steiner, of the firm of Schaefer, Lemcke & Steiner, San Francisco, informs us that he has shipped 60 tons of Clifton bark from this part of the country. When the resources of our state are all found out it will be seen that nearly every really valuable product is indigenous to Oregon soil.

Indeed, we have a wonderful country. Even now it very nearly corresponds with the elation of the Greeks, the paradise of the Hebrews, and the heaven of Americans. Who wouldn't live in this country?

The picnic at Lacombe promises to be well attended. Everything that can attract, please or entertain, finds a place in their programme. Coming at a time when there is nothing to distract the attention or withdraw the patronage of a pleasure-loving public, everything turns to the success of the occasion. Turn the key to your residence, close the barn door, lay up the bars to the pasture, unbutton your coat, pull down your vest and drink in solid pleasure for twelve hours on the 28th of June.

A. Jack Adams and Dr. Baker located an iron mine four miles above Brownsville last Friday. The one in this particular locality assays as high as seventy per cent. iron, and the supply is practically inexhaustible.

Messrs. Adams and Baker took with them two Eastern men who are at present engaged in this branch of mining in the district of the Great Lakes, and the judgment of all present was unanimous in favor of a rich deposit of iron ore in this locality.

Oregon's resources are immense. Mr. S. M. W. Hindman stepped in to our office this week with an ominous looking switch, some five feet in length, and instantly there came to mind visions of our boyhood days and the warm treatment of a paternal hand. We could not do otherwise than plead civility and tamely submit to the application. The branch was "loaded" for editors, but with some fine cherries as we have seen we climbed the tree, and the judgment of all present was unanimous in favor of a rich deposit of iron ore in this locality.

The One-Price Cash Store has become one of the features of Lebanon. As everything is new and fresh, and the prices are so much below what is charged in credit-giving establishments, people who desire to buy their goods for cash naturally go to the corner, where they do not have to make up to the stockholders for the non-paying customers who, when they can do so, buy on credit, and who are constitutionally opposed to paying for anything. Get the goods at the One-Price Cash Store, and there is any reason in you that is the place where you will purchase your supplies.

Several months ago, Mr. Henry Plummer, of Clements, Cal., who is subject to cramps, was taken with a severe attack. He had been accustomed to get relief by dosing with morphine, but the disagreeable effect that followed would make him miserable for hours after the cramp had been relieved. I persuaded him to try Chamberlain's Colic, Cholera and Diarrhoea Remedy. He was much pleased with it, as it effected a cure in a very short time, and he was able to resume his usual habits.

Mr. S. E. Howd, who has been visiting his mother, Mrs. F. E. Hindman, some time, recently advised a lady from Spokane Falls Monday, calling her to the bedside of her husband, who is dangerously ill. She left Tuesday morning.

Our people, Mr. and Mrs. C. V. Davis, arrived in Brownsville last Friday, after an absence of eleven days. They are on their way to Kansas, where they will visit relatives, and will place they will return after visiting relatives and friends on this coast until fall.

The Lebanon Cornet Band will introduce the drama "Novus" or "The Lost Mine" in the Brownsville City Hall on the evening of July 1st. We bespeak for them a full house and for the patrons of the stage a pleasant entertainment.

A dispatch from the McKanless troops states that they will be in Lebanon on the Fourth of July. The Lebanon Cornet Band and the McKanless troops will not make melody on our anniversary any more, but will "hang up the banner of the law."

Walter Peterson received a telegram from his father in Southern Oregon advising him of his illness. Dr. Peterson left Lebanon last Thursday for the purpose of dentistry in the southern part of the state and we are sorry to hear of his sickness.

That young man who has so persistently urged his suit for the last twelve months, only to find that she has transferred her affections to some other young man, has come to the conclusion that woman's whims are like ten-dollar bills—liable to change.

The American eagle is hovering over our town; the siers and stripes are waving in the breeze, and, indeed, indeed, Fourth of July orators are smothering their patriotism, and the noiseless firecracker is growing restive in anticipation of the great celebration at Lebanon.

Mr. Millard, a thorough mill man, of California, has gone into the planer at Matthews & Washburn, Albany, Oregon, may expect first-class work. We keep on hand a full assortment of dressed lumber of every description. We are prepared to turn out all kinds of woodwork.

Prof. Langworthy, who is now in the Calapalapa and Blue River mines, says the prospect is better than in any mining camp he has visited on this coast, and yet a few individuals of the fossiliferous age, who know gold and silver only after it has been coined, shake their heads doubtfully.

The steady tramp of many horses on our streets this week and the appearance of about two scores of lady equestrians, reminds us that this will be one of the many attractions on the Fourth of July. We are sure that the ladies on that day to see the grandest sight that you have beheld for many years.

Preaching next Sunday in the M. E. church at 11 A. M., by Rev. L. H. C. Church, Quarterly meeting July 6 and 7, at 7 P. M. Every official member should be present. Stewards and leaders meeting Wednesday, July 2, at 7 P. M., at the residence of M. A. Folles.

We noted some improvements at Plainview as we came down Monday. With the advantages which it has in location, soil, etc., there is no good reason why it should not improve for some time to come. Certain it is, that Plainview is surrounded by some of the most successful farmers in the valley.

DEDICATORY SERVICES

At the Laying of the Corner Stone of the New Masonic Temple at Albany.

Tuesday afternoon, in response to a cordial invitation from the A. F. & A. M. of Albany, those of us who could attend the thought of "getting very well" with equal enthusiasm headed the 3500 team. As we neared Albany we noticed it was not raining, and seemed to be a very favorable day for the occasion. As one of our party remarked, "Albany for Masonic processions, but Lebanon for wine."

So ready had the obliging brutesman shouted "Obsequies" and slammed the door when we heard soul-inspiring music, and as the vista stopped, saw the Knights in gorgeous array drawn in line to greet us, headed by the Albany band. Among the Knights in their beautiful uniforms we soon recognized our old friend J. L. Cowan who made us welcome and invited us to the carriage that were in waiting, and soon we arrived at the temple.

The streets and business houses were grimy decorated and the temple was a veritable city of gold. As we entered we were given and the pleasant smile which decorated everyone's face was more beautiful than gold.

At five o'clock the procession moved to the temple, headed by the Albany band, with the Knights in their beautiful uniforms, and the rest of the city in line.
