PUBLISHERS AND PROPRIETORS.

THE NATURAL AND THE writers on etiquette plead for nat-which assertion will be questioned by week. ursiness. Good-breeding in itself no one who has seen the deadly sicktargely consists in what, when it comes to be analyzed, is essentially in a person not habituated to its use to be driven. artificial, for good-breeding demands even smoking a single cigar or chew a due consideration for the failings and weaknesses of those with whom we are daily brought in contact. We are apt to say that the noble savage is natural; but an acquaint ance with his manners and customs which is the very citadel of organic to change occupations. He is now to change occupations. He is now the properties of the contact their camping experience.

Jos. Hansard had alimity feature their camping experience.

Jos. Hansard has curtailed the view of anxious gazers by hanging two doors in the entrance to the Royal.

R. M. G. Bradley has been compelled to change occupations. He is now proves how complicated is the rit ual of his existence, and at the same time we see the natural outcome of his naturalness. With the first germs of civilization, artificiality may be said to the substances in natural or body. ficiality may be said to have commenced its sway; indeed, civilization may be said to consist in properly understood artificiality. Those that a single drop of the concentration of the publishers are capable of destroying life so suddenly as to see. It is said by medical writers that a single drop of the concentration of the publishers are capable of destroying life so suddenly as to see. It is said by medical writers that a single drop of the concentration of the publishers are capable of destroying life so suddenly as to see of the late disaster, last Sunday. Willis Calder is working on the that a single drop of the concentration of the publishers are capable of the said by medical writers that a single drop of the concentration of the publishers are capable of the said by medical writers that a single drop of the concentration of the publishers are capable of destroying life so suddenly as to see of the late disaster, last Sunday. Willis Calder is working on the Times this week to give the publishers at chance to attend the Press Association.

Jake Bilyeu and family returned from their mountain trip much improved in every respect, save that of ing their innate selfishness; it costs a little trouble to be artificial; it is much easier to speak out whatever first enters our head. Those people who cry so loud for naturalness under all circumstances—for we make no question of it being at times best—fail to see how largely were in rapidly after tremors and violent of proved in every respect, save that if looks.

The Calapoola is lower than it has been for years, notwithstanding the navy suow-fall of last winter and yes were closed, the cries were stopped and the breathing was suffocated and convulsed. In one minute the cars were in rapid convulsed motions, and presently after tremors and violent of Portland. times best—fail to see how largely the friction of every-day life is avoided by well-considered artificiality. The requirements of society in what is termed etiquette arc essentially artificial. In the item of dress, which is specially artificial how rarely man, but more particularly woman, is seen to advantage when natural. Is it not clear in the same such as these keart final to society has its good points? Discipline of every nature, military or sofficial, is largely composed of artificial elements, without which gov-

sist not in projects, or in any violent designs, for these cool, and cool very son, but in patient practicing for whole long days, by which we make the thing clear to our highest ever kind, in their incipiency antelease the decrees of society and secclesiasticism. Man cannot reach sist not in projects, or in any violent soon closes the scene if a very large quantity has been taken.

Dr. L. B. Coles, in his excellent work on the General Estate in vent his bringing back on his return trip some fine croppings from the Celestial empire. The eyes of the entire community are on the dump at the base of "Bald Peter." Choss Eve.

Tobacco-Using," (which, by the way, ought to be placed in the hands of every young man in America) says: A single leaf dipped in hot water and laid upon the pit of the stomach will prevent his bringing back on his return trip some fine croppings from the Celestal empire. The eyes of the entire community are on the dump at the base of "Bald Peter." Choss Eve.

Man cannot reach sorption from the surface. By being applied to a spot where the scarf skin or external surface of the skin is destroyed, fearful results have followed. The wilderness must form the counterpart of the thorough-size a case. Dr. Long, of New Hampster wilder your in point in point in point in point.

throng. The wilderness must form the counterpart of the thorough-fare—great breadths of contemplabire, was consulted by a mother to know whether she might apply tobacce of the somewhat remarkable that the world has lived for these thousands of years and so far has failed the world has lived for these thousands of years and so far has failed to discover the secret of true happiness. A first essential to happiness is ignorance, as the downfall of maskind in the beginning, proves. Ignorance is frequently blies, while wisdom is sometimes accounted the handmaid of folly. In primitive states of existence we see the nearest approach to happiness. It is only under conditions of high civilization that we see the spirit of unrest and unhappiness. Everybody aspires to happiness. Everybody aspires to happiness, nobody entirely succeeds. Adam and Eve week known known and existing that if it should strike to no purpose. The jaws were locked, the patient was senseless and apparently in a dying state. The doctor was mimediately called back, who falling, was caused the part, the eyes of the patient was senseless and apparently in a dying state. The doctor was mimediately called back, who falling, was caused the part, the eyes of the patient was senseless and apparently in a dying state. The doctor was mimediately called back, who falling, was caused the following symptoms. Coldness of the surface and evil. This limited knowledge, or ignorance of the future is undoubtedly a merciful proxision of providence. There are places at which we must stand still because there is no light to help us farther; of ammonia, at the end of about an of about an inching the control of a minching the control of the father is undoubtedly a merciful proxision of providence. There are places at which we must stand still because there is no light to help us farther; of a minching the minching the control of a minching the control of a minching the co providence. There are places at which we must stand still because there is no light to help us farther; our lamp goes out, so that we cannot stell what comes next, a lion, a precipice, a grave.

A West Side editor, who evdently has more money than he knows what to do with, is strongly in person not long habituated to the use was only attempting to parry the person not long habituated to the use blow.

what to do with, is strongly in person not long habituated to the use favor of editors paying their way of the weed, will increase the freat the Press Association now in account of the prominent symptoms caused by way be commendable, but where in tobacco when it is taken by persons thunder is our next meal to come not accustomed to its use, and when from?
