Died, in Lebanon, Oct. 5, Geo. Frey, aged 25 years. Deceased was a native of Rhode Island and had but recently came among us.

We are told that the stars and stripes are kept floating from the postoffice building in Sweet Home. Otto is not ashamed of his colors.

Our customers all speak highly in praise of St Patrick's Pills. They are the best.—BERRY BROS., Carroll, Nebraska. For sale by M. A. Miller.

Mr. Whited, who formerly lived near Brownsville, is living just outside of town. He was inquiring for a farm to rent and we presume he has found one.

Certain kinds of No. 1 seasoned lumber seems veay scarce. A great deal of siding and flooring is required just now, but we are told it cannot be had.

Are you in love? If so, marry the idol of your affections and then go to Matthews & Washburn's, at Albany, buy a stove or range, raise a large family and be happy.

So great has been the demand for the EXPRESS of late that the price has been advanced to 5 cents per single copy, and we are not particularly anxious to sell at that figure.

The new city ordinance requiring every man to clean the street in front of his door, may prove arduous to those not industriously inclined, but it is a good law, nevertheless.

Since work began on the basement of the paper mill a stone quarry has been opened near town and we find that there is an excellent quality of building stone near at hand.

Hiram Powel called at the EXPRESS office this week. He tells us that in sinking a well on his farm between this place and Brownsville he struck some very good coal croppings.

At a regular meeting of the Lebanon Literary Society on Monday evening, the old and vexed question of woman suffrage was discussed, which resulted in the loss of the ballot to her ladyship.

Our communications on some of the prevailing vices of the day have several times been intermitted from lack of space. We publish a very trenchant article this week which all should read.

F. P. Bodwell, who lives six miles east of Lebanon, reports the finding of several nuggets of gold in a ditch on his farm. The source of the metal, if not already found, will be discovered ere long.

Do you want the earth? If so, call on Matthews & Washburn, Albany, Or., and they will take pleasure in showing you the largest and most complete line of hardware, stoves and ranges in the valley.

L. C. Rice, of Hamilton creek, was subpoenaed lately as a witness in some case in Harney valley; going as far as Albany, he ascertained that the summons was illegal and returned to his home the next day.

Our young friends, O. P. Coshow, Jr., and J. R. Wyatt, were admitted to the bar recently. If these young men do not rise high in the legal profession, we shall be disappointed in them.

Several of our readers called for our remedy for wakefulness and nightmares lately—that is they paid their subscriptions, and now their slumbers are protracted and undisturbed.

When you are constipated, with loss of appetite, headache, take one of Dr. J. H. McLean's Little Liver and Kidney Pillets. They are pleasant to take and will cure you. 25 cents a vial. For sale by Beard & Holt.

In our last issue we said that the Oregon Presbytery of the C. P. church would convene this week. We were wrongly informed. Presbytery will convene on Thursday next preceding the fourth Sunday in October.

An Eastern man who has traveled extensively in search of a good home, concluded after stopping a few days in Lebanon to locate in this part of the State. He is expected to return from Washington with two sons-in-law about Nov. 1.

James Smith, who is just down from the Santiam mines, reports a number of men at work. He says a small interest in one of the mines in that district sold recently for $2500. The company have refused $50,000 for the entire claim.

Elsewhere in this paper it will be seen that one Mr. Zinc took unto himself a life partner. Notwithstanding Zinc is is a stubborn metal and fuses at a high temperature, we are assured that the two hearts were melted into one on last Sunday.

F. M. Miller's family were the victims of a surprise party on last Saturday evening. A number of friends gathered on this occasion to enjoy the company of the Judge's family, who left three days later. The meeting was voted a very pleasant affair.

If your kidneys are inactive, you will feel and look wretched, even in the most cheerful society, and melancholy on the jolliest occasions. Dr. J. H. McLean's Liver and Lidney Balm will set you right again. $1.00 per bottle. For sale by Beard & Holt.

We were told by a young friend only a few days since that there will be another wedding soon, but the names of the contracting parties were withheld. Send in your guesses with a two-dollar accompaniment and we will inform you through the EXPRESS of this and all other marriages, not excepting your own.

An unpleasantness occurred this week at the St. Charles between Lynn Walton and Sam Chinaman. The kicking administered by Walton was assessed at $8. Sam was arrested on a charge of assault, but the court held that a Chinese fan flirtation could not be construed into an assault with a deadly weapon and Sam was remanded back to the kitchen.

A friend of ours recently overheard a conversation between two elderly ladies just returned from the industrial exposition at Portland. Both expressed themselves well pleased with the exposition in general, but one of them was sorely displeased with the music played by the Liberati band; her harshest criticism was that "they played nothing but French and Italian."

A few days since we received a very polite (?) card from an old subscriber stating that he did not want the EXPRESS. The old sponging parasite is just about as reasonable as the man who chewed credit beef for two years and settled his account by saying that he didn't want any more beef from that shop. My friend, your strange dislike to the paper is easily interpreted. Your bill is $4.

Occasionally we hear of large yields of corn in the valley, as we also have occasional crops of very fine peaches, but to infer from this, that this portion of the valley can rival Iowa in the growth of corn would be foolish; and to say that this section of country outranks New Jersey in peach growing is madness. We have the best country in the world, but we cannot guarantee for the middle Willamette valley a certain or satisfactory crop either of corn or peaches.

Montague must be preparing for a boom, judging by the way he is stocking up his Mammoth and One-Price Cash Stores. By purchasing his goods in such large quantities he naturally gets much lower prices. He guarantees good goods in all the departments of his extensive establishments at prices that absolutely astonish other merchants in the valley, some of them going so far as to say that Montague retails his goods as low as they buy them at wholesale. The careful buyer invariably goes to Montague's.

A few years ago we were told orchards in Oregon would not bear cultivation. It struck us at the time as being somewhat singular in the face of the fact that every variety of fruit so far as we know is improved by cultivation. It is now becoming clear that the various kinds of fruit trees, not only in other States, but in Oregon, require attention and cultivation in order to succeed well in bearing. After a few years more of the careless method of orchard treatment as at present practiced we shall see but little sound fruit in Oregon.

The One-Price Cash Store has become one of the features of Lebanon. As everything is new and fresh, and the prices are so much below that charged in credit-giving establishments, people who desire to buy their goods for cash naturally go to the corner, where they do not have to make up to the storekeeper for the non-paying customers who, when they can do so, buy on credit, and who are constitutionally opposed to paying for anything. Get prices at the One-Price Cash Store and if there is any reason in you that is the place where you will purchase your supplies.

Mr. John Keown, the worthy postmaster at Keown, Allegheny County, Penn., says: "Chamberlain's Cough Remedy sells better than any other." The reason of this is because it can always be depended upon. Let any one troubled with a severe cold give it a trial and they will find that the first dose will relieve the lungs and make breathing easier, and that its continued use will free the system of all symptoms of the cold. The promptness and certainty of this remedy in the relief and cure of colds, has won for it many sincere friends and made it very popular. For sale by M. A. Miller.

PERSONALITIES.

Rev. Thos. Yost came in on Tuesday's train.

A. W. Moses and wife moved to Seattle Monday.

Jonathan Wassom returned from Seattle Monday.

Our old friend L. C. Rice was in town a few days since.

Mrs. H. E. Parrish had a slight malarial attack lately.

Literary Society.

At a meeting of the Lebanon Literary Society on Monday evening, Oct. 6, Rev. G. S. Hanleiter was elected president, M. A. Miller vice president, Mrs. A. Marcellus secretary, and W. C. Peterson treasurer. The question for discussion, although a hackneyed one, was discussed with much warmth and enthusiasm. An interesting and varied program, suited to the diversified talent of the members, will be announced one week in advance, so that all who are connected with the society may be entertained and edified. We hope that every one who hopes to be benefitted by the institution will feel that the success of the society depends in great measure upon individual effort. Let there be a general awakening among all classes. The society meets at the Santiam Academy, Monday evening next, at 7:30. By consent of the leaders of the debate of Monday night next, the question will be, "Resolved, that the U. S. Government should pass a law prohibiting the sale and manufacture of ardent spirits."

A Slight Mistake.

A few days since we were standing at our office window assorting our quartz specimens, when a man with a stomach capacity of a two-stamp quartz mill, and who was evidently suffering the pangs of hunger, missed the City restaurant by two doors and ordered lunch at the EXPRESS office. Our mind was wholly absorbed in our mineral collection, and in our mental abstraction we mistook him for the latest-improved quartz crusher, and began to ply him with questions relating to his capacity, etc., at the same time exhibiting some ore that bristled with pyrites of iron, we asked how much he could pulverize in twenty-four hours. This impersonation of a quartz mill looked discomfited and closed the door with a bang, leaving a half-finished apology in our editorial room which will puzzle the next tramp to interpret.

Stop Our Part of It.

Who is that fellow near our office that persists in practicing upon some sweet-voiced instrument? He bores our ears as with an auger, and renders it almost an impossibility to write, much less think. Up and down the gamut he runs remorselessly, until even the calamity of temporary deafness would almost be welcome to us. We confess to a love of music, but the unearthly strains that file our nervous system daily are not music; they are a miserable compromise between the notes of a blue jay and a fog whistle. Day after day have we been entertained (?) by choice selections from an extensive, yes, unabridged repertorie. Please remember hereafter that if you are furnishing music for us, that your numerous auditory is absent.

A Poor Advertisement.

A man who recently rode on the O. P. R. from Mill City, says that passengers on the train killed numbers of birds of foreign plumage, and that a man who was stationed on the forward car would jump off, bag the game and climb aboard the rear car. This may be a good record for the fowler, but if it is meant as a railroad advertisement it fails of its purpose. We can call to mind a railroad—we shall mention no names lest we provoke jealousy—the trains on which have been chasing the above-described bird for eleven years, and the nearest they have ever come to sighting it was the discovery of tracks two days old.

Not Enumerated.

Portland people were justly indignant at the way the census enumerator treated them; Salem's citizens felt a little sore after the same manner, but the climacteric point was not reached in this farcical affair until it was known that one-third of Tallman's population had been omitted from the count. When one reflects that Tallman's corporate limits touch Albany on the west, Lebanon on the east, and but hard against Spicer on the north, we think you will join us in a cry that shall be heard even in the City of Magnificent Distances.

Excitement

Runs high in Lebanon at Beard & Holt's drug store over System Builder, as everbody is using it for Catarrh of the Stomach, Dyspepesia, Consumption and Impure Blood. Try it and tell your friends about it, as it must possess wonderful merits when all speak well of it.

Oh, Yes!

The people of this town and vicinity will take notice that Lebanon now has a first-class restaurant. If you want a good, square meal, go to the City restaurant; it will cost you only 25 cents; and you can get lunch from 10 cents up, at all hours, day or night.

Three Families Arrested on the Streets

Of Albany, by the magnificent display of hardware, stoves and ranges at Matthews & Washburn's, who carry the largest assortment in the valley.

THE REASON WHY.

A great many people fail to understand why small county papers should cost more than some of the large Eastern papers or some of the ponderous newspapers published on this coast. If you are a wagonmaker you readily understand why you cannot compete with Fish Bros., or Bain, in the manufacture of wagons; or if you are a shoemaker you know very well that you cannot with your hands compete with Eastern manufacturers who employ hundreds of hands and use the latest and most approved machinery. Perhaps this knowledge will help you to understand why our little four-page papers come higher than some of the newspapers which it takes a whole day to read. The tendency of the times is for combinations and trusts to crowd out the single-handed manufacturer and mechanic. You see at once that if you had a patronage sufficient—for the patronage is the measure of your ability—you could sell as cheap as they. Give the country paper a few hundred thousand subscribers, a few millions annually for advertisements and a thousand dollars over the counter every day for pay locals, before you complain of a high subscriptiou or a worthless sheet.

MORTAR AND PAN.

BROWNSVILLE, Oct. 4.

Once again we send a few items. A. Banks and two other expert miners from Tacoma arrived in Brownsville last night en route to the Calapooia mines to open up some one mine in that district. They have the money to back them. They have engaged the services of your correspondent as guide, and by the time you have this in print we will be in the mines. If the mines come up to their expectations they will soon have a railroad to the mines, as some of the wealthy ones of Tacoma are members of the company.

The clans of Standish will gather at the Lucky Boy mine this week. They have adopted Joe Moore into the clan. Joe will petition the Legislature to have his name changed to Standish, also Nasby. They are a noble clan, and I wish them good luck and that they may strike it rich in the Lucky Boy, as they deserve it, being the pioneers of the camp; and when you see their banner on the outer wall of the Hotel De Lucky, you may be sure of a welcome such as the noble Moore only knows how to give. E. D. HAGEN.

A Grateful Chinaman.

The Chinaman has been called by many opprobrious names; he has been charged with having committed nearly every crime known to common and statutory law, and is said to be destitute of the moral sensibilities, but he is not an ingrate, as the following will show: Sam, the Chinese cook at the St. Charles, became involved in a fracas this week that threatened his liberties and the loss of a few shekels. S. M. Garland, his attorney, having extricated him from his difficulty, his gratitude knew no bounds; he threw his arms about the attorney's neck and squeezed him most lovingly. Now, it must be remembered that a Chinaman's gratitude knows no sex, color or previous condition of servitude, and consequently the landlady was the next victim of his loving embrace. The lady waiters being constitutionally opposed to such demonstrations, eluded his grasp, whereupon the Chinaman clinched a lamp post with such fury that a flame of natural gas several inches in length escaped from the top of the beam.

"The Jersey Lily."

ANGLESEA COTTAGE, L. B., July 2.

Gentlemen: Altho' it is very unusual for me to use any lotions or washes, still, in answer to your request, I have tried Wisdom's Violet Cream and Robertine. The former I consider especially efficacious in cases of roughness of the skin, and I have been using it every day for the last fortnight. I have found the Robertine an excellent preparation in cases of tan, sunburn, etc., caused by exposure to March winds and a July sun. Yours faithfully,
LILLIE LANGTRY

PRINEVILLE PICKINGS.

[From the Ochoco Review.]

The McKanlass minstrel troupe will give entertrtainments at Glaze's hall next Friday and Saturday evenings.

It is said that money is scarce here, but there seems to be plenty of money to gamble on, at least the faro banks are well patronized.

The showers of rain that have fallen this week have been worth thousands of dollars to this county. Enough rain fell to start the grass to growing and fall range will be good.

Usually at this season of the year there is considerable typhoid fever in this section, but so far this fall there have been comparatively few cases.

Some of the farmers were not through threshing when the rain came this week; their grain was stacked, hence was not materially damaged.

Bruce Healey replenished our larder this week with a cabbage head which weighed 21 lbs. and a dozen potatoes whose aggregate weight was 13 pounds. We don't know whether Mr. Healey makes a practice raising such mammoth vegetables on his Trout creek farm, but if he does, his products will certainly compare with those of any locality in the State.

There may be persons in this community who are at times troubled with colic, or subject to attacks of bowel complaint. If so, they should try Chamberlain's Colic, Cholera and Diarrhoea Remedy. It will afford almost immediate relief, and when reduced with water is pleasant to take. If taken as soon as the first indication of the disease is felt it will ward off the attack. Many people use it in this way, and find that it never fails them. A 25 or 50 cent bottle may be obtained from M. A. Miller.

We wish to say to our old customers, and also new ones, that we are prepared to furnish well seasoned lumber, made from soft mountain fir, at the following prices:

Second clear	$10.00
Clear	12.00
Clear 1x4	13.00
Fencing, boxing and timbers	7.00

At our mill in Wirtsburg, Linn Co., Oregon. JENNINGS & Co.

THE CRY OF MILLIONS!

OH, MY BACK!
STOP IT NOW,
SOON IT WILL BE TOO LATE.

I have been troubled many years with disease of the kidneys and have tried many different remedies and have sought aid from different physicians without relief. About the 15th of April I was suffering from a very violent attack that almost prostrated me in such a manner that I was bent over. When I sat down it was almost impossible for me to get up alone, or to put on my clothes, when kind Providence sent Dr. Henley, with the OREGON KIDNEY TEA, to my hotel. I immediately commenced using the tea. It had an almost miraculous effect, and to the astonishment of all the guests at the hotel, in a few days, I am happy to state, that I was a new man. I will recommend the tea to all afflicted as I have been.
