WHAT MEN HAVE NOT FOUGHT FOR.

Appropos to the present agitation of the liquor question, Bob Burdette gives his son some philosophical pointers in the following numerous vein:

"My dear boy, men have fought, bled and died, but not for beer. Arnold Winkelweed did not throw himself upon the Austrian spears because he was ordered to close his saloon at 9 o'clock. William Tell did not hide his arrow under his vest to kill the tyrant because the edict had gone forth that the free-born Switzer should not drink a keg of beer every Sabbath. Freedom did not shriek as Kozlosco fell over a whiskey barrel. Warren did not die that beer might flow as the brooks murmur, seven days a week. Even the battle of Brandywine was not fought that whiskey might be free. No clause in the Declaration of Independence declares that a Sabbath concert garden, with five brass horns and one hundred kegs of beer, is the inalienable right of a free people and the corner stone of good government.

"Tea,—mild, harmless, innocent tea, the much-sneered-at temperance beverage, the feeble drink of effeminate men and good old women. Tea holds a higher place, it fills a brighter, more glorious page, it is a grander figure in the history of the United States, than beer. Men like tea, my boy, but they hurled it into the sea in the name of liberty, and they died rather than drink it until they made it free. It seems to be worth fighting for, and the best men in the world fought for it. The history of the United States is incomplete with tea left out. As well might the historian omit Faneuil Hall and Bunker Hill, as tea. But there is no story of heroism or patriotism with rum for its hero.

"The battles of this world, my son, have been fought for grander things than free whiskey. The heroes who fall in the struggles for rum, fall shot in the neck, and their martyrdom is clouded by the haunting phantoms of the jimjams. Whiskey makes men fight, it is true, but they usually fight other drunken men. The champion of beer does not stand in the temple of fame; he stands in the police court. Honor never has the delirium tremens. Glory does not wear a red nose, and Fame blows a horn, but never takes one."

LITERARY CULTURE.

Libraries are much more common than formerly, books are multiplying almost as fast as catalogues can be printed, but we must not imagine because we possess many libraries, institutions and other means of culture, that we are making great progress. Such facilities may as often be a hindrance as a help to individual self-culture of the highest kind. The possession of the mere materials of knowledge is something different from wisdom and understanding, which are reached through a higher kind of discipline than that of reading. The multitude of books which modern readers glance at, may produce distraction as well as culture; and their contents may leave no more definite impression upon the mind than gazing through the shifting forms in a kaleidoscope does upon the eye. Doubtless many indulge themselves in the conceit that they are cultivating their minds, when they are only employed in the unprofitable occupation of killing time. It must also be borne in mind that the experience gathered from books, though often valuable, is but of the nature of learning; whereas the experience gained from actual life of the nature of wisdom, and a small store of the latter is worth a great deal more than any stock of the former. Useful and instructive though good reading may be, it is yet only one mode of cultivating the mind; and is much less influential than practical experience and good example in the formation of character. England had many wise and cultured men long before the existence of a reading public. Magna Charta was secured by men —we are told—who signed the deed with their marks. Thus the foundations of English liberty were laid by men who, though unskilled in the art of deciphering the literary signs by which principles were made known upon paper, understood well the things and principles signified.

The mind is largely dependent for its strength and clearness of vision upon the purity of the life. It is true that a man should know what is right in order to do what is right; but it is also true that he must be in the habit of doing right in order to make such knowledge of any practical value. For example, one who is accustomed to live wisely and to avoid whatever he believes injurious, learns one day through a reliable source that a certain article of diet of which he is fond, or a certain habit he has acquired, is deleterious, and he at once discontinues it. Another, accustomed to self-indulgence, receives the same instructions and makes no change in his conduct. The intellect of each has been appealed to alike, and their knowledge of the point in question is equal; but in the one case the habit of right-doing makes it operative, in the other the habit of wrong-doing makes it inoperative.

A petition asking for a crosswalk and also a sidewalk in Hausman's addition, was laid before the Council at a recent meeting. The crosswalk was ordered built, but the latter was laid on the table, for the very good reason that the street along which the walk is to be laid has never been opened.

NEMO.

"The Jersey Lily."

ANGLESEA COTTAGE, L. B., July 2.

Gentlemen: Although it is very unusual for me to use any lotions or washes, still, in answer to your request, I have tried Wisdom's Violet Cream and Robertine. The former I consider speedily efficacious in cases of eruption on the skin, and I have been using it every day for the last fortnight. I have found the Robertine a most excellent preparation in cases of tan, sunburn, etc., caused by exposure to March winds and a July sun.

Yours faithfully,
LILLIE LANGTRY

God's Blessing to Humanity.

So Says an Oregon Pioneer Ninety Years Old.

FOREST GROVE, Or., March 19.

I have used the OREGON KIDNEY TEA and obtained immediate relief. It is God's blessing to humanity. I take pleasure in recommending it to the afflicted. I am now nearly ninety years old, came to Oregon in 1842 in the employ of the Hudson's Bay Company, and since I began using the OREGON KIDNEY TEA I enjoy good health.

The above bright and benevolent face, is Dr. A. W. Acker, of England, discoverer of the celebrated Acker's English Remedy for Consumption and other popular preparations. Dr. Acker practised in his younger days among the middle classes of London, and was the means of doing great good, but his health failed and he found himself in the grasp of consumption, with a wife and child depending upon him for support. While in this condition, he discovered the celebrated English Remedy, saved his own life and has since saved the lives of thousands who were on the sure road to death. Any man or woman who feels a tickling in the throat, who coughs, especially in the morning, who raises or has a tight feeling across the chest, who has sharp shooting pains through the lungs or difficulty in breathing, should realize that these are *the first symptoms* of consumption which, if neglected, are sure to result fatally. Dr. Acker's English Remedy has cured more than one thousand persons who unquestionably had consumption and who were given up by their friends. It merits its popularity and is sold by reputable druggists in every city and town in America. *You can't afford to be without it.*

THE CRY OF MILLIONS!

OH, MY BACK!

STOP IT NOW,

SOON IT WILL BE TOO LATE.

I have been troubled many years with disease of the kidneys and have tried many different remedies and have sought aid from different physicians without relief. About the 15th of April I was suffering from a very severe attack that almost confined me in such a manner that I was bent over. When I sat down it was almost impossible for me to get up alone, or to put on my clothes, when kind Providence sent Dr. Henley, with the OREGON KIDNEY TEA, to my hotel. I immediately commenced using the tea. It had an almost miraculous effect, and to the astonishment of all the guests at the hotel, in a few days I am happy to state, that I was a new man. I will recommend the tea to all afflicted as I have been.

The Road to Wealth

Cannot be successfully traveled without good health. To reach wealth or any coveted position in life requires the full possession and operation of all the faculties kind nature has endowed us with. These conditions cannot exist unless the physical being is in perfect working order, and this is impossible when the liver and spleen are torpid, thus obstructing the secretions, causing indigestion and dyspepsia, with all of their accompanying horrors.

DR. HENLEY'S
English Dandelion Tonic

exerts a specific influence over the liver, excites it to healthy action, resolves its chronic engorgements, and promotes the secretions; cures indigestion and constipation, sharpens the appetite, tones up the entire system, and makes life worth living.
