ian, who resides at No. 55 West 25th Street, New

tion, abandoned by physicians and mourned by friends. The other was taken in December, 1888, when completely recovered, and entirely through the use of Dr. Acker's English Remedy for Consumption. The above pictures are wood cuts, but they are true to life and the original photographs, taken from life, can be seen at all the drug stores. Mrs. Harlan's consumption began as consumption usually does, with a cough in the morning, raising of phiegm, tired and depressed feelings, a lack of appetite, the loss of flesh and pains throughout the body. She did not realize her extreme danger until it became almost too late, but she is in perfect health to-day. Dr. Acker's English Remedy for Consumption is sold by all reputable druggists. You can't afford to be without it. reveal to me the workings of the becomes more popular, will forever heart, and Franklin enriches me bury some of the worst appetites with his lessons of practical wis and peraicious habits whi h have dom, and I can hold pleasant con-verse with the literati of two hem-Our readers may expect dull times with but few items for at least

each other on matters of fact that it

with, or without rendering an uivalent. More time is studying how to dodge the oilities of life than would be be supported by an elephant; but the earth turned out to be quite capable of supporting itself and hanging self-balanced on its own centre. Hunto furnish a population of aillions with bread and meat.

Asy to point out evils, but a arder task to provide a remedy shall be both practical and optive. It may be that a plain atment of the case will suggest electricity, and magnetism. Science as it is now urged upon us is but of yesterday. Little more than a century ago next to nothing, in view of what is now known, was understood of heat, and magnetism. Science are wiser head a remedy for a second of the privileges. some wiser head a remedy for a urse that permeates like leaven nearly all classes of society. It is true that the saloon is graduating young men by the score in this diabolical profession? but looking beyond this most fruitful source of physical philosophers. As a mere physical philosophers. beyond this most fruitful source of gambling we can see other schools where the taste is acquired by boys who are not tall enough to see over subjects who have successfully atis so diffused through the various anti-spiritual position. This should be remembered by readers who have examined only one side of the subject, for there is danger of forgetting that what is difficulty to one man, may be worthless weres and valuless crap-trap. Gambling is made the most "protoplasm" is just such a wall-or attractive feature of state and rather it is a wooden fence, before the

attractive feature of state and county fairs. Ten-cent prize boxes, with a few pieces of candy and a brass butterfly, never fail to catch the pennics of the boy who is not tall enough to see over a counter.

Taller it is a wooden ience, before the fire of Christian criticism. As a matter of fact there are men of science, eminent as professors and expositors, endorsed by the highest university honors, who distinctly repudiate Mr. Huxley's doctrine, and from a Christian criticism. A crude and unscientific chemistry tian standpoint answer and overthrow can palm off on a gullible public, his ill-reasoned and frivolous objecby means of a lottery scheme, an lions. An eminent professor of sciinferior baking powder. These are some of the ways in which boys are trained to gamble, and just what the end will be, we pretend not to say, further than "whatsoever a man soweth, that shall he also rean".
