Remember the date, April 24. Following is the program:

A Question of Equity. Mr. H. Z. Osborne, before the last Editorial Convention of Southern California, delivered the following in course of his address:

"The newspaper should receive the hearty support of every business man within the radius of its circulation. That of the Almighty who made the sun, the valleys and the mountains, Southern California was more indebted to the newspapers for its growth and prosperity than to any other agency. There are men in this city who have grown rich from the growth of the country, due largely to the intelligent efforts of the newspapers, who make it their boast that they never advertise in newspapers. I consider a merchant or a business man who makes it a matter of principle to avoid patronizing the newspapers whose efforts have contributed to his wealth, morally a dishonest man. He is one of those who reaps where he has not sown, and profits upon that which others contribute to maintain."
