CRABTREE.

Base ball.
Sunshine.

Church.
Personal notes taken at random:
F. M. Smith looks like a forty-niner, jovial and pleasant.

J. A. Tucker will move to Salem in a few days. We are sorry to have him go.
D. F. Crabtree is as spry as a cricket.
Mr. and Mrs. Moon is one of the blessings of our community.

Mr. Jasper Crabtree's baby is quite ill.
Mr. J. P. Crabtree has a new girl at his house to comfort his old age.

Mr. James Crabtree left Wednesday, for California on business.

F. M. Smith's new house is a beauty; it will be completed shortly.

J. K. P. Tate has the finest garden we have seen.

Marion Crabtree is the best Judge of a horse in the forks of the Santiam.

Mr. Paul has a petrified tree on his ranch also a fine paint mine.

Frank Crabtree was out looking over his ranch, Wednesday.

A strange way indeed, to put it—but base ball is the rage, Sunday ball being the rule and weekday the exception—country boys must keep up with the city boys. Mothers and fathers need conscience on this question. It is degrading to violate the Sabbath.

Sunshine—The farmers are delighted and expect to begin harvesting hay in a few days. Crops are very promising, the Berks of the Santiam can't be excelled, for number-one producing land. Mr. Tucker sat, last fall, ten acres in prunes which look very fine.

Church—Rev. G. E. Handeler has been conducting a series of meetings at Crabtree school house. Last Sunday was an all-day meeting, basket dinner. They came from "Dan to Bushbuck," big, little and indifferent. There was an excellent class-meeting at 9:30 a. m.; at 11 o'clock Rev. D. C. McFarland P. E., preached one of the most forcible and scriptural sermons we have ever listened to, on justification by faith. 2:30 p. m. Rev. G. E. Handeler preached to the young people; 8 p. m. closed the day's services.

Don't send your money abroad, but patronize home industry, by having your printing done at the Express job office.

A Waterbury girl, who was unannounced for sixteen days during an attack of the grip, stoutly maintains that she went to heaven in the interval. The average citizen who has experienced the grip will just as stoutly maintain that the Waterbury young woman is mistaken in the place she visited.—Stolen.

At a regular meeting of the board of directors of Lebanon & Santiam Canal Co. held Tuesday evening, June 30, 1891, a levy of 20 per cent. assessment was made on capital stock to be paid by July 15th, same to be paid to the secretary M. A. Miller at his office in the City Drugstore.

L. FOLEY, Pres.
M. A. MILLER, Sec.

A few days ago Mr. Thomas Large was engaged in riving boards from a large tree. In one of the board bolts that come from near the center of the tree he found a nail imbedded. Mr. Large's curiosity was aroused by his discovery, and upon counting the growth from the nail to the circumference of the tree he found them to number 125. When was it done and who did it? Will somebody advance a theory as to how this occurs?—Solo Press.

All parties knowing themselves indebted to John Unger will now take notice that all accounts unpaid by Aug. 1st, 1891, will be sued upon at that date. This is the last notice to be given. I have waited long enough. Pay all accounts to Samuel M. Garland, July 2, 1891.

JOHN UNGER.
M. A. Miller will close out his stock of West Virginia and China out-let coal.

Our Exchange Table.

Mr. Charles Russel, counsel for defendants in the incoercit case has a sister in San Francisco who is mother superior of the order of Sisters of Mercy at the St. Mary's hospital in that city.—Eugene Guard.

Since Jos. Gill, formerly of this city, ceased publishing the Kansas Tom Cat, the Daily Pig, published at Bessemer, Ala., is the most singular named newspaper in the United States.—Ex.

A Philadelphia paper states that a phonograph has been employed to catch the utterances of monkeys in the belief that they have some sort of language that may be developed and interpreted. When the phonograph repeated it, they clustered around and looked for the monkey that was talking. It is expected to trace the language up through the duds and dudines to rational speech.

At a spiritual seance held in Linkville the other night, Horace Greeley was called upon to talk about the principle on which our sugar-raisers are allowed 2 per cent. For a dead man he was pretty warm. With checks and eyes aglow he thundered: "If you plant that principle you'll raise cane!" He then vanished amid great applause.—Klamath County Star.

A Newburg girl within three months has married a farmer, burned down his house and barn, incidentally roasting his son, stole a livery team and eloped with a young man. As she did it all while clad in the ordinary habiliments of womankind, it doesn't seem that the need for a business woman's dress is very great.—Pierce County Review.

Political parties are in the minds of some people like armed revolutions; if successful they are right, if unsuccessful they are wrong. Such people are never worried about the principles of either parties or individuals.—Cheney Sentinel.

The new people's party held a meeting behind closed doors at St. Louis Saturday. It will not unduly affect the welfare or the bliss of the nation if they hold their elections the same way.—Astoria Bulletin.

Notice is hereby given to the cheese patrons of the Lebanon factory, and to the general public, that we have secured the services of Mr. M. P. Taylor, an old and experienced cheese-maker. The readers of the EXPRESS will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure, if sent for list of testimonials. Address F. J. Cheney & Co., Toledo, O. Sold by Druggists.

Dr. Lamberson shipped on Tuesday, 71 tons of casaca bark to four different firms, one shipment going to Windsor, Ontario. He has a contract on hands of 79 tons of this bark, and has it over one-half filled and he informs us that he will have no trouble in filling his contract. Credit is due the Dr. for working up this industry as it brings in foreign capital and distributes it among the needy people. He employs 5 men to handle the bark and pays them liberal wages and deals on the square with the people who gather the bark.

A few days ago J. C. Gordon was arrested at Lebanon, charged with carrying concealed weapons. He was tried before Justice Hyde, attorneys Miller and Garland appeared for the defense, and J. R. Wyatt, deputy district attorney, for the prosecution. The defense took the ground that the law was unconstitutional, as it was in conflict with the provisions of the statutes providing for carrying arms in case of war, and the justice declared the law unconstitutional and discharged the prisoner. This beats the justice who granted the divorce, and places the Lebanon court above even Boise's court, for Judge Boise rarely pretends to declare a law unconstitutional, that being the province of the supreme court. Albany men who are arrested for carrying concealed weapons should always appeal their cases, in case of conviction, to Justice Hyde's court, at Lebanon—Albany Democrat.

Our neighbor does Judge Hyde a great injustice in the above.

The law reporter for the Democrat is in error. The grounds for dismissing the case against Gordon were, that the state had failed to establish the fact that the defendant had a weapon concealed about his person, though the evidence showed that defendant had a weapon in his hand. It was claimed by the defense that to secure a conviction it must be proven, as alleged, that the defendant had a concealed weapon.

DIED—HICKMAN—In Florida, Missouri, June 9, 1891, Joseph H. Hickman, aged about 55 years. We need not eulogize the character, or speak of the moral or mental worth of the deceased, for Prof. Hickman was well known to the people of Lebanon and those who were intimately connected with him can truly testify to his christian sincerity, his strict honesty and intellectual ability. As one who profited by his instruction, we can say that he accomplished much, and did it well although he worked under the greatest disabilities. He was to us and many others, in fact all who met him, a kind and sympathizing friend, and always ready to vindicate and act on the right side, and we shall look back to the days when we were associated together as teacher and pupil, as the happiest and best spent days of all our school-life.

One of His Pupils.

Spring Fever.

At this season of the year the most vigorous and hearty people often have a feeling of weariness, tired and worn out, without ambition to do anything, and many break out in pimples and boils. They give an activity to the liver, purify the blood and by their mild tonic action, new vitality and strength to the entire system. Sold at 25 cents a box by M. A. Miller.
