TEACHERS' UNION IN NEVADA

The Leaders of the Military Mob at Walla Walla Arrive Safely nt Alcatraz Prison.

Travelers say there is an active vol-ano in the Cascades.

A teachers' union is being organised Virginia City, Nev.

The examination of Frank Heney for the murder of Dr. Handy is going on at

The Indian scare in Idaho is not can no apprehension to army officials i

The Juanita is the only scaler not re-arned to Victoria, B. C., and fears are appressed for her safety.

The semi-annual session of the South-ern California Pomological Society is being held at Pasadena.

The work on the jettles at the mouth of the Columbia is progressing. Rock is carried four miles out to sea and domped.

Thomas H. Horn, a Pinkerton detec-tive, charged with robbing a faro bank at Reno last April, has been acquitted by a jury.

The Los Angeles Consolidated Elec-tric Raliway has commenced running electric cars on the road to Vernon, a distance of about three miles.

There are reports that the Stonewall mine in San Diego county has struck a bonanza, and that an option has been taken on it in Chicago for \$1,500,040.

An investigation into the difficulty with the Claispie Indians in Idaho shows It originated in greetly whites trying to dispossess Indians of their lands and to frighten the Indians away threatened to bring in troops.

The sixty-second semi-annual conference of the Church of Jesus Christ of Latter-Day Saints convened in the Taburancie at Sait Lake Sunday, over 10,000 of the faithful being in attendance. There was a choir of 600 voices present.

A printer who is in the state prison at Carson, Nev., for buying a bottle of whiskey for an Indian, has appealed to the typos of Virginia City to keep him supplied with tobacco, reading matter, etc., while he is holding down his pres-ent "sit."

At San Francisco the public administrator has asked Judge Coffey to settle his final account as special administrator of the estate of Mrs. Hopkinstearles. He states that the estate in California is valued at \$2,000,000, and the rents amount to \$5,000 per month.

The Alaska Packers' Association, com-prising the controlling interests in the thirty-three salmon canneries of Alaska, has been formed at San Francisco. The association is controlled by the follow-ing trustees: S. M. Smith, U. W. Home, J. N. Knowles, Charles Hirsh and E. B. Beckwith, with D. B. Bradford as corre-

Reckwith, with D. B. Bradford as cecre-tary.

The big suit of Alexander Badlam, Isaac Trumbo and other San Francisco stockholders of the Bullion Beck Mining Company against the directors of that company, in which plaintills sue to re-rever \$350,000 damages, was dismissed in Judge Lane's court at Salt Lake re-cently on plaintiff's motion. The attor-neys refused to give any information as to the terms of settlement, but it is said the directors are entirely astisfied with the terms.

William G. Johnson of the United

the terms.

William G. Johnson of the United States geological survey, who discovered a remarkable glacier in the Big Horn Mountains, Wyoming, is its San Francisco with Prof. Thompson, director of map-making in the Western States. Johnson is to have charge of some map work in California. He says that the Courthouse in Seattle November 27 work in California. He says that the region in the Big Horn into which he permutated had never before been visited by a scientific man. Very rarely is it visited at all, and then only by prospectpenetrated had never before been visited by a scientific man. Very rarely is it vasited at all, and then only by prospectors and hunters, who go everywhere in the mountain country. Johnson related how he chimbed to the tore of a mountain 18,500 feet high, which recalls Cloud Peak. On reaching the very bighest pinnincle he saw a great glacier stretched out before him. The mass of ice was not less firm five utiles long, and at the bottom extended out into a lake about three-fourths of a mile. The lake is a small but very picturescule sheet of was leef. In it the explorer saw icelergy, which had broken off the glacker. The great quantity of ice in the lake, too, seemed to lawer the temperature considerably, and at the time Johnson was there or four inches thick. Another mountain loomed up less than two miles from Cloud Feak, and from a distance it looked if it would be impossible for any man to climb it without cutting a statuway in the rock. There were precipiess thougands of feet high, and even on the glacier here was one place where a man coulo stand and drop stones down into the stater, a distance of 1,000 feet.

WASHINGTON NEWS.

Meeting of Superior Judges Will Be Held in Seattle to Forms Uniform Rules.

The postoffices of Whatcom and New Whatcom will soon be consolidated.

The harbor at South Bend has been relieved of 83,400 cubic yards of mod by the Bowers dredger.

Yakima Indians are reported to be willing to take up farms and throw open the reservation to seutlement.

Horse thieves are again at work in the vicinity of Spokane. Five animals were stolen during the past week.

The Tacoma smelting and refining works shipped 4,250 bars of bullion, valued at 450,500, during September.

Tacoma's wheat receipts now average

Tacoma's wheat receipts now average 100 cars daily, or about 67,000 bushels; Seattle, 35 cars daily, or about 24,000 bushels.

There is a movement on foot to take the sastern portion of Ciallam and Jef-erson counties, separated from the Sound by the Olympies, and form a new county of them.

An adjustment of the loss of the Cheney Normal School, which was burned recently, has been made by the State Auditor and the companies, and \$4,000 has been paid in by the latter.

Silver Lake, one mile east of Medical Lake, is becoming quite a fishing resort, the German carp put therein a few years ago having increased so fast that they now furnish excellent sport for fisher-men.

Articles of incorporation of the Puget Sound Vinegar and Pickle Company have been flied by John Braun, George Trick and F. W. Hergen as trustees. The cap-ital in \$10,000. The company proposes to manufacture yeast also.

Postmaster W. A. Rounds has received flicial notification that the South Bend ostoffice has been promoted to the third lass. The postmaster's report for the marter ended September 30 shows \$23.82 as the amount of stamps can-ided.

The Northern Pacific land department is doing a big business in the Clarke-county tract. The lears that the com-pany will lose the land have about sub-sided, and much land is being sold. Those who settled on their land prior to 1882 get it for \$2.00 an acre.

The lumbermen who met at Taco the other day to prepare plans for secur-ing Washington lumber for the State ex-hibit building at the Columbian World's Fair have decided to meet at Scattle within thirty days for the purpose of perfecting an organization of the State Lumbermen's Association.

The projected ship canal to connect Puget Sound with Lakes Union and Washington at Seattle, if carried out, will make Scattle one of the finest harbors in the world, having a fresh water dock large enough to accommodate the commerce of any port; but, as the improvement would cost \$3,00,000, it is scarcely probable that it will be undertaken for many years.

A zinc ledge is the latest mineral dis-covery made in the vicinity of Spokane. C. P. Carlin reports that he has discov-ered a fourteen-foot ledge of that min-eral, and recently took samples of the ore to Charles Fassett for assay. Mr. Fassett has made a number of assays, and finds that the ore carries from 33 to 40 per cent. of the metal. The location of the ledge is withheld.

A writ of error to the Supreme Court of the United States has been allowed by Chief Justice Anders in the Seattle Valentine acrip case of Mitton L. Baer vz. Moran Bros. Company. The transcript must be filled at Washington within sixty days. An attempt will be made to advance the case on the ground of its great public importance, so that it may be heard next February.

Hoy Moya, a Seattle Chinaman, has secured a permit from the Health Department of Tacoma to exhume the lones of a half-dozen Chinamen who were buried in the south part of the city near Center street several years ago, before the Chinamen were driven from the city. Hoy Moya will work under the protection of United States Marshal Brown, and the bones exhumed will be sent to China.

Minnesota's Supreme Court Declares Wheat Futures Are Illegal and Contracts Void

Real estate in Oklahoma is booming. The grip is making its appearance in ew York again.

New York again.

Neither St. Paul nor Minneapolis has a single horse-car line.

There is a fine of 4500 for practicing hypnotism ic Cincinnati.

The Arctic lee Machine Company at Cleveland, Ohio, has assigned.

A \$300.000 union railway station has just been opened in Louisville.

A syndicate has offered to buy the Washington monument for a shot tower. Pennsylvania farmers, irrespective of Alliance orders, are holding wheat for \$1.50 a bushel.

Beacon Hill: In Boston is to be ex-plored by diamond drills in the interest of rapid transit.

England and Germany have each applied for 200,000 square feet of space at the Columbian Fair.

Strong resolutions were adopted at a public meeting at Windsoz, Canada, fav-oring commercial union with the United

Cadets Griffith of Maryland and Kav-anaugh of Nebraska at the Annapolis-Academy are to be court-martialed for hazing.

Thomas Edison, the electric wizard, has a new system of applying electricity to cars that does away with the trolly or the slot.

The Minnesota suprame court declares wheat futures are illegal and operators on the wrong side can repudiate their contracts.

The Odd Fellows in the United States can boast of a membership of nearly 700,000 and an annual revenue of more than \$7,000,000.

The official report on the executions by electricity at New York show them to have been a complete success, as was designed by the law. The Boston Herald has a dispatch say-ing that ex-Speaker Reed will give up politics and enter a large business cor-poration at New York.

It is probable that the scheme of transmitting mail in large cities by pneu-matic tubes will be abandoned on ac-count of the great expense.

count of the great expense.

It is estimated that the Western railroads have earned \$250,000 the past year
from the transportation of Mormon missionaries and their procelytes.

New York will soon have a score or
more of practically free public baths,
unless the plans of the trustees of the
laron de Hirsch fand miscarry.

The water is so low in the Eric canal
that beats are grounded all along the
line. The evesks and lesters have not
been so low as now in some years.

There will be more than an average rield of corn and buckwheat in New York. A large tobacco crop has nearly wen secured in excellent condition.

The excitement at Clearfield, Penn., over the suspension of the Clearfield and Houtsdale bank still continues, and the mobbing of the bank was leared.

The Mexican government is preparing to meet all revolutionary forces that cross the Bio Grand, and the prepara-tions indicate that the government is much alarmed.

much alarmed.

All the Northwest railroad companies are calling attention to the critical situation in the North Dakota wheat fields, where the wheat is lying in stacks for want of threshers.

No rain worth mentioning has fallen in Norwalk, Conn., since early in the spring. As a consequence her reservoirs are empty, and arrangements are being made to tap the mains of a neighboring town.

Developments in the Christman bank Developments in the Christman bank followed Paris, Ill., make the situation more serious than at first supposed. It is stated that the loss will not be less than \$100,000, and the assets may not exceed \$10,000.

OREGON MELANGE.

Horrible Butchery of One Chinaman by Another Occurs at John Day-The Wheat Fleet.

The Sumpter Valley Railroad Company is now running passenger coaches regularly for the accommodation of its patrons

The river bottom two or three miles from Pendleton is alive with nattle-makes, of which there are more than have been seen for years.

The Western Union Telegraph Com-pany proposes to extend its line from Marshifeld to Florence, if the people of the Siuslaw Valley are willing to share the expense.

The grain fleet from Europe is arriv-ing at Portland. The warehouses are crowded with wheat, and the fleet of vessels coming to carry it away is larger than ever known at Portland.

There is considerable talk of organiz-ing an athetic club in Portland for the purpose of promoting friendly glove con-tests with large pillow gloves as an in-centive to greater profit isney in the manly art of self-defense.

art of self-defense.

The Oregon State Invane Asylum appears to have been in an unfortunate condition before the present management assumed control. The sleeping rooms were filled with vermin, and the sheets from the beds were used as towers.

T. B. Trevett, William L. Ladd and Lewis Russell, who were judges of the recent regatta at Portland, have decided that the Williamste and Portland senior four-oared crews must row again. This race was protested on the ground of foul. A number of Astoria's athletic young

A number of Asteria's athletic young men, who attended the regatta in Portland a few days ago, are contemplating a few days ago, are contemplating a four-nile straight-away course of smooth water on Young's river, from the old mill, that is unexcelled for racing purposes.

posses.

The slate quarry recently discovered in Josephine county, twelve miles from Grant's Pass, is the only one in the Northwest south of British Columbia, and there is only one in California, so it is bound to be of value. The slate is of superior kind, ahead of nearly all slate found in the East.

is now in jail at Canyon City.

The mill of the Willamette Valley Milling Company at Salem will be ready to begin operations in two or three weeks. The delay has been caused by the failure of the rolls to arrive. A railroad has been built down Front street to connect the mill with the Southern Facific lines. This will enable supplies of grain to be received and flour to be shipped to much better advantage. Not so much wheat is now brought into Salem by farmers from the surrounding country, as a great deal of land has been planted to fruit. With a railroad and exceed \$10,000.

Chairman Coppet of the board of directors of the Denver & Rio Grande the river alonguide, the mill will be able to obtain supplies from all parts of the will be appointment of R. J. Jeffery, formerly general manager of the Illinois (Central, as president and general man.

THE ARBEITER KOLONIE.

Germany's Attempted Solution of the Prob-lem of Dealing with the Unemployed.

For several years a movement has been progressing in Germany to solve logically the problem of dealing with the memployed, independently of alms giving and charities. Though little has been responsed of the societies having the work in charge, there have been very satisfactory results attained in the past three years, and the success of the Arbeiter kolonie, of Berlin, the most important solony, has been of a character to recommend the plan to all large cities of Europe and of the United States as well. How to deal with men out of work without making them a charge upon the county is a question for most serious consideration; yet it has never been squarely met nor studiously investigated. Any one who will take the trouble and look into the labor and and staisties of a large city, even in bounteous America, will be astonished at the large percentage of persons capable of doing work who are, nevertheless, objects of common charity, or are on the dependent rolls of the country. The condition is proportionately worse in many European countries, but Germany is the only country in which has been undertaken a practical plan of dealing with the idle classes that are willing to work but are unable to find employment.

The colonies referred to, of which that progressing in Germany to solve logically the problem of dealing with the unem-

ment.

The colonies referred to, of which that of Berlin is the littest example, were organized "to employ industrious and unemployed men of all professions and classes, so far as they are really capable of work, in agrarian and other labor until it is possible to procure them reminerative work elsewhere and to help them to quit the life of itinerants, and also to remove the excuse of lazy wagabonds that they have no work. The Berlin colons was founded in 1885. It has a plot of land several seres in extent, on which fruits, flowers and vegetables are cultivated, and several shops, besides ledging and eating apartments where various trades and general work may be engaged in. An investment of more than 85,000 marks is represented. Besides the garden and fruit culture the occupations are straw plaiting, carpentering, shoemsking and copying, and all kinds and conditions of workmen arrepresented, including tradesmen, clerks and writers, anothereries.

and there is only one in California, so it is bound to be of value. The slate is of superior kind, ahead of nearly all slate found in the East.

William A. Pinkerton, General Western Superintendent of the Western division of Pinkerton's national detective agency, has decided to entablish a Pacific Northwest branch in Fortland. He has rented a suite of rooms is the Maryuam building, and the branch office will be opened at once with Charles Mapplastian in charge.

The Oregon Board of Commerce has ected the following officers: President, T. F. Orbone: Secretary, Charles Randolph: Treasurer, Henry Falling. Ten Vice-Presidents from various Boards of Trade throughout the Rate were elected. A committee of seven was chosen to have full charge of raising funds for the World's Fair exhibit.

At Astoria G. W. Bunbar and George Hibbert, publishers of Town Talk, have been arrested on an indictment from the grand jury, charging them with criminal intel. The complaining witness was shameled findent from the grand jury, charging them with criminal intel. The complaining witness was shameled proof to substantiate the article in question.

A mort horrible butchery of one Chimaman by another occurred at a mining camp near John Bay, Grant county. Ah fee had board Ah How 310, and when the former asked to be repaid, the boar owner may be another of the contral part, but great chunks of flesh from arms, hips, chest and back were sliced off, and in a very short time the butchered Mongo bled to death. Other Chimamen in the camp succeeded in disarrib, but great chunks of flesh from arms, hips, chest and back were sliced off, and in a very short time the butchered Mongo bled to death. Other Grean could be sent for. The maderer is now in jail at Canyon City.

The mill of the Willamette Valley Milling Company at Salem will be ready to begin opporations in two of trees of succeeding and height proporations in two of trees of succeeding the butchery of one chimame of the president of the method of the method of the method of the method of th

selves, the are large when taken intonecount with the fact that there is less
mendicancy in Berlin than in any other
great city of the world. Indeed, Germany is exceptionally free from begrans.
Moreover, the colonies are only for those
who can and will work, but are unable
to find employment. We hardly need
meralize on the good results possible to
be accomplished by an institution that
steps in between unemplayed workmen,
and beggary or starvation, or the crimes
of desperation. Nor need it be urgost
that there are few better ways for the
utility of practical philanthropy. The
moral influences of such a movement are
incalculable, and the uniterial good to be
accomplished not inconsiderable. An institution of the kind could quickly be
made self supporting; or if it were nothe indiscriminate charities now so liberally dispensed could be turned wisely
to its maintenance.—Chicago InterOcean.

The Arbiter of His One Pate,
Tennyson N. Twigs - Would it make any
difference if I should read this poem to you
or leave it here for you to read!
The Editor - Yes; I think it would. If you
have it, you'll go out of the door; but if you
read it you may go out of the show. - Lippincett's.
