Electric Lights.

At a meeting of the city council Tuesday night, an ordinance was introduced and referred to the committee on ordinances, granting to J. L. Cowan, L. Foley and Frank O'Neil a franchise for fifteen years for the establishment of an electric plant in our midst. From hearing the ordinance read, we believe that it means fair play to the city and to the company. It imposes certain conditions upon the three gentlemen that will insure to us good lights at the least inconvenience and at reasonable prices.

It is a step in the right direction. It means "progress!" It will be the majority birthday of Lebanon, when she ceases to be a child and will enter upon her woman's estate.

By all means let the franchise be granted, with proper restrictions, and let the three gentlemen, who show so much public spirit, be encouraged. We are going ahead and we need this improvement. The paper mill will soon be in full operation. The canal will ere long bring to our very doors the power for other and greater improvements: Flouring mills, a long felt want, will come in time. So will other manufacturing enterprises. Let the good work go on.

On next Saturday the debating society will debate on the subject "Which is the most essential, the printing press or the steam engine."

The people of this place are preparing for a Christmas tree. Let us try and make it a good success.

Remember the debate and be sure to go. Last Friday, Dec. 11th, was the last day of school at Mountain Home, being the end of the three months term of Mr. Jerry Banks' school. Quite a large crowd assembled and the latter part of the day was passed in hearing recitations from scholars and visitors present, also, by Mr. Burgess who entertained us with choice selections of recitation to our several homes, saying that we had enjoyed immensely.

The debating society at this place promises to be a grand success. It is to be known as the Mountain Home Lyceum. They were debating on the subject of foreign emigration, whether it should or should not be restricted, with Mr. Jerry Banks for the negative and Mrs. A. Tunison for the affirmative, and it was decided in favor of the latter. They have chosen every Saturday night as time of meeting, therefore their next meeting will be next Saturday, Dec. 19th. The city election held in Junction City recently will be taken into the courts and contested by the "outs." The grounds for the contest will be that the judges of the election refused to receive ballots from those who paid no taxes, the charter of said city making provisions, claiming that said portion of said charter is contrary to the constitution of the state. Attorneys Walton & Skipton have been retained by the "outs," and attorney L. Bilyeu by the "ins."—Eugene Guard.
