The Official Government Reports:

The United States Government, after elaborate tests, reports the ROYAL BAKING POWDER to be of greater leavening strength than any other. (*Bulletin 13, Ag. Dep., p. 599.*)

The Canadian Official Tests, recently made, show the ROYAL BAKING POWDER highest of all in leavening strength. (*Bulletin 16, 1866, Indian Report.*)

In practical use, therefore, the ROYAL BAKING POWDER goes further, makes purer and more perfect food, than any other.

**Government Chemists Certify:**

"The Royal Baking Powder is composed of pure and wholesome ingredients. It does not contain either alum or phosphates, or other injurious substances."

EDWARD G. LOVE, Ph.D.

"The Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public."

HENRY A. MOTT, M.D., Ph.D.

"The Royal Baking Powder is purest in quality and highest in strength of any baking powder of which I have knowledge."

WM. McMURTRY, Ph.D.

**The Government Report shows all other baking powders tested to contain alum, lime or sulphuric acid.**

**German Thermometers.**

In former Germania are to have the thermometer of Celsius, to tell them how hot or cold it is. Until now Berlin has used that of Reaumur. It seems a strange arrangement, or derangement, that the English should use the thermometer of the German Fahrenheit while the Germans make use of the Frenchman's Reaumur, and the French in their turn, have the Swedish Celsius. The numbers of degrees corresponding to the temperature of Fahrenheit are 15 Reaumur and 10 Celsius respectively. London Society.
