Gov. Penoyer has just received the following from Geo. W. Barnes, of Prineville, which tells its own story: "Honorable Sylvester Penoyer: Snow blockades have almost isolated us this winter, but it chinked long enough the other day to open a passage for the news that Oregon's cranky governor had vetoed the world's fair appropriation bill and we want to reach across the snow drifts and shake. During the last five or six years nine-tenths of the boy babies born in this county were named Sylvester Penoyer and when we came to the fork of the roads and you refused to go on with the Democratic procession, but poked off in a by path all to yourself, we seriously thought of petitioning the legislature to pass a general bill changing the names of our boy babies but it is all right now, Sylvester Penoyer, Brown, Jones, Smith or whatever else it may be, give darn your own political gunption, hot hurray for you, business sense."

A warrant has been issued from Justice Bullock's court for the arrest of the clerk of an East Side hotel for using insulting language to two ladies, who took rooms at his house. They paid each a half dollar, and were shown up. When they requested the clerk to bring them a pitcher of water, he returned with a flask of whisky. This they refused, and when he brought the water he told them there was a couple of gentlemen below who would like to meet them, and insisted on showing them up. They became indignant and left for another hotel. Constable Marks has not been able to find the man to arrest him.

For the Orphans' Home. The ladies of the Albany Ladies Aid Society received word recently that a child deserted in Lebanon was deserving attention. By their direction the child, a little girl nine or ten years old, was sent to Albany Saturday in care of Conductor Huston, of the Lebanon train. She gives the name of Pearl Stacey, and says she does not know where her parents are, that they were living somewhere in Nebraska and that her father ran away from her mother, who was then obliged to find work, and that a family coming to Oregon brought her along and stopped in Lebanon for awhile but they finally left her, deserting her. A charitable family near Lebanon has been giving the little girl shelter and protection until she was sent in to the orphans' home, where she will be cared for.—Herald.

Near Yankton is the most remarkable family on this continent—perhaps in the world. It consists of a father, mother and twenty-four children, and the mother of the children is not yet thirty years old. She is a Norwegian woman and her husband is a Hooiser. The children were born in triplets and the oldest is under twelve years of age. All of them are boys except three, one set of triplets being all girls. They are a sturdy looking lot of youngsters. The gentleman who has started in to become the father of his country is a well-to-do farmer who is remarkably proud of his progeny. He says if the good Lord continues to smile upon South Dakota he may yet be able to furnish Uncle Sam with a full company of soldiers.—Globe Democrat.

The investigation of the whisky trust, by the house judiciary committee, has brought out some interesting facts concerning the adulteration of liquors. By the use of essential oil, essence and coloring matter, an expert quickly produces whiskies, rums and gins, similar to those that are placed on the market and sold as pure goods. The basis of this product was an odorless and colorless liquor, known to the trade as "spirits," and worth about \$1.30 per gallon. By the use of compounds worth, say, one and one half cents, he produced a gallon of liquor that would sell as high as \$4, and the statement was made that the production of adulterated goods represented one half the entire liquor business of the country—such goods being largely, no doubt sold by mere presentation.

Gov. Penoyer has just received the following from Geo. W. Barnes, of Prineville, which tells its own story: "Honorable Sylvester Penoyer: Snow blockades have almost isolated us this winter, but it chinked long enough the other day to open a passage for the news that Oregon's cranky governor had vetoed the world's fair appropriation bill and we want to reach across the snow drifts and shake. Charley Mitchell conceded all conditions demanded by Corbett and the fight between the two men is now assured. The two parties met Saturday evening in the office of the Dramatic Journal, in New York. Mitchell announced he was willing to concede that the winner should have all stakes. Supt. Byrnes' action was discussed and it was decided as a safeguard not to sign articles at present and withdraw the money held by Dickinson. Accordingly each man withdrew \$10,000. An agreement was then drawn up that the representatives of each party should meet on Saturday, Feb. 25, at 9 p. m. on the Canadian side of Niagara Falls, and there deposit stakes and sign articles.
