Otto Adrian, M. L. Garoutte's butcher had a rough and tumble fight last week at the slaughter house with a huge buck sheep. He proved a match for his four legged, woolly combatant so long as his wind lasted and he maintained his hold in the wool. But soon the wool slipped and Otto, holding a bunch in each hand, fell to his hands and knees fully prepared to meet his foe in a combat after his own style. The first bunt was sufficient, and a passer by saw the good natured "butch" light wrong end up in a convenient buffalo chip (?) with a bruised head and a bloody nose. The pieces were all found but his moustache, which has probably found a resting place in some wandering crow's nest, where it will furnish warmth to the forth-coming generations.—Brownsville Times.

The Oregon Pacific case was decided last Saturday at Corvallis and Judge Fullerton, the new receiver, Mr. Gest and others came to Albany on a special train. The arguments before Judge Fullerton were long and interesting ones. Judge Bryson appeared for the Farmers, Loan & Trust Co., trustees for the bondholders, C. H. Gest of Fay & Gest of Seattle, appeared for the Wharton-Blair reorganization party of bondholders. Judge Bronaugh appeared for the receiver and Mr. Luthicum for the National Park Bank and Vermyle & Co. of New York, holders of certificates. Mr. E. W. Hadley, recently manager, was appointed receiver and qualified at Eugene Monday. The request for a postponement of the sale for three months was refused, and the sale took place Tuesday. The matter of postponement will be argued the 10th, in case of no sale now, as there will probably not be, under the arrangement \$75,000 in receiver's certificates will be bought by Mr. Gest's clients at once and the men paid. The result is highly gratifying and means a good deal for the future of the road. Mr. Hadley will appoint a new manager at once. The sooner the complete exit of the Hogg faction is chronicled the better. Whatever they did in the early work of the road their more recent management justifies this statement.—Democrat.

### C. C. HACKLEMAN.

The bank of Hamilton, Job & Co. was victimized to the tune of \$320 through a clever piece of forgery on the part of one James Baker, alias Condry, alias McKinney, a young man who has made his home the past winter on Sosp creek, whose name he forged to a check. He had at one time been given a check for a small amount, which he kept and imitated in filling out a blank for the above stated sum, and so perfectly did he counterfeit Mr. Brown's signature that it escaped detection at the bank. The forger skipped, and no tidings had been heard of his whereabouts at last accounts.—Corvallis Gazette.

The board of directors for the Harrisburg Water Power Company, says the Courier, met in regular session last Saturday, the 25th inst, and made it a part of their business to instruct their executive committee to make some compromise with Mr. Mendenhall's folks for the right-of-way for the ditch through their premises. This move on the part of the company, if met with a corresponding liberality by the other side will lead to an equitable settlement of the matter, save expense for both parties, and for future reference will be vastly more pleasant than if settled by the strong arm of law.

Gov. Penoyer yesterday granted full pardons in favor of Wm. Russell and Benjamin Dearing, sentenced in 1889, to serve five years for the crime of larceny, the pardons being recommended by the district attorney. Frank Hart, committed from Union county, for the crime of assault and robbery, and received at the prison July 2, 1892, to serve a term of five years, was also pardoned. This pardon was recommended by the district attorney, on the ground of doubt of his guilt. Godfrey Brose was also pardoned, upon recommendation of the district attorney. He was convicted in Union county for the crime of manslaughter. He was received at prison on November 5, 1890, and was sentenced to a term of eight years.

A Dallas paper sums it up this way: "The man who paints his yard fence, cleans up his premises, whitewashes his barn and outhouses and keeps walks in front of his gate, is a greater benefactor to the city than the individual who spends his time on the street corners prating about a slurrion city and the dead condition of his adopted home."

The latest novelty received in Portland in the bicycle line is the "Twins." Two machines joined together by connecting rods. Any lady or gentleman or two ladies may set side by side, and ride these machines without any danger whatever, as it is impossible to fall.—Telescope.

The county court has under consideration a petition numerously signed by the tax payers of the county, asking that the county restore to Ex-Sheriff Rice the \$1000 of county funds stolen from him—many years ago—and repaid by him to the county. At the time of the theft the county had no safety vault in the Sheriff's office and Albany had only one very small bank. Mr. Rice had returned from a tax collecting tour late in the evening, placed the \$1000 of county funds, with warrants and other papers in a box in the office of the clerk. The next morning the box was gone. A note shoved under the Sheriff's door several days afterwards told where the box and papers—minus the money—could be found. It was recovered, but the money was never found. After many years the friends of Mr. Rice are urging the county to restore to him the \$1000. It seems to be just and proper that this be done and we hope the county court will so decide.
