The past has been a week of accidents to the mill hands. T. Druce, who works on the carriage, received a severe injury to his foot dropping a dog on it. Fred Hester dropped a jacket plank on his foot, mashing his toes, but has regained his balance. Elmer Hester who works on the tram car, caught his foot in the wheel of the car, which threw him to the ground, striking his head violently against a stump.—Seio Press.

It is said injunction proceedings will be instituted whenever the governor, secretary and treasurer may proceed as provided under the general appropriation bill to purchase the stove foundry at the state prison, for which purpose the sum of \$65,000 was appropriated. Section 6 of the jute mill bill is opposed to the stove foundry scheme. "After the said jute mills are completed and put in operation nothing but jute fabrics and brick shall be manufactured in the state penitentiary; provided, nothing in this section shall be construed to prevent the manufacture of any article designed for exclusive use in the penitentiary."

Portland baseballists have taken the initial step toward forming an amateur baseball league in this state. E. W. Hammond, of Salem, who has managed a club every season for the past four or five years, and has been very successful, thinks that a six or eight-club league could easily be put on a paying basis. The cities which have been decided upon are Portland, Salem, Astoria, Albany, Eugene, The Dalles and Oregon City. They have not yet selected the eighth town which will complete the circuit. Mr. Hammond will visit or correspond with amateur baseballists in all these places, and is confident that a league will be formed.

A sad accident occurred last Sunday evening on the Gibbons Bros.' farm, about three miles east of Lafayette, in which George Gibbons lost his life. George and Dan Gibbons were doing some butchering some distance from the former's house, when they discovered his house on fire. On arriving at the house, George, believing his family to be within, made a rush into the house and was soon overcome by the intense heat and smoke. Dan made repeated efforts to reach his unfortunate brother, but owing to the intense heat was unable to do so. Only a small portion of the remains could be found. Dan Gibbons was severely burned about the face and hands. At the time of the fire the family of the unfortunate man had gone over to his brother's house visiting, and had George known of the safety of his family the unfortunate affair would not have occurred. The family consists of a wife and four children.

A San Francisco dispatch says: The clerk of the United States circuit court of appeals has received information of the government's intention to dismiss its case against the Willamette Valley & Cascade Wagon Road Company. The case is one of several of the same character in which the government sought to recover large tracts of land in Oregon, which had been granted by the United States to aid the construction of wagon roads. The government claimed that the roads were not constructed in accordance with the act of congress making the grants, and that the patents to lands were obtained by fraud. The defense of the corporations which now own the lands was that they purchased in good faith from the original grantees without knowledge of fraud. This defense was sustained by the supreme court a few weeks ago in the cases against the California & Oregon Land Company, and The Dalles Military Road Company, and in view of that decision the government considers it useless to prosecute its appeal in the remaining case.
