My wife was confined to her bed for over two months with a very severe attack of rheumatism. We could get nothing that would afford her any relief, and at last resort we gave Chamberlain's Pain Balm a trial. To our great surprise began to improve after the first application, and by using it regularly she was soon able to get up and attend to her house work. E. H. Johnson, of C. J. Kautson & Co., Kensington, Minn. 50 cent bottles for sale by M. A. Miller.

CHICAGO, April 25.—Two hundred Zeins for the world's fair arrived this morning and created a sensation. The first advice of their approach was a call for the police. A load of blue-coats was sent out to meet the train at Sixty-first street, and found the train crew besieged in baggage car and the Zulus in possession of the train. It seems one of their number lost something and held the conductor responsible. They were only pacified after a long palaver and taken to their destination within the grounds.

Cigarette fiends do not worry about the law prohibiting their sale and use in Washington, says the Walla Walla Union. The law does not define what is or shall be considered a cigarette or cigarette paper. It simply makes it unlawful to make, buy, sell, give away or furnish cigarettes or cigarette paper. The same identical little stinking nuisance, now called a cigarette, will continue to befool the air, flavor the breath, and stain the fingers of men and boys, but it will not be called a cigarette. It will be given another name; perhaps it will be called a Roscoe after the author of the law. "A rose by any other name will smell as sweet." Hereafter, a cigarette, disguised as a Roscoe, will stink as badly.

The Statesman has the following to say, in regard to the purchase of the stove foundry at the prison, and the proposed jute mill. The state was authorized to pay as high as \$65,000 for this plant, had the officers thought it to be worth that sum. Five different appraisements were obtained on the property, and the price paid (\$40,000) is said to be no more than the property is worth. This will prove a boon to the officers of the state prison, for the men, long idle, are beginning to be quarrelsome. Those states that have tried to get along with their unemployed have always found most difficult task. With the proposed jute mills and the stove foundry the state will be able to furnish employment for all of her convicts. The jute mill, however, will not be ready for operation until some time next year, and when completed will not employ one-half as many convicts as the state is expected to have by that time. There will be also employment for quite a number for several months during the summer, in the brick yard, in the manufacture of bricks to be used in the construction of state buildings. By acquiring this plant at the figure mentioned, the state officers will still have \$25,000 of the original appropriation to use in the purchase of material and in the operation of the foundry until the institution begins to bring in turns.

Persons who are subject to attacks of bilious colic can almost invariably tell, by their feelings, when to expect an attack. If Chamberlain's Colic, Cholera and Diarrhoea Remedy is taken as soon as these symptoms appear, they can ward off disease. Such persons should always keep the Remedy at hand, ready for immediate use when needed. Two or three doses of it at the right time will save them much trouble. For sale by M. A. Miller.
