When visiting Albany don't fail to give them a call.

A Sunday school picnic is announced to occur on the Academy grounds in this city on Tuesday next; given to the Sunday schools of the M. E. church, South, of Lebanon, Albany, Spicer and Tangent, especially, but to which all Sunday school children and friends are invited. It is expected that all the schools of this city will attend and participate in the program.

## Waterloo Notes.

Work on the streets has been commenced and in a short time there will be a few good streets.

The grounds for our new school house are nearly cleared and will be ready for the beginning of work on the erection of the building in a short time.

Work on the new church was begun a few days ago.

The factory still does not run to any great extent.

Prof. Bark, State lecturer for the Farmers Alliance delivered two lectures here last Sunday afternoon and evening to large and very attentive audiences.

Messrs. Marlow & Swink have opened a meat market here and will try their hands at supplying the hungry with choice beef. They bought out the business formerly owned by David Hutchison.

Mr. Marlow has moved his family from Sweet Home and become a resident of Waterloo. He has rented Frank Leslie's residence.

Frank Leslie is attending the bedside of his sister Mrs. Parrish, of Sodaville, who is not expected to live but a few days longer.

The skating rink under the big maple is now running in full blast. There seems to be a good deal of interest taken in this rough amusement and a vast number of very hard falls have been experienced by some of the would-be graceful skaters.

At last the river has gone so low that the spring is unobscured and the "sparkling, delicious soda," can be had by those who are desirous of drinking such a beverage. We may expect to see crowds of thirsty ones on our streets from this time on.

## Administratrix Sale.

Notice is hereby given that the undersigned Administratrix of the estate of George B. ## Those Bones.

Recently some bones were found in the basement of the new postoffice block, just excavated. Dr. Maston sent them to Prof. Condon, at Eugene, and has received the following answer:

EDGENE, OR., June 10, 1893.

MR. G. W. MASTON—Dear Sir: Your favor of the 3d and the express package to which it refers were both duly received. In response to your request I hereby send your description:

The bones are fragments of right and left pelvic bone of a small elephant. The sockets of the right and left hip joints are very well preserved. The animals lived tens of thousands years ago when the whole Willamette valley of today was covered with water the water of the "Willamette Sound," of the Champlain period. At the time of this Sound condition of the valley, these elephants lived on the foothills around the sound, and sometimes their carcasses would get washed by streams into the sound and get covered in sediments of sand, gravel or mud. The animal to which these bones belonged was probably 9 or 10 feet long.

Should you find anymore of the skeleton, especially the teeth, you might desire to keep the best of these bones as a collection. If so, write me.

Very respectfully,  
THOMAS CONDON.

—DETROIT.

## The Picnic.

The Maccabee picnic that was given at this place last Saturday was a success in every respect. The crowd was not as large as it would have been had it not rained, but there were at least 500 or more in town any way. On account of the rain the races etc., were out near the Band Hall. Every thing of the day went off nicely, and the committee on arrangements deserves much credit in the way they conducted the day's program.

We are sorry that we were not able to secure a list of those who received the prizes. We were expecting the committee to furnish them, but they failed to do so.

S. C. Smith, of Blue River, was in town this week. He reports that Monday he went to the top of Gold Hill, in the Blue River mining district, and found three feet of snow on a level on the summit. He thinks that by the 20th inst the snow will be sufficiently gone so that mining operations can be resumed. He says parties having claims on the south side of the hill can work them now.—Eugene Register.

The Friday's Herald says: Information was received in this city last evening that the Corvallis carriage factory was closed yesterday. Attachments amounting to \$35,000 were placed upon the plant and stock by Honeyman & DeHart, of Portland, and Eastern creditors. The assets, it is said, will largely exceed the liabilities. A considerable amount of wood has recently been furnished the factory by parties in Linn and Marion counties up the Santiam, which has not yet been paid for. The company had recently been trying to arrange to remove the factory to Portland.

## Council Proceedings.

Council met last Friday, with all the members present.

By motion a fire hydrant was ordered to be placed at the corner near the residence of Jos. Etkins.

Communication of the marshal regarding the condition of Dr. Lamber's residence was read and the marshal was ordered to have the same attended to.

The following bills were ordered paid:

P W Morgan, \$24 25; Wm. Reatherford, \$3 60; Cost in case city vs Lovell, \$3 50; Westfall & Smith, \$4 70; Electric Light Co., \$60.

Council then adjourned until next regular meeting.

Clark Bros., consisting of J. E. and C. E. Clark, who have been running a mill in the Forks of the Santiam for a good many years, have made an assignment to G. W. Cruson, of this place. Their assets are given as \$9,604 28 and liabilities at about \$5000. J. W. Gains is the principal creditor, his claim being over \$1400. The Albany creditors are: Linn County Bank \$400; Knapp Burrell & Co., \$178 25; J. J. Whitney, \$20; Stewart & Sox, \$5 17. The principal creditors reside at Scio and vicinity. Stowe & Somers, of this place are the Attorneys for the assignee.

The Ochoco Review tells this: Last Tuesday James Brackett, a boy who resides on Bridge creek, was examined before Judge Sumner on a charge of stealing a horse from Frank Foster. The evidence showed that Foster and the boy had traded horses, and the former having concluded that he had the worst of the bargain, took the horse he had received from the boy to Brackett's home and traded back without the boy's consent. Young Brackett in turn took the horse back to Foster's place and without his consent got the one he had traded for, leaving the horse he had traded for Foster. Foster then had him arrested for larceny. After the evidence Judge Sumner discharged the defendant and assessed the costs of prosecution, \$154, to Foster.

I would be very much obliged if the person who carried off my 12 inch monkey-wrench would bring the same back. If you don't you are liable to get into trouble.

J. A. DOBKINS.

## Camp Meeting.

The second annual district camp meeting of Albany District, Oregon Conference of the Evangelical Association will be held this year at Waterloo Oregon, beginning on Sunday, June 20, 1893, and to continue over Sunday. Rev. I. B. Fisher, presiding elder of Salem, will be assisted by the ministers of his district. A cordial invitation is extended to all lovers of our holy religion, and especially all members of the Evangelical church to attend. Bring your Gospel Hymos No. 5.

## A Wonderful Clock.

N. C. Engberg, an old jeweler who lives just above Waterloo, has made a clock which measures 9 feet 1 inch in height 2 feet 8 inches wide at the base and is 14 inches deep. The frame work has one thousand and fifty pieces of wood, all of which grew in the Willamette valley. He has been working about three years at odd times on the frame, but much longer than that on the works, all of which he made himself except the dial. It will now run six weeks when wound up, but Engberg intends to add to it so it will run a year. All jewelers who have seen the frame pronounce it one of the finest they ever saw. Mr. Engberg intends to bring the clock to Lebanon in a few weeks.

## Robbed of Eighty Dollars.

Dr. Smith, a well-known physician, of Halsey, was a victim of Portland pickpockets last Friday morning. He went to the union depot to purchase a ticket to Halsey. In doing so he took from his purse a \$5 gold piece, which he placed on the counter at the ticket window in payment for his ticket, dropping his purse containing \$80 into his pocket. There was a crowd around the window waiting to secure tickets, and Dr. Smith felt some one jostle against him, and at the same time a well-dressed, flashy appearing young man picked up the \$5 gold piece Dr. Smith had placed on the counter and remarked that the crowd was too large for him, and he would pay his fare to the conductor after he had boarded the train. This attracted the attention of the doctor from the man who had jostled against him and he straightway seized the man who had attempted to rob him of the \$5, little thinking that his purse and \$80 had fallen into the hands of the fellows confederate, who had escaped while he was trying to recover the \$5 piece. It was not until he had secured his ticket and change which he had proposed putting back into his purse that he discovered that he had actually been robbed of \$80. The police were at once notified but did not capture the scoundrels.

The citizens of the Squaw creek country are taking steps to construct a wagon road from beyond that neighborhood to the O. P. railroad, a distance of 20 miles. It is said that a good road can be made with little difficulty and at no very great cost. In case the road is made, Princerville would be within 80 miles of railroad connection. We are told that those interested have written to the Bond Land Co., asking assistance in the matter. We hope the scheme will materialize, as this town and vicinity will also reap many benefits to be derived from such connection.—Princerville News. Judge Duncan has received a private letter from Crook county, inquiring if Albany business men would not be willing to contribute to such an enterprise.
