Every town including Eugene needs a club for "setting down" on chronic growers, men, who run the town and everybody in it down. Life is too short to be wasted on such men. Every good citizen should put his shoulder to the wheel and rustle instead of growling. Both are catching, and which had you rather have flamed into a conflagration.—Guard.

The Dallas Chronicle says: It is in times like these that the outlay of a few thousand dollars establishes the foundation for monumental fortunes. One requires nerve of course, to buy property when everybody looks for blue ruin and chaotic conditions, but on the principle that majorities are always wrong, those who have the courage of their convictions, and the wherewithal to back them, cannot do better than to place their money in some of the bargains that are now generally available all over the country.

Work on the new Portland union depot is progressing at such a rapid rate that it may be possible to have the station under roof before the rainy season comes on. The superstructure is rapidly assuming imposing proportions. The floors of the north wing have been laid, and the steel girders for the next section, the iron pillars and the sawed sandstone for the window sills are all on the ground. The Harrisburg Courier gives an extended account of how the wife of Ed Hearn of that city packed up her things and left for her former home in the East. The Courier says: "The marriage, which took place at home of Mr. Hearn's parents in Milford, Ill., August 7th, 1892, was a somewhat romantic affair having never seen each other before the wedding day. Family correspondence had revealed the existence of the one to the other, and a few months later they were married. This is Mr. Hearn's second matrimonial venture, the first having ended just as disastrously as the second and not altogether unusual, it is said. If this is not enough to convince him that marriage is a failure he must be a very tenacious pupil."

At a meeting of the school board last Monday evening, Prof. Meheener was re-elected principle for the coming year and Miss Fannie Griggs, Mrs. Funk and Miss Abbie Fry were elected as assistants. All of the old teachers were re-elected with the exception of Miss Carothers, who has accepted a position in the Albany school. Herald: For several evenings about nightfall a young man of this city has attracted attention by mounting and walking over the topmost steel stringers of the big bridge across the Willamette. The name of the acrobatic gentleman is Carl Bender, and he seems to take this foolhardy evening stroll at that dizzy height merely for pastime. Last night he not only walked over as usual, but stood upon his head on the narrow rail on the top of the bridge. A few evenings since he attempted to stand upon the ball at the pinnacle of the steel lace work, but his foot slipped, when he caught himself just in time to prevent dropping into the placid waters of the Willamette nearly 100 feet below. Some small boys have begun to emulate his example, and have recently been learning to walk the hand rail of the sidewalk of the bridge.

Herald: Deputy U. S. Marshal George Humphrey arrested Lewis Dyer and J. W. Brown in this city yesterday on a charge sworn out by Charles Thompson and others at Niagara, charging them with perjury in making false affidavits that there was no improvements on certain land they filed upon recently in the land office at Oregon City. It is alleged they jumped the lands which are now being contested, and which had previously been settled upon and houses built thereon. Dyer and Brown waived examination before Justice W. E. Carl, acting as U. S. commissioner, and were held under \$200 bonds each, to wait the action of the grand jury. It is likely that Sam Brown, son of J. W. Brown, will also be arrested today on a similar charge.
