The Salem Independent says those residents of Polk county who are tributary to the big bridge are very indignant over the stand taken by their county judge, and are talking seriously of asking the next legislature for a division of Polk county that will annex the east part of the county of Marion. Three young men started last Friday from the City Hall in New York to walk to San Francisco in 170 days. That itself is nothing remarkable, but the strange part of their long journey is that it is to be performed without eating any food. The leader of the party is a chemist who claims to have discovered an elixir made from a Madagascare herb that will sustain life. He has tried the elixir himself for several days without eating no food at all, and now his idea is to make a crucial test of this discovery by subsisting himself and his two companions on it during a walk across the continent, which will be admitted to be as severe a test as could be devised.

The success of Mrs. Annie M. Beam, of McKeesport, Pennsylvania, in the treatment of diarrhoea in her children will undoubtedly be of interest to many mothers. She says: "I spent several weeks in Johnstown, Pa., after the great flood, on account of my husband being employed there. We had several children with us, two of whom took the diarrhoea very badly. I got some of Chamberlain's Colic, Cholera and Diarrhoea Remedy from Rev. Chapman. It cured both of them. I knew of several other cases where it was equally successful. I think it cannot be excelled and cheerfully recommend it." 25 and 50 cent bottles for sale by M. A. Miller, Druggist.

Two farmers were not long since discussing their local newspaper. One thought it had too many advertisements in it. The other replied, "In my opinion the advertisements are far from being the least valuable part of it. I look them over carefully and save at least five times the cost of the paper each week through its business advantages I get from them." Said the other; "I believe you are right—I know that they pay me well and rather think it is not taste to find fault with the advertisements after all." Those men have the right idea of the matter. It pays any man with a family to take a good local paper for the sake of the advertisement if nothing more. And if business men fail to give farmers a chance to read advertisements in the local paper they are blind to their own interests, to say the least of it. "You have never invited me to your place of business and I never go where I am not invited, I might not be welcome," was his reply.

Here is how the Seattle banks held their own according to the Portland Welcome. The banks in Seattle formed a union, through which all the lock boxes in the safe deposit vaults were bought up and it was agreed that when one bank would be forced to close that they would all immediately do the same, and if a deposit was drawn from a bank, and the party withdrawing such money should wish to deposit it in some other bank, and such bank and all others, would refuse the deposit, thus forcing the depositor to return to his own bank or hide his funds away.

Mr. Thomas Batts, editor of the Graphic, Texarkana, Arkansas, has found what he believes to be the best remedy in existence for the flux. His experience is well worth remembering. He says: "Last summer I had a very severe attack of flux. I tried almost every known remedy, none giving relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me. I purchased a bottle and received almost immediate relief. I continued to use the medicine and was entirely cured. I take pleasure in recommending this remedy to any person suffering with such a disease, as in my opinion it is the best medicine in existence." 25 and 50 cent bottles for sale by M. A. Miller Druggist.

The bank at Cottage Grove closed its doors Monday. The people understood Monday morning that the bank was about to close up its business, and some of the depositors withdrew their funds, about fifty to one hundred dollars being paid out. The bank proceeded to settle with the depositors in the best way possible, and a mortgage for \$1500 on the Annie mine was turned for the benefit of all. There was about \$2000 on deposit. Tuesday morning the Commercial National bank of Portland filed an attachment on the bank building and fixtures for a claim of \$2000, which is in the form of a mortgage given last February. The proprietors of the bank state that their assets are about \$6000 and they owe \$2000, so the depositors do not feel very uneasy and no particular excitement exists. Some of the depositors were given notes to settle their claims: No doubt all of the depositors will be paid in full, and the bank will cease business.

An Adroit Smuggler.

PORT TOWNSEND, Aug. 5.—Sing, a christianized Chinaman who has been employed on the revenue cutter Oliver Wolcott for ten years as the captain's private steward, was arrested today on board that vessel for smuggling opium into the United States from British Columbia. When the Chinaman's apartments were searched, eighteen five-ounce cans of prepared opium concealed beneath his bunk. The cutter was in Victoria yesterday and, as was customary, the steward was permitted to go ashore and return at his pleasure. Late in the evening he returned aboard carrying a package which he accidentally dropped. He then began to act in a suspicious manner. After the cutter left Victoria for the American side, Captain Roath ordered his room searched with the above result. For many years Sing, who speaks and writes English readily, when visiting ports in British Columbia on the cutter always returned aboard with a small package which was never examined. It is now believed that his smuggling operations extend into tens of thousands of dollars. It is learned that he frequented gambling houses and there lost large sums.

It seems to be something of a family quarrel between the private prosecution and Mr. Duncan and the end is not yet.

The new postal money orders to be provided by the government will soon be issued. In the new system there will be no complication. Sheets will be issued calling for amounts from one cent to three dollars, which can be torn off to suit the purchaser. The postmaster will have no writing to do on it, the sender simply endorsing it the same as a check or draft. One cent will pay the charges in any amount up to three dollars, instead of three cents as now.

Word came to this city yesterday that the S. P. train on the west side had run over and killed Mr. G. S. Bell, an aged farmer living near McCoy, Polk county. It appears that Mr. Bell was driving a team to a light wagon, and attempted to cross the track in front of the train. He was thrown into the air and fell under the wheels and was instantly crushed. He was a well known resident in that section, and his death will be deeply regretted. He was about 70 years old.—Herald.
